Importers, Alma Block.

Guelph, Sept. 27, 1872.

Flax-Raising in Canada.

There is a considerable quantity of flax grown throughout western Ontario each year. Since the closing of the two chief flax manufactories a few years ago, one of which was located at Streetsville and the other at Preston, many persons have been led to believe that very little flax was now grown amongst us. But this is not correct. The writer recently passed through a considerable part of the western country, and was surprised to see such a large number of fields of flax, most of which were pulled and ready to be housed. This was particularly the case in the counties of Waterloo and Perth, in which there are quite a number of scutching mills, the owners of which generally supply the seed to farmers, and in some cases allowing the latter so much for the use and preparation of the land, doing the seeding and pulling themselves. Most of our flax at present finds a market in the United States, and the demand is said of late years to have been very good. Judging by the appearance of the fields, the crop of this year has been a good one, and we trust prices may be such as to return good profits to those engaged in this important branch of industry. The value of our exports of flax for the year ending 30th June, 1871, is set down at \$112,778 in the Trade and Navigation returns, and the value of the flax seed exported at \$53,685. Most of the flax was shipped by "land carriage," but most of the seed in "foreign vessels." Nearly all the shipments, however, were made from the Province of Ontario, and found a market, as we have already remarked, in the United States. Of the foregoing amount, the Province furnished \$102,977 of flax and \$52,588 of seed—being within \$10,649 of the total amount of our exports.—*Monetary Times.*

Too Anxious by Half.

Our Tory exchanges, great and small, appeared to be desperately exercised concerning the fate of the Ontario Government. All sorts of wild theories are indulged in, and the anxiety they manifest concerning the probable action of the retiring Premier, and other members of the Cabinet, is truly touching. This Solicitude is entirely unfeeling for. Unfortunately for the Tories the Ontario Government will be reconstructed without the slightest regard to the advice or suggestion of the troubled organs of the party. The Reform party is quite capable of regulating its own household, which in view of the present state of affairs is more than our apparently anxious Tory friends can boast of. If they have not already given up the unseaworthy party ship in despair, let them turn their attention to the demoralization that exist among their own leaders. With Sir John in one of his incapable moods again, Sir Francis retired in disgust, Sir George unable through serious illness to attend to State affairs, and Howe in his dotage, they have enough to do in casting about for their successors to claim their precious time in meddling with what does not concern them.—*London Advertiser.*

Mr. Gilmore, in a published card to the public, enjoins upon them to "thank God for the Festival"—not because the late Boston Jubilee had a Divine origin; but because it has been the means of making the "music of the Star-Spangled Banner" echo to-day throughout the great cities of London, Dublin, Paris, Berlin, Vienna,—throughout Europe, speaking in trumpet tones for Boston and America."

BREAKFAST—EPPS'S COCOA.—GRATEFUL and COMFORTING.—By a thorough knowledge of the natural laws which govern the operations of digestion and nutrition, and by a careful application of the fine properties of well-selected cocoa, Mr. Epps has provided our breakfast tables with a delicately flavored beverage which may save us many heavy doctors bills.—*Civil Service Gazette.* Made simply with boiling water or milk. Each packet is labelled "James Epps & Co., Homoeopathic Chemists, London." Also, makers of Epps's Milky Cocoa (Cocoa and Condensed Milk.)

H. C. Caswell, Oshkosh, Wisconsin, February, 1872, in a letter says: Fellows' Hypophosphites is doing good work here, and we have already disposed of a large quantity. It stands the test, and every day people express their praise of its virtues. Our physicians are prescribing it, and we have goods accounts from Michigan and Illinois.

G. D. PRINGLE, Watchmaker, Guelph,
