

The Colonist

FRIDAY, AUGUST 3, 1894. PUBLISHED EVERY FRIDAY MORNING. The Colonist Printing and Publishing Co., Limited Liability.

TERMS: THE DAILY COLONIST. PUBLISHED EVERY DAY EXCEPT SUNDAY. For Year (Postage Free to any part of the Dominion or United States) \$10.00

ADVERTISING RATES: REGULAR COMMERCIAL ADVERTISING. (Not as distinguished from everything of a transient character or of a special nature.)

WEEKLY ADVERTISEMENTS—Ten cents a line for the first week, 10 cents for each subsequent week. No advertisement inserted for less than \$2.

HON. MR. VERNON. The Vancouver World of Saturday has the following: "Hon. F. G. Vernon returned to-day from East Yale on his way to Victoria, looking remarkably well and in the best of spirits."

Mr. Vernon attributes his defeat to several causes, any one of which would have been sufficient to have beaten him under ordinary circumstances. Those who know him best were, and still are, his staunchest friends.

Mr. Vernon is too valuable a public man to be allowed to retire into private life. British Columbia possesses few who are so competent to fill the position of a minister of the crown.

THE PISTOL NOT THE LAW. PARIS, July 30.—M. Canivet and Deputy Ronard fought a duel with pistols on Saturday in La Ferrière. Two shots were exchanged, but neither man was hit.

THE PLAGUE IN CANTON. LONDON, July 30.—A dispatch from Hongkong says that an official report issued there gives a number of persons who died in the plague in Canton as 130,000.

THE COLLEGIATE SCHOOL.

Report of Progress for the Term Just Brought to a Close.

New Premises on the Esquimalt Road Acquired for Future Use.

The Collegiate school closed for the year with the reading of the half-yearly reports to the parents and friends of the pupils in the cathedral schoolroom, and afterwards the prizes were presented by His Lordship the Bishop.

My Lord.—I beg to present to you the fourth half-yearly report of the Collegiate school. There has been a slight increase in numbers since last December and the number reached this term is higher than at any period during the last two years.

There has been a slight increase in numbers since last December and the number reached this term is higher than at any period during the last two years. We are one boy up for the matriculation examination at McGill university, and at present the result is unknown.

Examinations are not very reliable tests of knowledge, and three hours' paper is a severe test of a year's work in any one subject. In some cases we have done well, but in others the results are disappointing.

We have at last, after careful consideration, determined to move the school into premises of its own. Many circumstances have helped to decide where the future home should be. After long search it seemed impossible to find a suitable place anywhere between here and Oak Bay, in which direction we proposed to move.

My Lord.—I have had great pleasure in taking a hand in examining the boys of the Collegiate School for another year, and can speak with renewed confidence of the pains which have been evidently bestowed upon them by their master.

REPORT OF REV. CANON BEANLANDS. My Lord.—I have had great pleasure in taking a hand in examining the boys of the Collegiate School for another year, and can speak with renewed confidence of the pains which have been evidently bestowed upon them by their master.

PROVINCIAL TEACHERS.

List of Those Who Have Been Successful in the Examinations Just Over.

Unusually Satisfactory Results Generally Attained—All Papers Show Close Attention.

The results of the annual examination of candidates for certificates of qualification to teach in the public schools of British Columbia are announced this morning. The examinations commenced simultaneously in this city, Vancouver and Kamloops on the 4th of July, and the dates of the examining board—composed of John Anderson, Esq., Vice-Archdeacon Scribner, M.A., Rev. P. McE. Macleod and Rev. W. D. Barber, assisting Dr. Pope, the Superintendent of Education, proved more than ordinarily laborious, owing to the greatly increased number of candidates.

Prizes. Christmas, 1893—Form IV, Dewdney; Form III, Dewdney; Form II, Dewdney; Form I, Dewdney; French prizes, Hamilton; Divinity prizes, Hamilton; 1894—Form IV, Dewdney; Form III, Dewdney; Form II, Dewdney; Form I, Dewdney; History prizes, Dewdney; Geography prizes, Hamilton; Divinity prizes, Asplund.

IN BOUNDARY CAMP. American Citizens Alive to the Importance of the Value of British Columbia Mines, and Also Alert and Doing Good Work.

The Spokane Chronicle of the 27th inst. has the following in regard to the recent discoveries at Boundary Creek, B.C.: "The finest collection of assorted ores that has been left at the Mining Exchange for many months is attracting the attention of visitors to-day. It comes from Boundary Creek, and was brought in by E. P. Snydam, an experienced mining man, who has been making a tour of that district. He declares that the wealth of the great district is still unappreciated and almost unknown."

