WEEKLY REVIEW.
London, Wednsday, Aug. 22.
Taken as a whole the trade done on this
market this week has been good. There were some lines that were disappointing and others that exceeded expectation. Among the former we find wheat, oats, hay, and in the provision that exceeded expectation. Among the former we find wheat oats, hay, and in the provision list, eggs; among the fruits and vegetables, peaches, tomatoes and potatoes.

The offerings of wheat were small, and were it not for the tight demand for home consumption there would be scarcely enough to bread the city; there was no change in the price—a feature now controlled by smaller markets outside, a strange thing, but nevertheless true. We cannot hear of any market near us that is paying anything like the price for wheat that London is. In Toronto we find the dealers buying wheat at outside points at 52c and 53c. This buying is done between dealers, and it is quite certain the grower could not have got over 50c for it, while in London it is eagerly picked up at 54c and 55c for choice white.

Oats came in more plentiful than was expected, and the consequence was a lowering of values on both old and new; \$5c to 86c was the closing price of new and \$1 for old.

Two or three loads of new barley came in this week, and sold at 85c per 100 lbs. The color was good, but it was deficient in weight, and had to be used for feeding purposes. We believe from the bids made that had the weight been all right it would have sold at 85c.

A few new peas came in; the price paid was 90c; they were of the early sown crops and were very buggy. We hear of a good many lots of late sown peas and they are reported as being almost free of bugs and of good color.

Rye sold all the way from 90c per 100 lbs to \$1 c5.

Eggs at the beginning of the week loeked as

Eggs at the beginning of the week looked as though they meant to go up, but owing to heavy offerings in crates the market was tradier and closed unchanged.

Butter continues scarce and is likely to be so as long as the dry weather lasts. It is doubtful, in fact, if even a week's rain could require that we are reported.

doubtful, in fact, if even a week's rain could resuscitate the pastures now; they are reported as being like dried seaweed. In many parts the farmers are feeling the benefit of plenty of born fodder, which we are given to understand as about the only material substance equal to pasturage for producing milk. The close in outter was 22c to 24c for pound rolls, and 26c to

offerings of any account and an odd carcass of veal. Prices unchanged. No public sales of dressed hogs.

Wool, tallow and hides steady and no change.

Wool, tallow and hides steady and no change. change.
Apples continue to come in more freely than

Apples continue to come in more freely than the consumption warrants. It is hard work to sell any quantity of them, and harder still to get anything like a price out of them—30c to 75c per bag, according to quantity and quality. Peaches did not come in quite so freely as was expected at the early part of the week. Best qualities sold at 70 to 75c Tuesday and Saturday, and poorer lots at 50c to 60c. Plums brought from 90c to 31 15 per basket. Crab apples were 50c per bu. Pears, 75c to \$1 50, according to kind. Tomatoes were much lower, selling at 3c

Tomatoes were much lower, selling at 3c wholesale and 4c to 5c retail.

The rest of the fruit and vegetables was unchanged and about the usual amount of business was done in them. ness was done in them.

Hay was lower and sold at \$8 to \$8 50. Straw quiet at \$3 per load. Quotations:

Wheat, white, fall, 100 lbs 8 90 to Wheat, red. fall, per 100 lbs..... Wheat, spring, per 100 lbs..... W heat, spring, per 100 ibs. 85 to Oats, per 100 ibs. 90 to Peas, per 100 ibs. 110 to Corn, per 100 ibs. 80 to Barley, per 100 ibs. 80 to Rye, per 100 lbs..... Buckwheat, per 100 lbs..... car while being brought to this city yes and still has on the fur coat he wore on the terday. Harrington was found in Adelaide | night of his disappearance. village. He was a mass of cuts and bruises, sustained in the effort to get away from his custodian. He is said to be a half-witted fellow, but of good reputation. He has no parents living and resided with an aunt in Strathroy.

Excise Exams. The examinations for the Excise Department of the Civil Service have begun at the Custom House, and will be continued until Saturday. Mr. R. M. Graham, principal of the Simcoe street school, is in charge of the class. The subjects for examination include those relating to a general business education, and also a number having special reference to excise business. The class includes one lady, Miss Carrie Bradley, of Windsor. The others in attendance are Messrs. G. A. Bayard, J. P. Tracy, David Wilson, C. E. A. Webbe and H. Foster, London; J. P. Jubenville, R. Momas, D. J. Brennan, F. E. Marcon, E. T. Kilroy, Windsor, and P. D. Hart and A. C. Hawkins, Brantford. The board of examiners are expected here at the end of the

Death of Mr. Frank Turton. One of the best known engineers on the Grand Trunk system died at the City Hospital yesterday, as a result of an operation for the relief of intestinal trouble. The Durham, England, in 1854, and landed in Quebec. He spent a few years in the service of railroad contractors in Quebec, and then removed to Hamilton. In 1857 he came to London and entered the employ of the Grand Trunk. After a few years he was removed to the Petrolea branch and lived in Petrolea for nineteen years. About eight years ago he again returned to London, and since then has been driving in the Grand Trunk yards. Deceased was 62 years of age and leaves a widow, but no children. He was a member of the Wellington Street Methodist Church, and will be buried tomorrow afternoon at Mount Pleasant. Deceased was a brother of Mr. Robt. Turton, the well known G. T. R. driver between London and Stratford. He was a member of Eureka Lodge of Oddfellows and the Brotherhood of Locomotive Engineers. The Affairs of Stevens & Burns.

