finding wells and tall chimneys, while the streams of water being poured upon the interior of the ruins had no other effect than to fill the air with clouds of scalding steam, making it impossible for any note to approach near enough to search for missing bodies.

The first horror occurred just fifteen minutes after the fire broke out. A handsome woman appeared at the window of a room on the fourth floor. She held out her arms to the crowd below, of the kind that could be imagined. When it broke out Fifth avenue was crowded with people watching the St. Patrick's Day parade, and every window and leaped. She turned about like a top and struck the iron railing in front of the hotel. Her body seemed to stream of water being poured upon the streams of the windown at leaper based on the stream of the windown to the stream and occurred just fifteen minutes after the fire broke out. All preparations at the scaffold were dusty, but was still in a feeble condition. He is any pture to day, but was still in a feeble condition. A FIRE TRAP. Thomas J. Brady, commissioner of build- he was sentenced to three years in the ings, says not only was the Windsor hotel unfit to be used for hotel purposes, but also penitentiary. n the city there are at least a dozen houses where patrons take equal risks with their lives. "The lesson of the Windsor hotel fire is now known," said Commisioner Brady. "It simply illustrates the rence to old buildings. The Windsor was built under the old laws of 1871; and did States cruiser Raleigh sailed from here not have fire escapes on it until 1885. 1882 the owners were ordered to put up bound from Manila in order to be put off fire escapes, but did not comply with the commission, she hoisted the Spanish encountry three years. Again, in order for nearly three years. Again, in 1892, this department directed that additional additional actions of the company with tional fire escapes be put on, but the order was not obeyed until 1893. I did not consider that the Windsor hotel was a safe place for people to live, for the reason that t was bunlt under laws which made cheap buildings possible and protected that sort of work. We cannot touch fully a dozen