"Take the Copper camp, for example," said Mr. Snydam. "Here are ledges fifty feet wide carrying iron ore. What other district can show such resources developed? The Deadwood, Greenwood and Summit camps also show ledges ranging from ten to forty and fifty feet in width. In Atwood's and Down's camps there is high grade silver, the ledges varying from six inches to the eight feet in width. Then there is the Skylark group of silver and gold, including the Skylark mine which is now shipping ore."

"A new camp has now been located between the Skylark and Boundary Falls. The principal properties are the Helen and Capital Pries. An assay by Lanais, of Spokane, has been made, and shows 624 ounces of silver and \$38,522 in gold. Walters' assay shows 624 ounces of silver and \$38,522 in gold. A test of seventy-five assays from all the high grade samples, has been made by Assayer Gibbs of Boundary, and the result was \$15 45 in gold besides silver and copper. And yet the people of Spokane are not paying any attention to this district, don't care to invest, and don't appear to care. I think they ought to send a man to investigate and see what they can do to help develop that country and hold the great grade that is bound to have in the near future. The great neighbors are already beginning to reach out for it."

SANCTITY OF TELEGRAMS. SAN FRANCISCO, July 31.—Some times the U. S. District Judge Morrow issued an order commanding the Postal Telegraph Company to produce before the federal judge all the telegrams sent by President Debs, of the A.R.U. to the strike leaders in this city, at Sacramento, Oakland and Woodville, for a telegraph company, appeared before Judge Morrow and asked that the order be rescinded on the ground that the court had no power to issue such an order, as it was prohibited by our state laws, also that the court did not specify any certain telegrams, but did not specify any number of them. Judge Morrow took the motion under advisement.

SEALERS AT OUNALASKA.

A Fleet of Seven to Start Thence for Behring Sea Early To-morrow Morning.

The "Triumph's" Very Lucky Escape—New Aids to Navigation.

The steamer Willamette, which returned from Ounalaska yesterday, brought down a passenger, Dr. Emmons, the retiring collector of the Northern port mentioned, who leaves for Seattle by the Rosalia to-day. He reports that a fleet of seven Canadian sealing schooners was gathered when he left, among them being the Triumph, Sapphire, Bowditch, Alonka, Walter L. Rich, and Wanders. The latter's seizure was substantially as already related in Alaskan advices, and she is now held awaiting the arrival of H.M.S. Pheasant, into whose custody she will be delivered. All other vessels are prepared for the short season's operations in Behring sea, for which they were intending to start at 1 o'clock to-morrow morning. The season opening with the lot of August, the attention will first of all be directed to the westward of St. Paul's island, where very large herds are reported to be departing themselves. The whaler Calisto, under the command of Capt. A. H. Pheasant, is reported to have seen a seal in this neighborhood, all apparently heading for the Russian coast; the Pribilof islands are reported to be practically deserted. The California seems to be toppling overboard, having five sperm and one bone whale, among the items of sealing news from the North is that of the Triumph's narrow escape, full particulars of which are contained in the appended letter from the master to the owners:

"OUNALASKA, July 30, 1894. "DEAR SIR.—As the steamer Willamette sails to-morrow, I thought best to drop you a few lines, as I was obliged to get an anchor from him. I nearly lost the schooner and all hands coming here. I was running for Alaskan past wind blowing heavy; there was a heavy sea on, and it was very foggy. When I was close in the wind died out and the sea heave the schooner close to the rocks. I got four anchors out and held her. The sea was breaking high as the jib-boom. I started the second mate and three Indians to Ounalaska for assistance from the men-of-war. About four hours after they left I got so bad that the schooner parted a four anchor, and there we stood waiting for her to strike. The Indians had their things in the canoe wanting to leave, but I would not let them, as a canoe or boat could not have lived five minutes in the surf. Fortunately, owing to currents and a high breeze, I managed to get out about a hundred yards, and then it was blowing a gale of wind. It was the worst night I have ever spent on salt water, but I came through it all right with the loss of my anchors. There were three American men-of-war out there looking for me, but it was so foggy they could not find me, but they got here in the night and made fast alongside the schooner. I got a four anchor and the men-of-war and custom house people here are very fine men, and they give us fairly to understand that if we break any of the laws down in the net they will seize us on sight."