A meeting of the creditors of Messrs. Stevens & Burns, agricultural implement and brass goods manufacturers, was held at the office of the trustee, Mr. Alf. Robinson, yesterday. A statement of the assets and liabilities showed the cause of the present difficulties to be the inability of the firm to realize immediately on their customers' paper. The assets were placed nominally at about \$240,000, and the gross iabilities at \$180,000, leaving a nominal credit balance of \$60,000. The assets consist of customers' paper to the amount of \$130,000 or over, of which \$120,000 is held between the Union Bank of Winnigeg, the Bank of British North America and the Bank of Commerce. Nearly half of this sum is now past due. The plant was valued at \$95,000, and there are other items amounting to about \$25,000. The liabilities are made up of two mortgages aggregating \$38,500; bank discounts of nearly \$100,000; bills and accounts payable of \$40,000, and \$2,400 of preferred claims, including \$1,439 91 wages. It was reselved to adjourn the meeting for two weeks in order to give the firm an opportunity to arrange some of the more pressing claims and resume business without delay. Messar. M. D. Fraser, Manager Ingals (of the Bank of British North America), A. G. Rumball, A. R. Williams (Toronto) and Geo. C. Gibbons were appointed inspectors.

THE WHEEL.
RUNNING A BICYCLE WITH A SAIL. NEW YORK, Aug. 22.-Christian Gauz, member of the Omaha Cycling Club of Omaha, Neb., has just finished a trip from that city to Brooklyn on a bicycle fitted with a ten-foot leg-o-mutton sail. The distance traveled was about 1,700 miles; 22 are charged with having participated in the actual riding days being required to acassault upon R. J. Kearney in London complish it. The sail, which was fitted west on Sunday afternoon. Donahy was into the head of the bicycle, proved of found in a London township hotel and great assistance to the rider while wheeling across the open plains of Nebraska and Iowa. In descending the eastern slope of the Allegheny Mountains Gauz was forced to cut a small sapting and trail it behind to lessen the speed of his machine. At times he was compelled to back pedal to stop the terrific speed.

THE LEAMINGTON BICYCLE MEET. The bicycle meet at Leamington is to be held on the 28th inst., not the 22nd as previously announced.

KINCARDINE'S MYSTERY SOLVED.

Body of Missing Angus Matheson Dis-

covered. KINCARDINE, Ont. Aug. 22.-The body of Angus Matheson, who mysteriously dis-appeared last fall and who was thought by -The Strathroy chief of police has ar- a number of persons to have been murrived h e, having in custody Robert dered, was found this morning by the Gov-Harrington, who is charged with incendi- ernment dredge while at work in the arism, and who escaped from the closet of a harbor. The body is badly decomposed

CANADA'S GREAT FUTURE.

The Aim and Purpose of True Patriotism.

Our aim and purpose in my estimation ought to be to develop from this northern side of the continent a great Canadian nation. That is the policy which I have advocated for many years past and am now advocating. I submit that the policy which was adopted in 1865 by the coalition of George Brown and Sir John Macdonald should be carried out, that we should endeavor to cement and bring together the different elements which Providence has gathered upon this continent. We have here Frenchmen, Englishmen, Scotchmen, Irishmen and Dutchmen. I want to raise Confederation to the highest possibility to be attained. I am proud of my country. There is no land under the sun of which I am prouder than this little Canada, with its population of 5,000,000, and still prouder would I be if it had a population of 10,000,-000 souls. Still prouder would I be if it had a population of 20,000,000. Still prouder would I be if it had a population of 40,000,000, as it must have some time. I do not expect to live long enough to see Canada with a population of 40,000,000, but there are young men in this audience who, deceased left his home about 9 o'clock in I hope, will live to see Canada one of the the morning for the hospital, and the body great nations of the earth, one of the was brought back at 1 o'clock. Mr. Turton auxiliary kingdoms with the Kingdom came to this country from South Shields, of Great Britain. This is the aim and purpose we ought to keep in view, and I would appeal to these young men on all occasions to stand by the cause of their country, and from this moment to

do everything they can to help it to reach the goal we have in view. Sir, is this simply a fancy, a dream; is there nothing in this outlook to appeal to the hearts of the men and women of this country? Are we to be told that we are to grovel for ever in the position in which we are today? No; I hope to see a grander day for my country. Though I do not expect to live to see it with a population of 40,000,000, I hope to see here a population of 10,000,000 before I am many years older, especially it we return to the policy of making Canada a cheap country to live in-[Hon.
