THURSDAY, JUNE 19, 1913.

GRANT TO BOARD OF TRADE

some members of the city council seem much ed to cut out the annual grant made to the Board of Trade. Aldermen resent duct of the board in opposing so vigoroushe bylaw establishing the manufacturers' ng. It is also believed that there is a dupion of work, which leads to hostility and dry between that body and the Industrial

The Board of Trade has done some good work n days past, though it is not the strong force in e commercial world in this city that might be meeted in such an ambitious and vigorous city. is capable of good work now, but the alderen are justified in asking for a reorganization a change in conditions before making the grant. At the present time the city has a publicity lepartment which is doing fairly good work. The Industrial Bureau is supposed to do some publicity ' work. The Board of Trade is expected to do some nublicity work. There is no definite understandbetween the three bodies and in that way here is clashing at all points.

It would be better to have one publicity ornization which would devote its attention enirely and vigorously to publicity and let the other organizations pursue their own way. That pubcity organization should get the city grant.

THE PRACTICAL JOKER.

Some funny person from Horseshoe Falls elegraphed to Calgary that there had been a seriis accident, and nine men were on the train comto Calgary hospitals, and some of them would bably die before the train arrived in this city. he Calgary hospital and ambulance authorities bok proper action, and accommodation and atendants were at the depot awaiting the injured two o'clock in the morning. One person came the train with his hand slightly injured.

Of course it was a joke. Different people or even a fourth unit. have different ideas of real humor. It is all in a etime in a strange world. But this is likely to be the real effect of this high class vaudeville permance of the Horseshoe Falls humorist. There av be an accident in Horseshoe Falls and some son will telephone in a call for assistance. st people do not care to be made the butt of actical jokes of that kind. When the victims ve in this city no attendants and accommodaion may be awaiting. That will be the logical tcome of the high class humor of the Horseshoe

LET US BE CONSIDERATE.

Mr. Mawson has outlined in a general way me suggestions for a Centre street bridge. His tement was given without much detail to newsper representatives, and has appeared in the gary papers. It appeals to the average person leserving of the most careful consideration. It

Mr. Matthews, president of the North Hill reports, sends a letter to The Albertan, declar- are right.

Editorial Notes

ing that "the residents of the North Hill note the position taken by Mr. Mawson relative to the Centre street bridge question, as outlined in Wednesday morning's paper, with sadness and profound THE CENTRE STREET BRIDGE

authority of the North Hill residents to make
that general statement about their position. On
the other hand, Mr. Matthews and many others
who are criticizing Mr. Mawson's suggestion are
much too hasty in arriving at an adverse opinion.
They have no details of his plans. They have
merely the bare statement of an alternative suggestion.

Mr. Mawson is perhaps the most celebrated

Mr. Mawson is perhaps the most celebrated

Mr. Mawson is perhaps in the world. For the

Beditor Albertan:

The esidents of the North Hill note in
the position taken by Mr. Mawson relative to the Centre Street bridge questhe position taken by Mr. Mawson relative to the Centre Street bridge questhe position taken by Mr. Mawson relative to the Centre Street bridge questhe position taken by Mr. Mawson relative to the Centre Street bridge questhe position taken by Mr. Mawson relative to the Centre Street bridge questhe position taken by Mr. Mawson relative to the Centre Street bridge questhe position taken by Mr. Mawson relative to the Centre Street bridge questhe position taken by Mr. Mawson relative to the Centre Street bridge questhe position taken by Mr. Mawson relative to the Centre Street bridge questhe position taken by Mr. Mawson relative to the Centre Street bridge questhe position taken by Mr. Mawson relative to the Centre Street bridge questhe position taken by Mr. Mawson relative to the Centre Street bridge questhe position taken by Mr. Mawson relative to the Centre Street bridge questhe position taken by Mr. Mawson relative to the Centre Street bridge questhe position taken by Mr. Mawson relative to the Centre Street bridge questhe position taken by Mr. Mawson relative to the Centre Street bridge questhe position taken by Mr. Mawson relative to the Centre Street bridge questhe position taken by Mr. Mawson relative to the Centre Street bridge questhe position taken by Mr. Mawson relative to the Centre Street bridge questhe positi regret." But it is questionable if Mr. Matthews has

authority on city planning in the world. For that reason, if for no other, his recommendations deserve the greatest amount of careful consideration. And they must get it. Without doubt he will make many suggestions which do not occur to Calgary citizens, and he may make some recommendations which may seem surprising. But Calgary citizens in general should be considerate, and not condemn the suggestions he makes without thinking them over. They must take a broad view of the whole scheme, and not of one part of it. Let us be calm and likewise considerate.

