

A POSITIVE CURE FOR RHEUMATISM

Hundreds of People Have Found "Fruit-a-tives" Their Only Help

READ THIS LETTER

Superintendent of Sunday School in Toronto Tells How He Cured Himself of Chronic Rheumatism After Suffering for Years.

55 DOVERCOURT ROAD, Oct. 1st, 1913.

"For a long time, I have thought of writing you regarding what I term a most remarkable cure effected by your remedy 'Fruit-a-tives'. I suffered from Rheumatism, especially in my hands. I have spent a lot of money without any good results. I have taken 'Fruit-a-tives' for 18 months now, and am pleased to tell you that I am cured. All the enlargement has not left my hands and perhaps never will, but the soreness is all gone and I can do any kind of work. I have gained 35 pounds in 18 months."

R. A. WAUGH

Rheumatism is no longer the dreaded disease it once was. Rheumatism is no longer one of the "incurable diseases". "Fruit-a-tives" has proved its marvelous powers over Rheumatism, Sciatica, Lumbago—in fact, over all such diseases which arise from some derangement of stomach, bowels, kidneys or skin.

"Fruit-a-tives" is sold by all dealers at 50c a box, 6 for \$2.50, trial size, 25c, or sent postpaid on receipt of price by Fruit-a-tives Limited, Ottawa.

Temperance Facts.

Indiana made a distinct advance in temperance reform at the recent election. Five local option elections were held and the 'dry' voters were triumphant in four instances.

Says the Brewers' Review, and it ought to know: 'Prohibition is no longer a local issue. The last stage has been reached. Prohibition is a national danger. The enemy has shown that it is the controlling power in Washington. The enemy is not resting on his laurels. He is already marching forward to the next battle. He knows what the next step is.'

Collier's Weekly has been calling attention to the deliberate way in which distillers 'use all the arts of trade to stimulate whiskey consumption.' It had enough to cater to a craving by which thousands are enslaved and ruined, but to practice all sorts of ingenious methods for creating and stimulating that craving is diabolical. What considerations do men deserve who build up a business on the ruins of homes and of human lives!

TWO WOMEN SAVED FROM OPERATIONS

By Lydia E. Pinkham's Vegetable Compound—Their Own Stories Here Told.

Edmonton, Alberta, Can.—'I think it is no more than right for me to thank you for what your kind advice and Lydia E. Pinkham's Vegetable Compound have done for me!

'When I wrote to you some time ago I was a very sick woman suffering from female troubles. I had organic inflammation and could not stand or walk any distance. At last I was confined to my bed, and the doctor said I would have to go through an operation, but this I refused to do. A friend advised Lydia E. Pinkham's Vegetable Compound, and now, after using three bottles of it, I feel like a new woman. I most heartily recommend your medicine to all women who suffer with female troubles. I have also taken Lydia E. Pinkham's Liver Pills, and thank you for fine. I will never be without the medicine in the house.'—Mrs. FRANK BUNKLEY, 808 Columbia Avenue, Edmonton, Alberta.

The Other Case.
'Denton, Neb.—'Just after my marriage my left side began to pain me and the pain got so severe at times that I suffered severely with it. I visited three doctors and each one wanted to operate on me but I would not consent to an operation. I heard of the good Lydia E. Pinkham's Vegetable Compound and was using it when I used several bottles of it with the result that I have never been bothered with my side since then. I feel like a new woman. I most heartily recommend your medicine to all women who suffer with female troubles. I have also taken Lydia E. Pinkham's Liver Pills, and thank you for fine. I will never be without the medicine in the house.'—Mrs. FRANK BUNKLEY, 808 Columbia Avenue, Edmonton, Alberta.

A Kansas paper reports that a German merchant was asked by a clergyman friend: 'Do you believe in heaven?' 'No,' replied the merchant in a decisive manner. 'Do you believe in hell?' asked the preacher. 'Well,' he replied, 'I used to, but I do now, for business has gone soeverly wrong, ain't it?'

The only thing that troubles some of us is that our income can't in any manner be coaxed to contain our expenses. You may have a pair of scales that other individuals have learned how to operate themselves. A woman doesn't throw a stone and by any means.

The Burden.

To every one on earth God gives a burden to be carried down.

The road that lies between the cross and crown; No lot is wholly free; He giveth one to thee.

Some carry it aloft, Open and visible to any eyes; And all may see its form and weight and size;

Some hide it in their breast, And deem it thus unguessed.

Ty burden is God's gift, And it will make the bearer calm and strong;

Yet, lest it press too heavily and long, He says, 'Cast it on me, And it shall ease be.'

