

THE SHOES I CAN'T WEAR

All Because of a "Toughy" CORN

BUT you can wear them, Madam—and now. Simply place on that corn a little Blue-jay plaster, and never again will you feel it. In two days there will be no corn. It will disappear for good. Millions of women know that. They don't pare corns. They don't use old-time methods. And they don't suffer. When Blue-jay plaster is applied, the corn appears to end it. We are urging you to join them. Corns are needless since Blue-jay was invented. So they are absurd. You can prove in one minute that Blue-jay stops corns. You can prove in two days that it ends them forever.

Want't you?

ADDITIONAL INCOME TAX.

LONDON, June 22. The Commons has formally agreed to the resolution of Reginald McKenna, Chancellor of the Exchequer, imposing an additional income tax of two shillings in the pound on incomes derived from foreign investments. Several members opposed the resolution and endeavored ineffectually to induce McKenna to accept an amendment. The only concession the Chancellor would make was to concede that the tax be limited for the duration of the war. McKenna stated that if war continued for some time the government would be obliged to issue further lists of securities that it was willing to purchase in order to create a balance to meet its needs.

GREECE ACCEPTS ENTENTE DEMANDS.

LONDON, June 22. Acceptance by Greece of all demands by the Entente Powers, is reported by Reuters Athens correspondent. He cables that M. Zaimis, to whom the formation of a new cabinet is said to have been entrusted, went to the French Legation, during a conference there of the Entente ministers, last evening, and announced in the name of King Constantine that Greece had yielded fully.

TO CRUISE BEFORE PIRATE.

PARIS, June 22. An allied fleet has been ordered to cruise before Piræus, the port of Athens, according to a despatch from Salonika. It is made up of squadrons of the allied nations, and will be commanded by Vice-Admiral Morcu. It is said that the fleet will eventually be supported by a landing party, but the action of the landing party will depend on events.

TO REPLACE SKOUTODIS MINISTRY.

PARIS, June 22. It was stated that the note that demobilization of the Greek army must be complete and immediate, the allies demand the replacement of the Skoutodis ministry with a cabinet which would give all guarantees for the observance of friendly neutrality towards the Entente, in harmony with engagements. The Greek government is also requested to replace police officials alleged to be under foreign influence.

ITALY ADHERES.

PARIS, June 22. The Italian minister at Athens has handed the Greek government a note from his home government, declaring that it adhered to the representations made by the Entente Powers, says a Havas despatch from Athens to-day.

AUSTRIANS DROWNED IN THE STRYPA.

LONDON, June 22. Hundreds of Austrians were drowned in the Strypa after the recent Russian success. On the eastern bank, north of Buzzozac, according to Reuters Petrograd correspondent, the troops holding some trenches were enveloped by the Russians from north and south. Cut off from the bridges, they rushed into the river, panic.

System Was Full of Poison; Pains in Side and Back

Had Constipation for Many Years, but Was Entirely Cured by Dr. Chase's Kidney-Liver Pills.

The most common ailment and the greatest cause of disease and suffering to-day is constipation. Artificial food and sedentary indoor life combine to induce torpid, wasteful action of the liver, kidneys and bowels. As a result poisonous waste matter remains in the system and gives rise to pains and aches and a starting point for serious disease.

Infectious and contagious diseases are little known to persons whose liver, kidneys and bowels are kept in healthful activity, for there are no suitable conditions for disease germs to thrive in. Even common colds usually take their start when they find the system in a constipated, poisoned condition.

Mrs. Ed. Miller, West Flamboro, Ont., writes: "I can truthfully say that Dr. Chase's Kidney-Liver Pills have cured me of constipation. I suffered with constipation almost ever

since I can remember, and for four years had pains at the left side of the back. If I walked across the kitchen floor I would have to sit and rest. That, I think, was terrible for a woman of twenty years. The condition of my blood was shown by pimples breaking out on my face. I suffered from pains and aches and stiffness in the back. I am sure my system was full of poison. Dr. Chase's Kidney-Liver Pills have entirely cured me, and I feel better than I have felt for many years."

As a cure for constipation Dr. Chase's Kidney-Liver Pills stand alone, for by their action on the liver they awaken the activity of this organ, cause a good flow of bile, and hence remove the cause of indigestion, for bile is nature's cathartic. One pill a dose, 25 cents a box, all dealers, or Edmanson, Bates & Co., Limited, Toronto.

OFFICIAL ANNOUNCEMENT.

LONDON, June 22. An official announcement by the Russian War Office of the capture of Rodantz, a town of 13,000 inhabitants, situated 30 miles south of Chernowitz, and 10 miles from the Romanian frontier, shows how actively Gen. Letchitsky is pushing the broken Austrian forces. According to a despatch from Petrograd nothing but a miracle can avoid the destruction of Pfaffers army, as Gen. Letchitsky now holds a stretch of 25 miles on the Sereth river. According to a report from Rome an Austrian army, under General Batlin, is shut up in the angle on the frontier near the town of Sereth and completely surrounded by the Russians. An Austrian official received to-night claims that the Austrians repulsed Russian attacks near Cirschumora. This town is in the extreme south of Bukovina on the Moldava river, 54 miles south of Chernowitz. Thus, unless some other town of the same name is meant, the Russian pursuit is seemingly extended much further than the Russian claim.

