WHERE DOES McCOIG STAND?

An Ottawa correspondent states that it is generally understood that Minister Fielding has the tariff bill ready for prompt submission to Parliament, which, if true, disposes of the pretence that time was so precious as to forbid the reception of the farmers' deputations.

The correspondent adds that the indications of a radical change in the tariff which appeared a few months ago are no longer in evidence, and says: "While the bill may contain features of important interest to the people of the United States, it seems little probable at present that any very radical change will be made."

What is Mr. McCoig's stand on this important question? So far that ambitious politician has, to all appearances, had no stand whatever, on any question. Why is he silent? Can he do nothing but smile? The people of this riding know Mr. Clements' ideas in this important matter. He believes in equal protection for the Canadian farmer, and when the session opens, he will be found at Ottawa fighting the battle of the farmers whom he is pledged to serve. He may be assured that the agriculturists as a whole are behind him in this vital effort in their behalf.

DUTIES OF PARENTHOOD.

According to the recent investigations of a Scotchman, one-half of the children born in the British Isles come from one-fourth of the families, and that fourth is made up, in a large degree, of the class in every sense the poorest in the land. The number of births is inversely small among the well-to-do and educated classes. This is an aspect of our modern civilization, showing itself in nearly all Anglo-Saxon countries, that is really serious and that must some day get more earnest and honest consideration than it has ever yet received. The serious thing is not that the poor have many children and the rich very few, for the sons and daughters of poor men have often given a splendid account of themselves, and the children of the rich have very often turned out badly. But the strong, intelligent middle class are refusing to bear their burden of parenthood, and the weak and diseased and criminal are increasing at an alarming rate.

The problem that this situation creates is among the most vital and pressing of all those that confront our time. We have put off its serious discussion altogether too long, and in consequence we have suffered, and are due to suffer, much. The false standards of our time and the love for ease and social pleasures and distinctions are accountable for a condition of things that no thoughtful man can view but with alarm.—Christian Guardian.

"Herb" and "Sally" are winners!

"Hon. Chas. Hyman was wise when he decided not to resign."—Banner. Right you are, old boy! Your Uncle Charlie takes no chances. Besides, they cost too much money.

Guelph has kindred another industry—The Gibson Manufacturing Company. Guelph has an active Board of Trade, and the results are plainly evident. This is another daily lesson to Chatham on the advantages which accrue to any city from a properly conducted Board of Trade.

Mr. Clements is at present earnestly engaged in an attempt to secure a cut-off for the River Thames. He has spent much time and effort in trying to accomplish something along this line, and it looks at present as if something beneficial to this community, may yet result.

Conservative nominees for the party candidacy in West Kent fight vigorously for the honor, while the Liberals in East Hamilton are backing a labor man, unable to find a candidate of their own. The once great Liberal party in Ontario is losing what little strength there remained after January 25, 1905.—London Free Press.

"It's small wonder that H. S. Clements' condemnation—to quote The Planet—the action of the Roblin Government when they legislated to the effect that the national flag should be unfurled over every school house in Manitoba,"—Banner.

The above is nothing more nor less than a treacherously premeditated falsehood. And as such, it is on a par with several statements made in that Liberal organ last evening. The evidently thick-skulled editor of the Banner knows—or should know, if he is possessed with the average allotment of human intelligence—that Mr. Clements COMMENDED the action of the Roblin Government, and it was so reported in The Planet.

Was it "lapse of memory" which kept the Banner from reporting the splendid speech made by Mr. Clements at the Saturday Convention? Was it too convincing, and thereby too dangerous for insertion in the local Liberal organ? The disappointed editor of the Banner might just as well treat Mr. Clements with courtesy, because everyone will have an opportunity of hearing that popular young member on the platform, before the next election.

The Banner says Mr. Clements excluded their reporter from the Saturday convention, and yet they will not—and cannot—deny that a member of their reportorial staff was present at the meeting, took notes of the proceedings, and furnished the Banner with the information from which their report was written. And yet they say that Clements really—Oh, rubbish, my boy! Talk sense! The story is almost as contradictory as the evidence in the London Election Trial!

The fact that there are illiterate people in Northern Ontario, who cannot sign their own names is viewed as alarming, and an effort will be made to secure schools for that section of the province. Here in Chatham, there are people who cannot sign their names, and we have the very best schools. All of which shows that there are people who do not realize what they have a good thing. A little more care in the enforcement of the Public Schools Act where there are schools would be a good remedy, and the appointment of a competent Tenant Officer in Chatham would help a lot.

The Banner makes much of the fact that the Conservatives paid up their past debts for rental of the Auditorium, before they started the big convention on Saturday. The sleepy organ evidently does not know that at this moment the Liberal Association is heavily indebted for the rental of the Auditorium for their last convention, and rumor has it that they will have to pony up before they can meet there again. Wonder if Mr. McCoig will pay this bill!

