

THE ADVERTISER

KENTVILLE, AUG 1, 1916.

H. G. HARRIS

Editor and Publisher

We find it necessary to ask pardon of our subscribers for delays in issuing both of our papers last week, Tuesday and Friday. Difficulties with our machinery caused the regretted delay.

The expected has happened and the Meredith-Duff commission has passed in its report which exonerates the Government and the Minister of Militia from any neglect or wrong doing. After all the shouting and fuss over terrible revelations and corruption Mr. Kyte has been compelled to admit he made no charges and that the frothings of the Liberal politicians was for momentary political effect and not for the good of the Dominion.

TOWN POLICE COURT

Monday morning saw some unusual excitement in Police Court circles. Since the Militia Camp assembled here the Provincial constables, Chief of Police and N. S. Temperance Act Inspectors have kept the lid on pretty tight and as a consequence little drinking has taken place. But Sunday the lid was lifted into court before Deputy Stipendiary Shaffner and all pleaded that they obtained their liquor from soldiers. Whether true or not they all received a stiff fine.

Charles Wilson of Bear River came to Kentville with an auto to make some money out of the soldiers. All went smoothly until he got tangled up with a telephone post near the Wickwire hill and knocked the post out in the first round. The auto was considerably the worse of the encounter. He was gathered in by our police and was fined \$20 which he paid.

Wm. Carroll was accused of being found drunk on the street and the fine meted out to him was \$15 or 20 days.

H. Belcher was also gathered in with the others and fined \$15 or 20 days. A short time was given for the payment of last two fines.

The atmosphere around Kentville is now very unhealthy for any one who patronizes the choice "mountain dew."

HOLLAND DEFIES

Germany in her threatened reprisal

The Hague, July 27—Holland has defied Germany and the threatened reprisals by the Kaiser's government in refusing the recent demand that she permit canal boats to go from German to Belgian territory through the Dutch canals whatever their cargo. Under international law munitions of war cannot be permitted to pass through neutral territory, but Germany's anxiety to improve her transportation facilities to the Belgian front led her to demand that Holland violates this law.

The Dutch refusal has brought the demand to a crisis, and all here are anxiously awaiting to see whether Germany dare attempt to make good her threats.

LOOKS AS THOUGH BRITAIN EXPECTS WAR WILL END SOON

London, July 27—In new contracts made by the British Government Departments for material concerned with the war there appears a clause providing that such contracts may be canceled at any date after September next.

Amsterdam, July 28—A Berlin official statement says that four German destroyers have captured two British cargo steamers in international waters off Landskrona, Sweden.

BRITISH AND FRENCH STILL ADVANCING

Germans Backing Towards Home

London, July 30—The joint Anglo-French attack was resumed on a seven mile front of Somme this morning, and all along the line from Delville wood to the river the Germans were driven back from a quarter to half a mile.

Desperate German counter attacks were repulsed, all the ground taken was held, and as a result tonight the British are holding lines to the east of the Waterlot farm and the Trones wood, just under the edge of Guillemont, and the French have clearly Hem, the woods and quarry north of it and the Monacu farm and have reached the outskirts of Maurepas.

It was to the French that the bulk of the day's honors fell. Springing from their trenches in the early morning they drove the Germans from a complete system of trenches five miles long and in places a half mile deep.

There had been the usual heavy artillery preparation, and they found little left of the German trenches which they could turn to their own use. But they immediately dug in and when the fierce counter attacks came were ready and held firm. The fighting is reported as desperate, particularly near the Monacu farm, and the German losses were very heavy.

The British were fighting over territory they had won and lost before. This time they were also ready for the counter drives and night found them holding all they had gained. The drive took them to the edge of Guillemont, which they had entered twice before.

The day's successes menaced the German lines in two ways

The allies have driven a wedge in between the Albert ridge and Peronne. The most serious danger lies to the north, where they are passing around as well as over the eastern end of the Albert ridge, and will soon be in the rear of the German lines there. The French threat to Peronne is also grave, since they have straightened and cleared their lines north of the river, in the direction from which their final attack will be launched.

The renewal of the intense bombardment is on a wider front than the Somme attack, and the British raids around Ypres and Loos, forecast a wider offensive than has yet taken place, military experts here believe.

TERRIFIC EXPLOSION AT NEW YORK

An explosion took place at Black Tom pier New York on Sunday where a huge amount of explosives for the Allies were awaiting shipment. It seemed to shake the whole city and the loss is heavy. Two men have been placed under arrest charged with manslaughter of four who were killed and about forty others wounded.

About \$5,000,000 worth of ammunition was destroyed.

WHO IS MAKING THE MONEY?

The cost of hard coal at the mines is reported to be \$2.07 for 2000 pounds. Somebody must be making a good profit out of it when it retails at \$10 per ton, and the high cost of this necessity is a very serious problem to a large majority of those who use it.—Ex.
