

METHODIST CHURCH CONFERENCE SUNDAY.

Ordination Service and Love Feast In Centenary
Yesterday—Five Young Men Ordained.

Special Services In Other Churches—Flower
Sunday In Charlton—A Temperance Sermon.

Yesterday in Centenary Church was conducted one of the most important services of the Methodist Conference. It was begun in the morning at 9.30, when the Conference love feast was held. This was led by Rev. Geo. Miller, and participated in by many of the ministers and laymen present.

At 11 o'clock the ordination services in connection with the probationers who have been accepted to the ministry, were held.

Dr. Ross, of Oakville, conducted the opening devotional exercises, and asked for the blessing of God on the lives of the young men who are entering the ministry.

The responsive lesson was the 27th Psalm, and was read with the large congregation standing. It was conducted by Rev. K. J. Elliott, of Waterloo. The Scripture reading was in II. Corinthians iv. 15, and was read by Rev. Dr. A. L. Gee, of Brantford.

The ordination sermon was preached by Rev. K. P. Boyles, M. A., B. D., of Toronto. His text was in John xv. 29, "Jesus saith to him, 'Because thou hast seen me, thou hast believed. Blessed are those who have not seen me and yet believed.'" One cannot but ask, said the speaker, where is the blessedness that Jesus speaks of? There can be no doctrine among us that violates our reason, or our passion for reality. There are not a few who murmur against what we call faith. They imply that it is impossible. There are men who ask why they cannot get at the spirit of faith like they do their own business. There is a wish among many people for a final settlement, when there would be no doubt as to the religion of Jesus Christ. People always think there is a better way. Some think that by seeing it would be better. When we are boys we are apt to look to God with mortal eyes, but as we grow older we have to look at things immortal from a different viewpoint. It would be better if one would look to faith as something distinct instead of being value and unreal. In that validity of faith it stands the test against one's reason. The speaker said that the world wastes a lot of pity on itself. There is another language besides that of faith. It is not seeing that will bring glory to the world. It is time that the world should break through the materialism by another path. Some say this other path may be reason. Oftentimes, the speaker said, when he was teaching the student, he was asked for a demonstration of the way to go through the paths of the future. Many people argue that the world is guided more by reason than by sight. The deepest kinship of the nature of the people is with the unknown, not with the known. A logical demonstration of the religion of Jesus Christ would be satisfactory to the people, in the same manner as one would define the sciences of the world. There are people who think that the world is nothing in the discoveries of science that can close the door of faith, in this day of much doubt and thought. Have faith in faith, was the message of the speaker. The universal note of the religion of Jesus Christ is the simple words, "Just as I am, without one pretence."

The sermon was followed by the ordination service conducted by Rev. Thomas Colling, President of the conference. The secretary, Rev. A. J. Irwin, read the names of the probationers as follows: A. O. Forman, A. Marshall, A. Turnbull, E. M. Carver and F. O. Kell.

The following ministers each read a portion of the scripture, Rev. Thomas Colling, Port Elgin; Rev. Dr. A. L. Gee, Brantford; Rev. K. J. Elliott, Waterloo; Rev. Dr. Ross, Oakville; Rev. Richard Whiting, Hamilton.

The beautiful service was listened to with much attention by the large congregation. It was simple, yet powerful, a his exhortation to the young men who are going to their respective fields of labor. A number of the older ministers also officiated toward the close of the ordination. Each young man was presented with a Bible.

In the afternoon, the Sunday School was addressed by Rev. S. M. Roadhouse, and in the evening the sermon was given by Rev. Dr. Crothers. It was followed by the sacrament of the Lord's Supper, administered by the President, Rev. Thomas Colling.

In Other Churches.

In all the Methodist Churches of the city, and in a number of other denominations Methodist ministers here attending conference were the speakers yesterday.