And those who heed His voice, And seek to give it back in trustful prayer,

Have quiet hearts that never can despair; And hope lights up the way Upon the darkest day.

Take thou thy burden thus, Into thy hands and lay it at His feet, And whether it be sorrow or defeat,

Or pain, or sin, or care, Oh, leave it calmly there.

It is the lonely load That crushes out the life and light of heaven;

But, borne with him, the soul, restored, forgiven, Sings out through all the day— Her joys and God's high praise.

Gambierham, I had my leg badly hurt, the pain was very severe and a large swelling came over the knee. I expected it would be serious if not cured. I used MINARD'S LINIMENT which stopped the pain and reduced the swelling very quickly. I cannot speak too highly of MINARD'S LINIMENT. AMOS F. SMITH, Port Hood Island.

The Liquor Traffic.

Here are four little machines. I step up to the first little machine and say, 'Hello, little machine, what are you?' And the answer comes back, 'I am a saw mill.' 'A saw mill? And what is your raw material?' The reply is, 'Old logs.' 'What is your finished product?' Lumber. 'Lumber worth more than logs?' Yes, certainly. 'Then you are creating value?' Certainly I am. 'Then you are an industry worthy of the protection of this republic, and we will throw our arms around you.'

I step up to the next little machine and say, 'Hello, little machine, what are you?' And the answer comes back, 'I am a grist mill.' 'What is your raw material?' Corn and oats. 'What is your finished product?' Meal and flour. 'Meal and flour worth more than corn and oats?' Certainly. 'Then you, too, are creating value, and we will throw our arms of protection around you.'

I step up to the next little machine and say, 'Hello, little machine, what are you?' And the answer comes back, 'I am a gin mill.' 'A gin mill? And what is your raw material?' And if he tells me the truth, it must point its finger to yonder boy, and that other boy, and that other, and say, 'There's my raw material.' 'What is your finished product?' And again if he tells me the truth, it must point its finger to yonder bear-eyed, bloated, checked old drunkard, staggering down yonder back alley, soon to drop into a drunkard's grave. Is the finished product worth more than the raw material? No, not the more the grinding process went on in the gin mill, the less fit for future usefulness or service the product is turned out. The gin mill and the traffic is not an industry worthy of the protection of the Canadian people of today.

May be the dough had forgotten to rise. Or had risen quickly overnight and fallen again— To rise nevermore. 'Twas weak flour, of course, Meaning weak in gluten. But FIVE ROSES is strong, unusually strong. With that glutinous strength which compels it to rise to your surprised delight. Stays risen too. Being coherent, elastic. And the dough feels springy under your hand. Squawks and cracks as you work it. Feel the feel of a FIVE ROSES dough. Note the wonderful smooth texture—soft, velvety. Great is the bread born of each dough— Your dough! Try this good flour.

'Typhoid Mary' Breaks Her Parole.

ISSUED BY THE DEPARTMENT OF THE PUBLIC HEALTH, NOVA SCOTIA

As the result of an epidemiological investigation conducted by the Typhoid Fever Division of the Bureau of Infectious Diseases into the recent outbreak of typhoid fever in the 'Sloan' Hospital for Women, the source of infection has been found to be none other than the well known bacillus carrier, Mary Mallon, popularly nicknamed 'Typhoid Mary.'

It will be recalled that this carrier was originally discovered in 1907 by Sapher, who was able to trace her association with some twenty-five cases of typhoid fever in the homes of those with whom she had worked as a cook. These facts having been brought to the attention of the Department of Health, Mary was taken to the Reception Hospital and detained as a person whose continuance at large would be a menace to the community.

Two applications for release made in her behalf to the court were denied on the ground that the Department of Health was fully within its rights in thus preventing further infection.

Subsequently in 1910, Mary was released on her promise not again to hire out as a cook and to use all precautions to prevent the recurrence of typhoid infections.

She soon broke her parole, and at once the results were disastrous; two cases of typhoid fever in a private sanatorium where she was employed. She came to the Sloan Hospital in October, 1915, and there followed in January and February of this year an outbreak of twenty-five cases of typhoid fever among the physicians and nurses attached to the institution.

The history of 'Typhoid Mary' gives point to the new sections of the sanitary code which forbid persons ill with infectious diseases to engage in the handling of foods sold to the public. It also emphasizes the importance of personal cleanliness, for, disgusting as it is, there is no doubt as to the probable path of infection.

This dangerous carrier has been apprehended and is detained by the Department of Health at Riverside Hospital on North Brother Island—Weekly Bulletin, New York City Department of Health, April 3, 1915.