In another column will be found a letter from Mr. Elliott, of California, relative to the San Jose Scale in Kent. Mr. Elliott, who is an experienced fruit grower, strongly condemns the idea advanced by A. B. McCoig of cutting down all trees infected with the scale, as the only way to rid the county of this undesirable pest. The more information received on this subject the more clearly it is shown that the scale can be successfully treated through spraying. How fortunate for the farmers, the Government at Toronto did not act on Mr. McCoig's unfortunate suggestion, but decided to institute a system of spraying. It is hoped that the fruit growers of the county will be much benefited from the advice so generously offered by Mr. Elliott.

DIAMOND DYES

WILL COLOR ANYTHING ANY COLOR.

The most wonderful helpers in the home to economical dressing are the DIAMOND DYES. They are so easy to use that even a child can dye a rich and perfect color with them. DIAMOND DYES make faded and dingy dresses, blouses, capes, jackets, stockings, scarfs, laces and draperies look like new.

Beware of dyes that claim to color cotton and wool with the same dye. It is impossible to get satisfactory results from dyes of that character. In DIAMOND DYES there are special dyes for coloring all cotton and mixed goods, and special dyes made for all wool goods. Each of the DIAMOND DYE colors is guaranteed to give full satisfaction when used according to directions.

Sent to Wells & Richardson Co., Limited, 203 Mountain Street, Montreal, P. Q., for valuable Dye Book and Card of Dyed Samples; free to any address.

It is a mistake to suppose that all women are peace-makers who make up.

It is impossible to gauge the good there is in others by the way they talk.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, it requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials. Address: F. J. CENEY & CO., Toledo, O.

Sold by all Druggists, 75c. Take Hall's Family Pills for constipation.

Be real men, and the kingdom of truth will honor you.

FOR ART CULTURE

Successful Meeting Held By Thamesville Society—A Methodist Anniversary

(From Our Own Correspondent.)
Thamesville, Nov. 12.—Jack Mowbray spent yesterday in Chatham. Mrs. Crotty and Miss Case visited Chatham on Saturday.

The first regular meeting of the Art Culture Club was held Saturday afternoon at the home of Mrs. John Coutt, Saskatchewan and Alberta were represented by two splendid maps, drawn by Miss Sophia Allison, one of Canada showing the relative position of these provinces.

The geography of these provinces was taken up in a most interesting way by the president, Mrs. Duncan. Each member responded to the roll call by the name of a place, river or lake in these provinces, and the special significance of this place. Next meeting this response will be from a favorite Canadian poet, chosen by each member. Special music was arranged by the musical director, Miss Mac Smith. Much interest is manifested and the season's meetings promise to be a greater success than ever before. The meeting adjourned to meet again on Saturday, Nov. 23.

In spite of the threatening weather there was a large congregation in the morning, on the occasion of their anniversary services. Rev. Dr. Cook spoke in his usual able way and strengthened the high opinion in which he was previously held in Thamesville. The choir rendered especially fine music. Rev. Dr. Cook spoke again in the afternoon at three o'clock, to a large congregation, the choir from St. James Church taking the music on this occasion. Rev. Fulton Irwin took the service at night. The free will offerings at all services were large, \$125 being asked for.

St. James Church was crowded on Friday night, on the occasion of the presentation of the San Francisco disaster, in an illustrated lecture by J. M. Morris, of San Francisco. These views were particularly good, and were taken by Mr. Norris himself, who made each picture vivid to the minds of the audience by some significant association, often personal. His splendid machine was operated by Milton Cryderman.

A number of Workmen from the neighboring towns assembled here on Friday night, when some special work was done in the lodge rooms. The ladies served a dainty supper at the close.

Mr. Walker, of Chatham, visited in town on Friday.

Duncan McCulloch visited his sister, Miss Evelyn McCulloch, on Friday.

Mr. and Mrs. McLaughlin, Toronto, are visiting relatives in Thamesville and Kent Bridge.

Very successful reports come from Dr. Buck, formerly of Kent Bridge, now of London, England. Dr. Buck is taking a special course in the above city, and will return to Ontario early in 1907, when he will devote all his attention to the practice as a specialist on nose and throat troubles.

Miss Marion Blair spent Sunday at her home in Bothwell.

Mr. Stephenson spent the week week end at his home in London.

Rev. Father Brennan conducted low mass in the R. C. Church Sunday morning.

TO CURE A COLD IN ONE DAY, TAKE LAXATIVE BROMO-QUININE TABLETS. At all druggists. Refund the money if it fails to cure.

E. W. Grove's signature on each box. 25c.

Continued from Page 1.

er. Slack the lime by addition of a small quantity of water, and when slack, cover freely with water, and stir. Pour the milk of lime into the copper sulphate, straining it through a brass wire strainer. Pour more water over the remaining lime, stir and pour into the other; repeat this operation until all the lime, except one lump or so, is taken up in the milk of lime. Now add water to make 50 gallons in the tank. After thorough agitation the mixture is ready to apply. The mixture must be made fresh before using, and any left over for a time should be thrown out or fresh lime added.