SPAN SUSPICIOUS.

CARTAGENA, June 22. The German submarine U-35, commanded by Lieut. Von Arnault, arrived here to-day with a letter from Emperor William to King Alfonso. The lieutenant said the letter expressed the Emperor's thanks for attention given by Spain to refugees from Kameruna. The submarine is anchored at the entrance of the harbor. The German Embassy arrived here on a special train last night for the purpose of receiving the letter. Accompanied by the German Consul he went on board the submarine and visited the commander. The Spanish cruiser and destroyer received orders to watch closely the movements of the submarine. Instructions were given to keep the entrance of the harbor lighted brightly with searchlights. The German sub, U-35, departed from this port shortly before daylight.

BRITISH AMBASSADOR CALLS ON THE SPANISH PRIME MINISTER.

LONDON, June 22. An official despatch to-day says: The British Ambassador at Madrid yesterday called on the Spanish Prime Minister and expressed the hope that the U-35 would disappear from Cartagena harbor at the expiration of the 24 hours' allowed by international law. The minister made no further representations to the Spanish Premier, the despatch says.

DOCKED FOR REPAIRS.

COPENHAGEN, June 22. According to the Rite Stifts Edende, the German battleship Koenig, damaged in the naval battle of May 31, has been docked.

CARRANZA'S REPLY EXPECTED.

MEXICO, June 22. Two trains, carrying Americans, left Mexico City this morning. The first was composed of six passenger coaches, the second of six box cars. Both were crowded. The government giving guarantees to facilitate the travelers, has assured James Rodgers, the American representative, that they will arrive safely at Vera Cruz. No cabinet meeting was held to-day. The local press announces that the reply of General Carranza

will be published within the next few hours.

UNITED STATES AND MEXICO.

WASHINGTON, June 22. Secretary Lansing to-day sent a memorandum to the diplomatic representatives of South and Central American nations, reviewing the situation existing between the United States and Mexico, and announcing that if hostilities should eventually be the purposes of the States was to defend itself against further invasion, and not to intervene in Mexican affairs.

Rev. Thomas H. James, D.D.

Taylor University, Upland, Indiana, U.S.A., a Methodist institution of learning, at its recent commencement conferred the degree of Doctor of Divinity upon Rev. Thomas H. James, of Newfoundland Methodism. Dr. James was given the degree because of his eminence as a Methodist preacher and theologian and his apostolic ministry of fifty years. It is interesting to note in this connection that Dr. James' daughter graduated from Taylor University some years ago, and went from there to a professorship in a college in Iowa. Rev. George W. Riddout, D.D., another Newfoundland, is on the staff of Professors at Taylor University, holding the Chair of Practical Theology. He is one of the signers of Dr. James' Degree parchment.

More motoring miles at less cost per mile has made the **FORD** the most popular car in the world.—jun22,tf

At the City Hall.

The weekly session of the Municipal Board was held last night, all the members being present. Plans of several houses were submitted. Some were approved of and others held over until the owners comply with the sewerage regulations.

Intimation was made as to repairs to the grounds opposite the Court House. The question of liability was referred to the Engineer. Recommendations as to curbs and water extensions were approved of. Mr. A. Carnell asked that the curb and gutter be extended on Cochrane Street; he would contribute towards the expense. Referred to the Engineer for report.

Permission was given Messrs. Sparks and Moore to build on Cornwall Avenue, but no more houses will be allowed there and Mr. Blackwood, agent for Mr. McLoughlin, was so informed.

Marlin Barron, a Council employee, reported that he was sick himself as was also his wife and children and asked for help. Enquiry ordered. The men engaged at concrete work in the East End will be paid 20 cents an hour.

Two East End employees were suspended for drunkenness pending an enquiry. Arthur Dessert again claimed that the Council owed him an amount of money out of the goat case. No notice taken of claim.

