PRODUCE.

The market has been quiet since our last. Of-rings of almost everything have been small in holders not anxious to push sales, and buyeartil. Prices, howev but little change; the feelin ter part of last week showed inco s been disappearing during Stocks stood on Monday eat. 128.-431 bush.; spring wheat, 99,500 bush.; oats, 700 bush.; barley, 222,901 bush.; peas, 88,324 bush., and 176, 13,633 bush.; against on the same date last year-Flour, 15,750 bbls.; fall wheat, 182,257 bush.; spring wheat, 157.228 bush.; oats, 23,050 hush.; barley, 124,728 bush.; peas, 61,173 bush., and rye, nil bush. English advices show markets to have been rather unsettled. Quotations show a fall of 1d. on red, red winter, and club wheat : oes of red winter off the coast were quoted at 6d. to 1s. per quarter lower on Tuesday than at our last. Markets were decidedly dull and weak on Monday and Tuesday, but showed an improved feeling on Wednesday. During That week the attitude of buyers is said to have been most reserved and cautious, with flour quiet and casy. The total supplies for last week show but little change. The imports amounted to 255,000 to 260,000 qrs. of wheat, and 155,000 to 70,000 bbls. of flour, and home deliveries to 124,760 qrs., making a total supply equal to 472,572 to 480,385 qrs. of wheat, against an average weekly consumption of 454,000 quarters. The quantity of wheat and flour in transit on the 24th inst. was 2,350,000 qrs., against 2,410,000 grs. on the 17th inst., and 2,040, 000 on the corresponding date last year. Continental advices for the week ending March Continential advices for the week ending March 12th state that the country markets were poorly supplied, probably in consequence of almost in-cessant rain. Home-grown grain was wanted by millers, and choice qualities were rather firmer. The week's reports showed that out of 89 markets, there were 26 advanced, 27 firm, 29 un-changed, 1 calm, and 6 declined. The wheat changed, I caim, and 5 declined. The wheat imports during the week in the various ports were small, viz., at Marsellles, 22,000 qrs.; at Havre 10,000 qrs.; at Bordeaux 11,000 qrs. At Marseilles the stock in the docks decreased to 196,000 qrs. The week closed with holders of cargoes inclined to make concessions. In Bel-gium the wheat trade was firm, but not active. Red winter at Antwerp was nrm, but not active. Red winter at Antwerp was quoted at equal to about 47s, per 420b. The imports of wheat into Antwerp during January and February amount-ed to 206,000 qrs, against 334,000 qrs. in the coren to 200,000 qrs., against 334,000 qrs. in the cor-responding period last year. Of rye the imports were only 13,000 qrs., against 92,000 qrs. last year; prices varied but little. Of flour the imports were 51,121 bbls, against 14,100 bbls. last year. German advices state that at Hamburg the weather was milder with rain and gales. It was expected that the ice which obstructed navierities on the milder with rain and gales. It was expected that the ice, which obstructed navigation on the Upper Elbs, would soon give way. There was less activity in the grain market, and a further rise of prices of wheat had not taken place. Millers having supplied their immediate wants, saw no inducement for making extensive pur-dnases, there being very little export demand for flour. Best yellow Holstein and Mecklen-hurg wheats were held at 51s. to 52s. 6d. per 501 lb, free on board. American winter wheat ES, 6d. to 48s. 6d. per 480 lb.; common English 19. to 41s. per 504 lb. delivered here. Term wrent: March. 45s. : April-May, 46s. 6d.; June-bury. (zs.9d. per 301 lb. weather and temperature during the last fort-inght, a great deal of sowing has been done, but the season is still late, and farmers are anxious. Frosty nights and cold winds have slightly af-fected young wheats. The backwardness, how-ever, is not generally unfavourably regarded on the whole. The wheat acreage, which is small, looks well. English wheats are still in small supply on account of the busy season, but the fieldities for thrashing have materially im-proved the condition of samples. Miller's neces-sities have created a demand for English wheats, and the sale of sound samples, consequently, was easy. The recent improvements in values was comfined solely to best samples; others were practically unsalable. Foreign wheats at the close lost the greater portion of Monday's ad-vance, a reduction of fully 5d. being necessary to effect sales. The stitude of buyers, unmoyed by the crop prospects, bare off-coast market, or American speculation, continues most reserved and cautious. The large California arrivals were readily absorbed, because relatively cheap. The foreign supply at London was more bit has been casier in London and the provinces. Foreign flour was similar in tone, and in good supply. Barley was quiets and drooping. Foreign paties was duil and easier. British and foreign poats were in slack demand, and weaker. fairly steady prices; but this must have readed as being in a great measure due to a continuance of the demand for Montreal. Export cattle have remained as scarce as ever, and procurable only by picking one or two from a car; prices of steers, averaging 1,300 hs. and upwards, have been steady at \$5.00 to \$5.25. Second-class of fine quality have continued in demand for Montreal, and light steers and heifers have sold for that marketat \$4.37 to \$4.50, while the ordinary run have brought \$4.00 to \$4.25, all being wanted. Third-class have been in rather better supply, but have continued to sell at \$3.37 to \$3.75, the latter price being exceptionally high, and paid but seldom.
