

New Chevrolet 5 Passenger Coach

\$1400 DELIVERED.

Body is built by Fisher—the largest builders of closed cars in the world. Extra wide doors and windows. One piece windshield that lifts automatically.

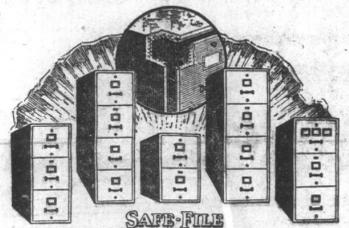

Finished in a handsome shade of rich Blue Duco—the new indestructible, ever-wearing paint—not used on any other car of its class—gets better and glossier the more it is rubbed.

Balloon tires are standard equipment. See the new model Chevrolets on display in our Showroom, Water Street—call us on the 'phone and we will gladly send you a Chevrolet for demonstration.

Papers Worth Filing are Worth SAFE-FILING

You cannot go to your files and say with certainty "This record is going to be valuable," or "That record is going to be worth a lot of money." Yet, you keep those papers—all of them.

And the days after the fire are the days when you will need them most.

The SAFE-FILE is not "just a file." It is a new product—distinctive and different from anything now made. As its name implies, it is both file and safe—a file in its convenience and economy—a safe in supplying much needed protection.

While new as a product, its principles of construction are those of the SAFE-CABINET, proven by fires and research of many years.

There is no record worth keeping which you cannot now protect, properly, efficiently, and economically.

The price of the SAFE-FILE is surprisingly low—very little more than you are now paying for ordinary files.

Get more SAFE-FILE information today. Write to THE SAFE CABINET COMPANY, Marietta, Ohio

Father Gallagher Lectures at Star Hall

The lecture delivered by Father Gallagher at the Star of the Sea Hall last night was largely attended and proved both instructive and entertaining. President Peter J. Cashin presided. A short musical programme preceded the lecture, when songs were contributed by Mrs. C. J. Cahill, Messrs. J. Canning and L. Dillon. The performers acquitted themselves splendidly. The lecturer was then introduced. Father Gallagher had chosen for his subject "What the Irish had accomplished in America," and under this heading he delivered a discourse that will long be remembered. The lecture was of about one hour's duration. Up into that hour there was crowded a fund of information that was not alone interesting but intensely instructive.

A hearty vote of thanks was proposed by Mr. J. Farrell, and seconded by Mr. W. F. Graham, and heartily accorded the lecturer, as well as three rousing cheers given in true Newfoundland style, and the wish was expressed that Father Gallagher will long be spared to continue the noble work in which he is now so successfully engaged.

Baseless Rumors

Editor Evening Telegram.

Dear Sir.—Will you kindly publish the following: There have been some very serious reports going around St. John's concerning me; some going as far as to say that I had committed suicide; others that I had been killed by some one else. It was also rumored that I was seriously injured, one of the St. John's papers going as far as to say that I was in hospital. You can imagine the shock to my family, upon hearing reports of this character. It is true, I have had a lot of trouble during the past year, but I have no intention of trying to escape it in the above mentioned way. I am getting sick and tired of hearing of lying rumors being circulated in St. John's about me, there having been another serious one some time back, which had not an atom of truth in it. In that case a certain clergyman made mention of it from the pulpit, without even taking the trouble to find out whether or not it was true. This kind of thing is becoming altogether too serious, and in future should I hear any more reports of like character, I intend to do more than write the press.

I have written you a personal letter, giving extracts from a letter I received from Mrs. Trapnell, which will give you an idea of the shock she must have received.

Thanking you in advance for the publication of the above, I remain, Yours truly,

KARL S. TRAPNELL
Corner Brook, March 28th 1925.

Rub Away Baby's Colds

A Boon to Mothers

Mothers everywhere who realize the danger to delicate little stomachs of too much dosing appreciate the value of Vicks in treating croup and children's colds.

With Vicks there is nothing to swallow—you just rub it on. The body heat releases the ingredients—Menthol, Camphor, Eucalyptus, Thyme, Turpentine—in the form of vapors which carry the medication directly to the nose, throat, bronchial tubes and lungs.

At the same time Vicks is absorbed through and stimulates the skin like a poultice or plaster.

Colds go overnight, croup is generally relieved within 15 minutes.

Campaign for Missions

The four city Methodist Churches for some time past, have been organizing for a fitting celebration of the Centenary of Methodist Missions in Canada and Newfoundland. A part of the celebration was the few days campaign conducted last week in waiting upon the people for special missionary donations as extra to their regular and annual offerings. Each church adopted its own programme for solicitation. Some of them reported last week and last night Wesley Church received the report of its workers. After the various amounts were added, the people of the church showed that they had not only reached their objective but exceeded it by twenty per cent.

