The Duke of Westminster, the richest peer in England, will discontinue the pensions to aged retainers on his estates. His Grace doubtless finds it cheaper to let the State do it for him.

Poor Mr. Castro with his unwilling letter of credit cancelled will begin to share the prejudice of common people against such uncertainties and to wish he had his vest padded with Bank of England notes.

The new government in Venezuela has not been a month in power and already a plot has been discovered to assassinate President Gomez. Castro's brother and Castro's friends were implicated and a number of arrests have been made. The Bank of Venezuela has cancelled the unlimited letter of credit which President Castro had in Europe, but if the president had as many millions in European banks as has been stated, he will not be disturbed by the new order. Apparently the absent Castro has ceased to be a power in Venezuela. What would happen should he suddenly land at Caracas is an interesting question.—Ex.

GREAT YEAR AHEAD.

A great year is promised for readers of the Family Herald and Weekly Star of Montreal. Already the acknowledged best family and farm paper printed, the publishers are out with the announcement that it is to be vastly improved during 1909, in appreciation of the enormous number of subscriptions received. The paper is to be enlarged, their news service vastly improved, more stories of a high order of merit are promised, new contributors of great literary fame will contribute, and many new features of absorbing interest are to be introduced. Evidently the family Herald and Weekly Star during 1909 is going to be greater value than ever before.

CUBA'S POPULATION.

The official census of Cuba for 1908, gives Cuba's total population as 2,048,980, of which 1,820,239 are Cubans, 185,398 Spanish, 6,712 Americans, and the rest Chinese Africans and other nations. Among the interesting details is the fact that the Negro race on the island numbers 600,077, of which 274,381 are fully black and the rest mulattoes. In the black race the women outnumber the men by 25,707, while in the white race there are 115,647 more men than women.

THE WORLD'S POPULATION.

The number of human beings in the world, according to the Statistical Bureau of Stuttgart, is 1,544,510,000. Out of every thousand of the earth's inhabitants 346 are Christians, 144 are Mohamedan, 7 are Israelite, and 503 of other or no religions.

GLACIAL MAN WAS ABOVE THE MONKEY

Discovery of Skull and Bones of 170,000 Years Ago

What are believed by Director Perrier of the Paris Museum of National History, to be oldest human remains in existence have been discovered by two priests at Chappelle aux Saints in Southwestern France. Details of the discovery made public today shows that the relics consist of the skull and other bones.

Perrier assigns the remains to the pleistocene or glacial period, dating back 170,000 years ago. The skull of this supposed earliest man shows practically no forehead and had several simian characteristics. But the chin is unlike a monkey's and the skull, though the walls are very thick, had greater capacity than the monkey's. The jaw is very long and the face could have possessed very little mobility.

This supposed earliest man could never have laughed. Director Perrier read to the Academy of Science a learned paper on the subject of Prof. Marcelin Boule, from which it would appear that the skull is of a form intermediary between that of the monkey and man. The crown resembles that of the skull of a gorilla, while the facial bones are rather to those of the chimpanzee.

The general character of the head tend to prove that the creature must have had some difficulty in standing upright.

This alleged fossil man was found in a pleistocene formation in the upper layer of the tertiary beds—that is to say, he belongs to epoch of the mammoth.

The skull is extraordinarily like the famous skull discovered about the middle of the last century at Neanderthal, Germany.

CANADA'S POOR CONSUMPTIVES.

A Story more Touching than anything from the Pen of the gifted Ian MacLaren.

In the current issue of the DOOR OF HOPE, published by the National Sanatorium Association, 347 King Street West, Toronto, a page is given over to letters received from many persons from all parts of the Dominion seeking admission to the Muskoka Free Hospital for Consumptives.

Seldom have we read anything more pathetic. Here, for example, is a letter from a physician in Creemore, Ont., asking for the admission of a patient by the name of Morrison. He says:—"I would like to urge strongly upon you the great claims of this patient. He has no home—mother dead—father working as a farm laborer. The boy has been living with an unmarried uncle—no housekeeper—work, cooking, etc., being done by the uncle. The boy has absolutely no place to go where he might be given any reasonable care, and he can get none where he is."

Another case is from Thorold, Johnston Weldon writes:—"I am a young married man, twenty-three years of age. For several years I have been sick, but always able to keep my feet. Now I have come to the time when I cannot work, and cannot get medicine without means. My lungs are affected, and I am writing now to see if you can get me into the Muskoka Free Hospital for Consumptives. My young wife is here, and her parents have kindly opened their doors to her if I go away."

Just one more of the many we might quote. This is from a physician in Campbellford, Ont. He writes:—"I have a patient suffering from pulmonary tuberculosis, who has been laid off work for about three months now—was in bed part of that time, but latterly both his pulse and temperature have kept down and his weight going up. He is the only support of the family—mother, crippled father, and younger brother, but his neighbors are trying to raise a small amount of money to help him."

We have sometimes thought that if Ian MacLaren, who has given to us the character of Dr. McClure, were every day in letters such as these, he would find material for a book more touching and pathetic in many parts than his Bonnie Briar Bush.

It is on behalf of cases like these, of which there are scores reaching the Secretary of the Sanatorium every week, that the Muskoka Free Hospital for Consumptives makes its appeal to-day for funds.

This institution has not at any time, since its doors were first opened in April, 1902, refused a single patient because of the applicant being unable to pay.

Contributions may be sent to Mr. W. J. Gage, 84 Spadina Ave., Chairman of the Executive Committee, or to J. S. Robertson, Secretary-Treasurer of the National Sanatorium Association, 347 King Street West, Toronto, Ontario.

A "Pastry" Object Lesson
Which pie would you rather eat?

The pie on the right is a heavy, soggy one, liable to give the "hero" who eats it an unpleasant feeling in his stomach. This pie was made of ordinary flour—the kind that gives fair results one time and poor the next.

The pie on the left is a light, tender, delicious one. Enjoyable to eat. Easy to digest. It is made of "Royal Gold" Flour—the kind that ALWAYS makes the best pastry.

Because we use a higher grade of Manitoba No. 1 hard and Ontario Fall wheat, mill it more carefully, blend it more skillfully, the quality of "Royal Gold" is several "notches" higher than the next best "blend" flour.

When you eat pastry and bread made from "Royal Gold" you'll be content with no other flour.