PAVEMENT TROUBLES.

There is pavement trouble every year, and sometimes oftener, and there will continue to be pavement trouble until Calgary is able to do its own paving. It was ever thus. It will be thus forever. It is the same thing in every other city.

The letting of pavement contracts has been attended with more municipal corruption and scandal than any other civic undertaking. It has got so that there are no pavement negotiations that are not looked upon with some suspicion, frequently without cause.

But that is the way that it is, and ever will be. A number of years ago Calgary decided to do its own paving. The organization of a paving or another until it began operations last year. It plant was delayed and postponed for one excuse city at once undertook a second unit. But even in many a day. yet the city service cannot do all that there is

If we had been more active in getting a paving plant a few years ago we would have saved thousands of dollars, and had good roads instead of the desperate pavement which we have had foisted upon us in some places in such a lordly manner.

If Calgary wants a living example of the benefits of municipal ownership over private ownership, let it contemplate its experience in paving. But the time for rest has not come yet. It is unfortunate that we have not sufficient plant to do all our own paving. The commissioners should consider increasing the paving plant by a third

THE SUFFRAGETTES' CAMPAIGN

One woman in Britain has given her life in the campaign for the ballot. Yesterday another woman announced her willingness to give her life for the cause.

The British suffragette would have the ballot now if she did not show that she wanted it so badly. It is generally admitted that it was refused by the house of commons the last time because the militant worker was so keen and vigorous in her campaign for the voting powers. John different and now insists that she shall not have morning if you would share. it merely because she wants it very badly.

and in many cases without reason. But no great Regular \$1.50 to \$1.95. Friday..... reform has ever been secured without great sacrifices. This is not the first campaign for the ballot that has roused people to desperate deeds. The main point, however, is that suffragettes in their epayers' association, after reading the newspa- main contention that women should have votes,

But every citizen should be prepared to wait, look the whole plan over carefully, fairly and without prejudice before passing judgment upon it. That

chants and citizens should start in aring for it. There is probably no le feature that does so much for ity as the Calgary Fair. It will be thermometer has passed the sky line and proposed are suffering very much because of the heat. It is pleasant to live in a country where the thermometer does not do such tricks and the weather not too hot in summer or too cold in winter.

The supreme court decided that certain ballots tendered in the Clearwater election need not be counted, and so they will not counted just now, and in the meantime, Mr. McKinney, who has a very narrow and uncomfortable hold upon the seat, will continue in nominal possession until the next legal move may be made, and the opposition strength continues at 17, which is not too strong and is a fairly good-sized little party.

Premier Boruen has been used.

Premier Borden has been urged to The decision in the Samis-Minchin of Men's Shirts, warm in Quebec this year.

st glance, Mr. Mawson's sugfor the widening of Centre

it, the bridge across the river,

Letters to The Editor THE CENTRE STREET BRIDGE

people on the north side, at least, will not stand for any bridge scheme which does not accomplish said elimination. It the thought of a high level bridge gives Mr. Mawaon a cold chill, his suggestion of a low level bridge followed by the old disheartening climb up the clay bank, gives us an aggravated case of fever and ague accompanied by delirium.

The climb up the hill will always be a necessity on the Edmonton and Morley Trail roads, but there is a chance to eliminate it at Centre Street and we smust have one place of access to the rasin business section of the city without this uncomfortable experience. The people on the north side have been long, suffering and patient in the face of past discrimination against them, and have been carrying their full share of the burden of taxation without receiving their fair share of improvements with scarcety a murmer, but if they are cheated out of the high level bridge, there will be trouble in Rome, and don't you forget it.