Sch. Tidy, Capt. G. Brown, arrived at Aquaforte from Barbados yesterday. The vessel will leave for this port the first favourable opportunity.

BUICK THIRD MEMBER.

Buick cars drive through a third member, not the springs. The springs only support the body and assure easy riding. A Buick rear spring, accidentally broken can not misalign the axle and prevent driving the car. The Buick axle remains in fixed position. Consequently the adjustment of Buick four wheel brakes is not affected by the deflection of the springs.

Only two other American cars have this excellent type of rear axle, one costs around Four thousand dollars, the other is the highest priced car built in America.

"Buick is an investment in fine engineering."

Canon Scott Appeals to Premier King

(By Canadian Press.)
QUEBEC, March 25.—The following is an open letter dispatched yesterday to the Right Hon. William Lyon Mackenzie King, Prime Minister of Canada, by Ven. Archbishop Scott, in connection with the dispute in the Cape Breton coal fields:

"Dear Sir:—In the name of our country I appeal to you as the head of the Federal Government of Canada to take immediate steps to save the lives and stop the acute suffering of our sixty thousand fellow citizens in Cape Breton.

"If there is no law in the constitution of Canada which gives you the right to avert the hideous calamity now very imminent, the supreme law of common humanity empowers you to intervene.

"The funds of the relief committee we are told by responsible people, include that of the Roman Catholic Bishop of Antigonish and the Anglican Archbishop of Halifax, are almost exhausted, and when they are gone, absolute starvation and death must ensue.

"Ultimately the responsibility of the fate of our fellow Canadians rests not upon one province only, but on the whole Dominion. The ancestor whose name you so proudly bear was once judged a rebel because he stood for the rights of the oppressed in defiance of the law. An oppressed people is crying for a deliverer to-day. Never in the whole course of our history has there been a more wonderful example of patient heroism than is being manifested by the thousands of men and women and little children in Cape Breton at the present time.

"If the agony of human beings does not move your government to immediate action, perhaps the reflection that failure to save the lives of Canadians now will not only shake your government but what is worse it will shake the ordered constitution of our country.

"It is merely playing into the hands of that Bolshevism which we all dread and which is threatening the sovereignty of the world to-day. This should not be the motive to lead us to play fairly with our fellow Canadians, but it ought to have weight with those whose self-interests shut their ears to the cry of the suffering."

"Yours faithfully,
(Sgd.) F. G. SCOTT."

"Does it Pay?"

FOX PICTURE SHOWS FOLLY OF
BREAKING SOCIAL CONVENTIONS.

MISS HAMPTON AS VAMP.

If any hard working little girl for a moment believes, after wearily working back to her third floor rear room, that all would be well in this sometime dreary old world if she could but become married to some "lovely man with lots and lots of money," we suggest that she first visit the Majestic Theatre to-night and see the Fox Film Corporation offering of "Does it Pay?" in which the glorious little Miss Hope Hampton is featured and with remarkable artistry portrays the tragedy of a girl who cared too much for the money and too little for the man.

It is rather difficult, even with Miss Hope Hampton playing the part of Doris Clark, to feel very sorry for this girl who wanted money and gorgeous clothes so badly that with wide open eyes and a tightly closed little adamant heart she wrecked lives and homes.

"Does it Pay?" is a remarkably vivid portrayal of a tragedy; an inkling of which we on occasions read in our newspapers and over which we sorrowfully shake our heads and hope it may never come nearer to us. Yes, you will quickly decide with us when you have seen this splendid production, that it does not pay, and must never be permitted to pay.

Patrons who cannot take it in to-night should do so to-morrow afternoon and night.

Whole Town on Hunt of Escaped Zoo Bear

LANCASTER, Ua., March 17.—Five hundred residents of the East End of the city, armed with pitchforks, clubs, shovels and household implements of every description, reinforced with half the policemen in the city, mobilized to recapture a bear that escaped from the city zoo in Reservoir Park.

They took up the trail and finally located the animal perched on a tree within a few squares of the park.

The New CHEVROLET

New value—new quality
—a new line of Chevrolet models even better than ever before.

New chassis—with larger, stronger frame—new semi-elliptic chrome vanadium steel springs—stronger axles, rear axle of the finest construction, banjo type with greatly strengthened gears; improved, fully enclosed dry plate disc clutch requiring no lubrication; extra heavy brake bands and many improvements on the powerful Chevrolet motor.

New bodies—of even greater beauty and comfort. All models have new radiator of more beautiful design made of non-rusting airplane metal. All closed models have new and especially beautiful Fisher Bodies with the new VV closed body one-piece windshield and automatic windshield wiper.

New finish—all models are now finished in Duco—the new finish that retains its color and lustre almost indefinitely and withstands very much harder usage. These are but a few of the quality features of the new Chevrolet—quality features that you would expect to find only on cars of much higher price.
