Mrs. F. Gervals, of 126 Bleury Street, Montreal, writes:-- "My haby girl developed a bad rash on her body and it made her very fretful and ill. She would not take food and seemed very sick indeed. From fifteen pounds, her weight fell away to nine and a half pounds.

I used it regularly, but the baby got no relief. The skin disease seemed to get worse and worse all the time we were doctoring for it, so we took the child to a second doctor. He told me to stop nursing the baby, and gave me other advice which I followed, but the skin

She took my baby to her home and applied Zam-Buk to its little body. This seemed to give the baby ease right from the first. It cured the sores and began to reduce the inflammation. I went on with the Zam-Buk treatment, and to my delight within one week from the cast starting with Zam-Buk the child looked like a different behavior with the Zam-Buk treatment, and to my delight within one week from first starting with Zam-Buk the child looked like a different baby altogether! Within a month the skin disease was cured completely, the baby's appetite had returned and she was almost back at her normal weight. She now looks like the very picture of health.

But what do we find to-day? A Government charged with public corruption, public monies recklessly squandered, and the public debt increased by million sequence, a glaring prospect of utter ruin staring us in the face. "Let Morris finish his work" we are to'd by his blowhards of the press. Let him return to run another Par liament, say incontrovertible facts. and he will complete his work of demolition, boodling will go on, corruption will run riot, while a few nillions more for railway completion and extension will render the cuntry's finances hopelessly involved. If you and independence, imbued with a true spirit of patriotism, you will see the greedy host that has been feasting on the vitals of our country, overwhelm ed, engulphed, vanquished. An artist was once asked to paint a picture of the Red Sea. When the work was person for whom it was done. The whole canvas was done in red. After what he thought should have been a vivid illustration of that memorable pass over he turned to the artist saying: "Where are the Isrcalites? "They are gone over," said the artist.

I hold no brief for Bond or any of his men. I recognize, as I have for years, his worth, his honesty, his abil-

good working majority to carry out what he has declared in his Manifesto,

This Country of ours will be Hopelessly Involved within the next four years. Any man that cannot see this is mentally pefogged, and any man seeing it and will not vote for a change of Government, is a vile knave, not fit to enjoy the power of the franchise. And if I may trespass further on your valuable space. I would tell the electorate especially that portion of it now seeking work after a bac scason, not to be gulled by the clap trap that the times are good. The ment enough to keep all the labor noney in circulation! some shallow pate will exclaim. Did he stop to en quire where that money came from?