Speaking strongly against the liquor traffic last evening in Wesley Church Rev. Manly Benson, of Montreal, here attending the conference, said, "You are going to vote to-morrow and I hope you will think what will be the purpose of your vote. This traffic deserves neither charity nor mercy. There is no person it will not ruin and it lives and thrives in dishonesty. The misadventure of this traffic will never be."

Valuable Mixture to Be Prepared at Home GOOD SPRING MEDICINE

For a good spring tonic, get from your druggist: One ounce Fluid Extract Dandelion. One ounce Compound Sarsaparilla. Four ounces Compound Syrup Sanguinaria. Mix, shake well, and take in teaspoonful doses, after meals and at bedtime.

This formula is given by a prominent physician, and is said to have remarkable results in ridding the blood of the uric acid and poisonous waste matter with which the blood is likely to be charged at this season of the year, particularly in cases afflicted with rheumatism or kidney disease. It strengthens the kidneys to filter these poisons from the blood, restoring the healthy, normal action, so necessary to perfect health.

If you feel that you need a tonic, prepare a bottle and try it anyway, for before you can be so highly recommended it can bring nothing but good results.

JAMES I. BUCHANAN.

Discusses U. S. Federal Incorporation Law.

The Pittsburgh Chronicle Telegraph, in an interview with James I. Buchanan, of that city, and a former Hamiltonian, says:

James I. Buchanan, president of the Pittsburgh Trust Company, is strongly in accord with Frank A. Vanderbilt, vice-president of the National City Bank, of New York City, in his endorsement of President Roosevelt's recommendations that the Sherman anti-trust law be amended and that a federal incorporation law be passed. Mr. Buchanan's attention was called to the interview of Mr. Vanderbilt, on this subject. He said he had already read it, and had also been impressed by the logic of President Roosevelt's message last month which dealt with the subject.

"Although Mr. Vanderbilt always has the faculty of speaking in a very clear and concise manner," said Mr. Buchanan, "yet there is really nothing new in the statement made by him in regard to the attitude of the President. Mr. Roosevelt from the start has recognized the necessity for government regulation and inspection, and what he has said and done has always tended in that direction. His attitude has been opposed by some, but it would bring about a restraint in regard to the management and business results of corporations, but as his point of view get to be better known and his consistent course in regard to corporations better appreciated the public at large will pass favorable judgment upon the wisdom of his intention."

"Interstate commerce and transportation are things which from the nature of the case cannot be under the control of one state, and we have always had the anomaly of individual state undertakings to say what power shall be exercised by corporations which the logic of events has demonstrated to be so much needed, and has enabled corporations to do things which they could not do if they were responsible to but one general authority."

The fourth requisite—and it is equally important with the rest—is federal incorporation of our great industrial and transportation interests that transact interstate business. Such a law, as advocated by President Roosevelt, would safeguard the rights of the public and protect the corporations in the performance of their duty—in other words, would assure peace between the master and the servant—created by the law.

When you consider," continued Mr. Buchanan, "our investment interests alone represent over \$14,000,000,000, and that our industrial establishments turn out annually hundreds of millions of dollars' worth of products, you begin to appreciate the magnitude of these interests. And then when you stop to consider that all these transportation and manufacturing interests, besides trying to comply with the impossible provisions of the present Sherman anti-trust law, must also conform to the varying laws of 46 states, the intricacies of the situation become almost appalling to the most conscientious efforts of corporation managers. A federal charter for corporations transacting a national business, would greatly simplify the problem."

KILL A BOY.

Lockport Lad Dies From Blow
Given by Thugs.

Lockport, June 5.—Chauncey Harmon, 18 years old, died this afternoon as a result of a fractured skull produced by a club in the hands of one of two robbers who felled him in the Sharp dryhouse, one mile west of the city, at 1 o'clock Thursday morning. The murderers are at large.

Harmon was asleep in the Sharp dryhouse with John Burke, an employee about Sharp's place, who made the dryhouse his sleeping quarters. During the night two strange men entered the place. It is presumed they struck Burke on the head as he lay asleep. Burke was awakened and gave fight to the strangers. However, they overcame him by a blow on the head from a club, according to his story to the police yesterday.