The report of the Health Officer for the week showed three cases of diphtheria. The following communication was received from the Health Officer in reply to a letter sent by the Chairman re Hoppers and Fots:

J. L. Slattery, Esq., Secretary Municipal Board, Dear Sir, In reply to your letter of June 20th, I beg to say that, in my opinion, the pots or catch-pipes which have been placed about the City for the reception of slopwater have been the means of effecting a very great sanitary improvement. The great advantage of having such refuse deposited in the sewer immediately instead of allowing it to lie and decompose in the surface drains, must be clear to everyone. Under former conditions all slopwaters and liquid refuse from unsewered houses were necessarily thrown in the surface drains, with the result that many streets were always in a most offensive and insanitary condition. The improved condition of the streets which have been provided with these catch-pipes is obvious, but the danger to health which has been at least partially removed was by no means limited to the streets in question, as all such liquid filth quickly dries up and is blown about the whole city in the form of dust, laden with disease germs. These catch-pipes should of course be regarded as merely temporary arrangements, to be removed as soon as the extension of sewerage connection in any locality renders them unnecessary. In the meantime, their use has certainly led to a great improvement upon former conditions and, if properly supervised and regularly flushed, are in no way offensive or dangerous to health. I am informed that certain statements have been made to the effect that a great deal of illness in the city, and particularly the recent epidemic of measles, has been caused or spread by these pipes. Such statements are quite absurd, and could only be made by persons who are entirely ignorant of infectious diseases and the means by which they are spread. The system now in use of depositing the night-soil, which is collected by the sanitary carts directly in the sewer is also a vast improvement upon former conditions. Under the old system this material was simply dumped upon the land around the City limits. This in sanitary practice was a standing menace to the public health and a constant cause of nuisance and complaint. It has been rendered quite unnecessary by the present method of disposal, which does not give rise to any sanitary stables. I am, Sir, Your obedient servant,

R. A. BREHM, Medical Health Officer.

MINARD'S LINIMENT CURES GAIN IN COWS.

Have You a Bad Sore?

If so, remember these facts—Zam-Buk is by far the most widely used balm in Canada! Why has it become so popular? Because it heals sores, cures skin diseases, and does what is claimed for it. Why not let it heal your sore?

Remember that Zam-Buk is altogether different to the ordinary ointments. Most of these consist of animal fats. Zam-Buk contains no trace of any animal fat, or any mineral matter. It is absolutely herbal.

Remember that Zam-Buk is at the same time healing, soothing, and antiseptic. Kills poison instantly, and all harmful germs. It is suitable alike for recent injuries and diseases, and for chronic sores, ulcers, etc. Test how different and superior Zam-Buk really is. All druggists and stores at 50c. box. Use also Zam-Buk Soap. Relieves sunburn and prevents freckles. Best for baby's bath. 25c. tablet.

Britain's Food Problem

("Westminster Gazette.")

We have in the United Kingdom a population of 47,000,000, to a considerable extent fed and supplied from overseas. That is a condition which differentiates our position from that of any of the Dominions and renders impossible any protectionist policy on a large scale unless we contemplate a considerable reduction of our population. We may increase home-grown supplies, somewhat, we may, and we hope we shall, increase what we take from the Dominions, but cheap and abundant supplies from all sources must remain a vital interest of the majority of the British people. They are also the interest of the large body of traders who are engaged in foreign trade and are competing with foreign rivals in neutral markets. If for patriotic or political reasons we were engaged at the end of the war to close down our trade with the central powers, we should have to carefully count the cost to our manufacturers, and to face the fact that we were placing ourselves at a serious disadvantage in neutral markets. Most of all, we should have to count the cost to our shipping, which must decline or remain stationary, if we adopt any policy which threatens to diminish or arrest the growth of the foreign trade.

5 Months on the Way.

After being on the way for five months Lynch's wax paper bread wrappers have arrived at last. The writer has been informed that the public are appreciating the bread wrappers, from the fact that their bread trade is increasing rapidly since the arrival of their wrappers, which goes to show that the people of St. John's appreciate cleanliness, and know a good thing when they see it.

Your Boys and Girls.

Why should not boys and girls have their own allowance in proportion to the means of the parents, as soon as they are old enough to know the value of money? An allowance is the best safeguard against the habit of extravagance, if a child is taught to spend the money judiciously and to keep a strict account of all expenditures. It is absurd to think that a boy is not capable of buying his own neckties or a girl her handkerchiefs. What if they do make mistakes? They can be taught to profit by them and they must learn to rely upon themselves sooner or later. Children like to be trusted and will seldom betray confidence, and there is not a better way than this to teach them the value of money.

Cure Your Bad Cough by Breathing "Catarrhazone."

You may dislike taking medicine, but coughs are best cured without medicine. The modern treatment is "Catarrhazone"—it isn't a drug—it's a healing vapor full of pine-essences and healing balsams. It spreads over the surfaces that are weak and sore from coughing. Every spot that is congested is healed—irritation is soothed away, phlegm and secretions are cleaned out, and all symptoms of cold and Catarrh are cured. Nothing so quick, so sure, so pleasant as Catarrhazone. Beware of dangerous substitutes meant to deceive you for genuine Catarrhazone. All dealers sell Catarrhazone, large size which lasts two months price \$1.50; small size 50c; sample size, 25c.

What's the use of cooking over a hot stove in the summer time when we can supply you with

DELICIOUS COLD MEATS

that are appetizing and nutritious? These goods are always ready to serve without the annoyance of a hot fire. Note the following:—
