 CERTIFICATES OF STRENGTH AND PURITY.
 OFFICE OF THE PUBLIC ANALYST,
 MONTREAL, September 9th, 1887.
 CHEMICAL LABORATORY,
 MONTREAL, September 9th, 1887.
 To the Canada Sugar Refining Co., Montreal:
 Gentlemen,—I have personally taken samples from a large stock of your Granulated Sugar, REDPATH brand, and carefully tested them by the Polaroscope, and find these samples to be as near to absolute purity as can be obtained by any process of Sugar Refining.
 The test by the Polaroscope showed in yesterday's field 99.9 per cent. of Pure Cane Sugar, which may be considered commercially as ABSOLUTELY PURE SUGAR.

 ISSUES ALL APPROVED FORMS OF LIFE POLICIES AND ANNUITIES.
 Its Policy enables you to leave an estate that cannot be taken from those you love by any circumstances. It will secure your wife freedom from those distressing experiences which come to the destitute. It will secure the education of your children and maintain an unbroken home for them should you be cut off before they are able to care for themselves. It secures your business from being sacrificed, as in so often the case, for want of ready money to meet the demands that come in the process of liquidation of an estate by creditors.
 ITS ANNUITY BOND WILL PROVIDE A COMFORTABLE LIVING FOR YOUR OLD AGE.
 "Much of the unequalled success of the NORTH AMERICAN LIFE as a Home Institution is to be attributed to its very liberal and varied forms of insurance, combined with its liberal principles and practices, and especially to its prompt payment of all just and approved claims, upon maturity and completion of proofs, a practice introduced here by the Company, which has continued to afford the representatives of deceased Policy-Holders the greatest satisfaction."
 Agents wanted in all unrepresented districts; good territory and liberal terms to competent men.

THE Doherty ORGAN
 UNEQUALLED ORGAN

THAT THE Doherty Organ Has no Equal

has again been demonstrated, this time by the Society of Science, Literature and Arts of London, Eng., who on April 10th of this year, after a thorough examination made the following award.
REPORT ACCOMPANYING THE MEDAL.
 Excess of praise is hardly possible when speaking of this new and superbly beautiful design, which is intended to meet the demand for a more expensive exterior or cabinet, together with a most superb action. This organ is of most substantial and pleasing proportions, and of a style of finish suitable to any situation. In pleasing balance of proportions, practical utility of form, richness of ornamentation and delicacy of finish, this instrument will not only compare favorably with the best but surpass all organs of any make; while for strength and purity of tone, variety of expression and freedom of action, it is far in advance of anything yet produced.
SIR HENRY V. GOULD, Hon. Pres.
 Society of Science, Letters and Art, London, Eng.
REV. IRWIN COATES, M.A., Hon. Sec.
 This certainly shows that the Musical Bachelors and Doctors of Oxford and Cambridge Universities know something about an organ.

 The Musical Opinion and Music Trade Review, published in London, Eng., April 1, 1887, under the heading CANADIAN MUSICAL EXHIBITS AT THE COLONIAL EXHIBITION, has the following:
 Referring to Piano Fortes of Messrs. Heintzman & Co., Dr. Stainer says as follows: "I much regret that, owing to the late period at which I was called upon to make a report, all the more important instruments exhibited by this firm HAD BEEN SOLD AND REMOVED. But those remaining fully justified their high reputation. An Upright Grand, which I examined was in every respect a fine instrument; the touch was sympathetic and had a good repetition; the tone was full and rich. I also tried a specimen style No. 4, which was equally deserving of unqualified praise."