They then ransacked the place and secured \$20. Burke had saved Burke tried to follow them, but was taken away. He reported the matter to the police yesterday morning. When they got there, Harmon was lying on the bed, apparently asleep. No notice was taken of him. A short time after the police left he went home and on reaching there was taken with convulsions. He died at 3 o'clock to-day.

Avoid Headache Powders.

When your head is wrong, cheeks are pale, head aches, don't deaden the trouble with drugs; help out the system with Dr. Hamilton's Pills. Safe, mild and sure are Dr. Hamilton's Pills. Buy a 25c box.

FELL OVER FENCE.

The Peculiar Death of Montreal Man at
London.

London, Ont., June 7.—While returning home at six o'clock this morning, Charles Price, a night employee of the G. T. R., discovered the body of a man lying in the grass at the corner of Egerton street and Hamilton Road. The dead man proved to be J. H. Roberts, whose home is at 39 Shuter street, Montreal, but who had been staying with an uncle for the past ten days at 463 Hamilton Road.

On making an examination it was found that his feet were entangled in the barbed wire of the fence beside which he had fallen. It is supposed that he was making a short cut for his uncle's house, and in attempting to climb over the fence lost his balance, fell to the ground and broke his neck.

He came to the city about ten days ago from Palmerston in search of work.

Four Bodies in Montreal Harbor.

Montreal, June 7.—Four bodies were taken from the harbor on Saturday afternoon, not one of which has yet been identified. The victims had all been drowned within the past ten days, three, apparently, being sailors.

A merger of the Canadian Independent Telephone Co. and the Bell is spoken of.

ANDERSON'S FATE.

SEVEN YEARS IN PENITENTIARY
FOR BIGAMY.

Prisoner Admitted He Had Done Wrong
and Asked for Leniency—Public
School Inspector Who Deceived Minister's Daughter.

Renfrew, June 6.—John Anderson, the bigamist, whose wife and children live in Toronto, and who was arrested and pleaded guilty before Police Magistrate Eady here last Saturday, appeared for sentence this morning at 10 o'clock. He arrived from Pembroke, where he has been in confinement since his arrest, on the 8.45 C. P. R. express, in charge of Chief Constable Lee, of Pembroke.

Hundreds awaited the arrival of the train at the station here this morning and were given an excellent opportunity of viewing the prisoner as he was taken on foot about two blocks to the Chief of Police's office, where he was permitted to change his attire.

Anderson was quite composed in manner. Crown Attorney Metcalf, for the county, appeared as prosecutor, and immediately on his concluding the prisoner was asked if he had anything to say. He replied that he had very little he could say. He admitted he had done wrong in doing what he did, and, although he would submit to any sentence imposed, he would throw himself on the court's mercy.

Police Magistrate Eady then addressed the prisoner and ended in imposing a sentence of seven years in the Provincial penitentiary at Kingston, the full limit of the law.

Anderson bore up well on the sentence being imposed and did not raise his eyes from the floor.

He was taken to Kingston almost at once.

Anderson, though fifty-five years of age, married the twenty-three-year-old daughter of Rev. Mr. Jameson, the Methodist minister here. He was public school inspector at Brockville until his arrest for bigamy. He had not paid for his wedding clothes or furniture, and his house at Brockville was seized by the bailiff this week.

COMMITTED HIM.

CREIGHTON, WHO KILLED WIFE
AND DAUGHTERS, SENT UP.

Prisoner Was Deeply Affected in Court
at Sight of Bloodstained Evidence
of His Crime—Nothing New in the
Evidence.