RENEWAL CERTIFICATE FOR LENGTH OF SERVICE. Bailey, Adolphus S. Colver, Mrs. D. J. Jones, L.L.D. JOHN ANDERSON, B.A. WALTER SCRIBNER, M.A. (OXON.) JOHN McE. MACLEOD, M.A. Wm. DAVEN BARBER, M.A. In accordance with the recommendation of the examining committee, certificates have been granted to the following candidates:

CHATELAIN, July 31.—Joseph Landry, aged 60, and Benjamin Snell, aged 25, of Harwood, P.E.I., quarrelled yesterday. Snell kicked Landry in the abdomen and side, inflicting probably fatal injuries. TOBOTT, July 31.—Protests were filed yesterday against the return of the following members of the Ontario legislature: Hon. Mr. Hardy, as member for South Brant; Messrs. Preston for North Lanark; Patton for Centre Simcoe, and Smyth for Kingston.

CORNWELL, July 31.—The body of the late Patrick Purcell was on Saturday taken to Summersdown, where the deceased resided, and interred for a second time. WINNIFRED, July 31.—A young man named Burns was killed near Portage la Prairie, becoming entangled in a grain choppin' machine. WILSON, July 31.—Adolphus Martin, of Malden, a wealthy farmer, was yesterday found guilty on a charge of cutting out the eyes of some pigs in order to prevent them from damaging his crops. He was fined \$20 and costs.

PEMBROKE, July 31.—Mr. Hannan, residing on Allumette lake, near here, was drowned yesterday, in an attempt to save his eight-year-old daughter, who was bathing. The child was also drowned. CHATELAIN, July 31.—An old man named Jos. Landry, who had a scuffle with a younger farmer named Benjamin Snell, died yesterday morning. Snell is under arrest. RUSSELL, July 31.—Thomas R. Morrow was killed by lightning while standing at the window of his residence. HALIFAX, July 31.—The Canadian Bankers' Association elected Honorary President, Sir Donald Smith; President, B. E. Walker, general manager Bank of Commerce; Secretary-Treasurer, W. V. Chipman, Montreal. The next annual meeting will be held in Quebec.

QUEBEC, July 28.—Hon. John McInnes, a member of the Provincial government without portfolio, has been appointed to the vacant trusteeship of Sherbrooke. A lady who gets very ill, and who never can swallow a pill, says that neither that nor anything else will cure her. Bealy's Liver Lixage, she will, harmless and effective, 25 cents.

THIRTY-SIX

CARNOT'S MURDER

Trial for His Life—Nered, Innocent Boy.

His Coolness and Self Denial Confronted Anarchists.

LYONS, Aug. 2.—The trial for the murder of the late President Carnot began here this morning. Transferred from the prison of Justice at 5 o'clock this morning, a strong escort of gendarmes judges took their seats before the court. He is a man of placid countenance. His complexion is a faint, ashen tint. The jury was then empaneled by the chief magistrate.

The jury was then empaneled by the chief magistrate. Under the judge, Carnot's respectful conduct was a striking contrast to the various anarchists systematic and noisy. The prisoner denied knowing anything about the murder.

Judge Breuille—"Coming to school where you were, Carnot?" "I naturally went there," Carnot replied. "The judge asked Carnot various questions systematically. The prisoner denied knowing anything about the murder."

"Now you are right," admitted Carnot. "I naturally went there," Carnot replied. "The judge asked Carnot various questions systematically. The prisoner denied knowing anything about the murder."

"What I saw Mr. Carnot bring in I washed my dagger and planted the dagger on the table. The judge then read a number of statements attributed to Carnot. Carnot declared that he was innocent of the crime."

He also denied that the dagger was his. The judge then read a number of statements attributed to Carnot. Carnot declared that he was innocent of the crime. He also denied that the dagger was his. The judge then read a number of statements attributed to Carnot. Carnot declared that he was innocent of the crime. He also denied that the dagger was his.

Saved Her Life.

Mrs. C. J. Woodbridge, of Wortham, Texas, saved the life of her child by the use of Ayer's Cherry Pectoral. "One of my children had Croup. The case was attended by our physician and breathing and on going to it found it strangled. He had nearly ceased to breathe. Realizing that the child's condition had become hopeless in spite of the medicines given, I resolved that I would try Ayer's Cherry Pectoral in the house. I gave the child three doses at short intervals, and anxiously waited results. From the moment the Pectoral was given, the child's breathing grew easier, and in a short time, and do not hesitate to say that Ayer's Cherry Pectoral saved her life."

AYER'S Cherry Pectoral

Prepared by Dr. J. C. Ayer & Co., Lowell, Mass. Prompt to act, sure to cure

IF YOUR TONGUE IS COATED YOU NEED THEM. BEELEY'S LIVER LIXAGE. They are not a cure all, but get the best medicine known for Biliousness, Headache, Constipation, Dyspepsia, Indigestion, Pimples, Sallowness, and all diseases arising from impure blood or sluggish liver.