LIME, SULPHUR AND SALT WASH

For pernicious scale, and as a preventive of cut leaf on peach trees, the following formula and directions, if properly carried out, will produce an effective remedy:

Unslacked lime.....20 pounds.
Sulphur.....20 pounds.
Soda ash.....15 pounds.
Water to make.....50 gallons.
Directions—Place 10 pounds of lime and 20 pounds of sulphur in a boiler with 20 gallons of water, and boil over a brisk fire for not less than one hour and a half, or until the sulphur is thoroughly dissolved. When this takes place, the mixture will be of an amber color. Next place in a cask 20 pounds of unslacked lime, pouring over it enough hot water to thoroughly slack it; and while it is boiling add the 15 pounds of soda ash. When this is dissolved add to the lime and sulphur in the boiler, and cook for half an hour longer, when the necessary amount of water to make the 50 gallons should be added. Do not cook in copper or brass kettles, as it will pump with brass valves, as this wash is destructive of those metals.

FORMULA FOR CODLIN MOTH.

One pound of Paris Green to 200 gallons of water for first spraying. The poison should be made into a paste before placing in the tank, and during the operation of spraying should be constantly stirred. This should be applied with a fine spray, and only sufficient used to each tree

There's Profit

For the man who becomes an agent for, or a policy-holder in, the Mutual Life.

In 1905, new insurance to the amount of \$6,014,576.00 (an increase of \$3,720,984.00) was written in the Mutual Life. Surplus increased \$179,923.23—and assets \$1,075,560.70.

backed by its 37 years of prosperity—its enduring financial methods—its perfect protection and low rates to policy-holders—is the fastest-growing company in Canada.

For particulars write, Head Office, Waterloo, Ont.

to thoroughly moisten it without running off. If the mixture has been consistently stirred this will distribute sufficient Paris Green over the young fruit to destroy the larvae of the codling moth before they burrow. The spraying should be done soon after the blossoms drop, and before the fruit turns downward. A second application should be made about sixteen days after the first, and in some districts a third application of Paris Green at three weeks interval from the second will be beneficial.

Abbey's Effervescent Salt

is a regular family doctor. When the stomach gets upset—bowels irregular—appetite fickle—sleep broken—headaches frequent—ABBEY'S SALT is the prescription that cures.

At Druggists. 25c. and 60c. a bottle.

MORE SO.
Who is that youngster? Merely our new office boy. Oh! I see. His face seemed very familiar. Perhaps it is, but his manner is more so.

DR. WOOD'S NORWAY PINE SYRUP

Always Stops the Cough

It combines the potent healing virtues of the pine tree with other absorbent, expectorant and soothing medicines of recognized worth, is absolutely harmless, prompt and safe.

A cough is caused by the presence of phlegm in the throat and lungs, and this phlegm is liable to distend the bronchial tubes, congest the lungs and produce inflammation or hemorrhage.

A neglected cough can have but one result. It leaves either the throat or lungs, or both, affected.

A single dose of Dr. Wood's Norway Pine Syrup will stop the cough, soothe the throat and heal the lungs.

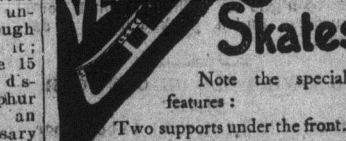

Read what Miss Nettie A. Seeley, Ashland, N.B., says: "I take much pleasure in recommending Dr. Wood's Norway Pine Syrup, for I have found it a very valuable remedy for coughs. My mother has used it in our family for a long time and whenever any of them get a cough, mother will say: 'I will have to get some Dr. Wood's Norway Pine Syrup for I know it is good, and always stops the Cough when nothing else will.'"

Insist on getting Dr. Wood's as it is the genuine, put up in yellow wrapper. Price 25 cents at all dealers. 3 pine trees the trade mark.

HE DIDN'T.

How, asked Lady Blissington, did your son ever come to marry that American girl?

He didn't, replied the dowager duchess, she came to marry him.

Two supports under the front. Unbreakable brackets under front and heel. Runner specially made to prevent cutting too deeply in ice.

Always Bargains At This Store

Do you realize---that daily, lines become broken at this store---that certain sizes sell out faster than others---that there are ever many odds and ends cropping out in every department from our daily trend of business?

If you do---do you wonder what becomes of them, or do you know from some fortunate purchases? Every day these broken lots and odd sizes are placed on sale at very little prices---generally a figure considerably below cost.

And they are quickly snapped up---never last more than a day or two at the most. They give added interest to the run of affairs at this store. They make a daily "drop in" and "a look around" quite economical and prudent. Here are a few of the many attractive lines we have laid out for Thursday visitors:---

Dress Goods Bargains.—1 pc. only Black Panama Suiting, heavy weight, pure wool, full yard and a half wide, regular value \$1.00, to clear at 50c.