Owen Sound, June 6.—This afternoon James F. Creighton was formally committed by Police Magistrate Creaser to stand his trial at the next court of competent jurisdiction for the murder of his wife, Lily Eliza Creighton, and her daughters, Katherine Belle Chapman and Clara Louise Chapman. The hearing took place in the County Court room instead of at the Police Court room. The prisoner was brought into court under a strong guard of police. There was a large attendance of spectators, and it was thought desirable, in view of the evidence, that any expression of feeling might be promptly suppressed.

The prisoner was neatly dressed, and his features showed nothing of the self-inflicted wound on the face. As the terrible indictment was read he showed the first signs of the strain under which he has suffered since he realized the enormity of his crime. When the shoe struck the revolver and the knife were put in as exhibits, he moaned quite audibly.

The evidence of Dr. H. Cowper, Alex. Gilliland, William Heighes and George Wright, as to what transpired when the first indications of the crime were made known, were practically repetitions of the evidence given at the inquest, as was also that of D. A. Christie, from whom he obtained the revolver, at the day prior to the tragedy, and Dr. J. A. Horsley, as to the man's condition the night previous to his committing the horrible crime, and the commitment followed.

Mr. H. G. Tucker appeared for the prisoner and County Crown Attorney Armstrong for the Crown.

MONTREAL CONSTABLE KILLED.

Horse Was Frightened and Reared,
Throwing Him on His Head.

Montreal, June 7.—Constable Gibeault, of the city mounted police force, was killed on Saturday afternoon. A canvas cover on a passing wagon blew off into the face of his horse, and the animal reared, threw Gibeault, who landed on his head on the road, sustaining a fractured skull. He died a few hours later without regaining consciousness.

LIGHTNING IN BRITAIN.

Several Persons Killed During
Storm Last Week.

New York, June 7.—A cable despatch to the Herald from London says: London was visited on Thursday by one of the severest thunderstorms that can be remembered in the city. For about four hours the lightning never ceased its flashing, but London, which is nearly always peculiarly lucky in this respect, escaped the torrential rains which flooded the Thames valley and the hail which caused so much havoc in the neighborhood of Epping. Stones as large as big nuts smashed the windows of greenhouses and ruined plants. There was hardly a house or shop which did not have two or three windows smashed. The railway embankment at Grindon, Staffordshire, was demolished.

The railway station at Rosley, also in Staffordshire, was struck by lightning and burned down. The fire brigade of Tunbridge was kept busy owing to the number of houses being set on fire by lightning. The railway bridge on the Cambrian Railway was washed away. A brewery at Margate was split in two and about a score of factory smokestacks were thrown down. An entire flock of sheep and lambs was reported killed in Derbyshire.

In several parts of the Midlands people were killed, but the complete death roll has not yet been ascertained.

CASTORIA.

The Kind You Have Always Bought

The Montreal Telegram operatives have decided to accept the terms offered and go back to work.

Tariff revision is said to be the most important plank in the new Republican platform in the United States.

Baynes' Buggies

We make a number of styles, with deep seats, high backs, specially for comfort, serviceability and good style, easy access and egress.

We also make road wagons, fine for a cab, for park driving; then we make Surreys, large, medium and light, some not much heavier than an ordinary buggy, but they'll carry four.

Stanhopes, in several sizes, all smart and trappy. Concord, the genuine three reach, the best running and best riding general purpose vehicle ever invented.

We have over 75 different styles. We can suit almost any requirement, and our prices will not admit of Hamilton vehicle makers going elsewhere. We solicit a call and will be glad to show you the plant where Baynes' Buggies are made.

THE BAYNES CARRIAGE CO., LIMITED
Take Deering car. Sherman Avenue.

Our work also on sale at Maxwell's, 125 John street south.

OLD STYLE NEW KRYPTOK

Have you seen this remarkable improvement in Double-Vision Glasses?

As shown in the illustration the line so visible in the old style is entirely eliminated in the KRYPTOK.

Price is certainly a little higher but they are worth every cent of that price in the satisfaction they give and in the freedom from the many annoyances of a dividing line which is found in other styles and bifocals.

Mr. Benson will be pleased to show these at any time.
