

HAVE YOU READ THE WORLD?

The World is the most reliable paper for general news published in Canada. A goodly portion of its space is devoted to the daily happenings on the track, diamond, and stock market. While you are sure to find it at your club you should have it in your home. It will be sent to you at a special rate of 25 cents per month.

THE WORLD IS A DAY AHEAD AS USUAL.
The World was the only morning paper in Toronto which gave to its readers yesterday an outline of the "retaliation" scheme now under consideration by the Washington cabinet, designed to force Great Britain into a subservient attitude in the Behring Sea controversy by a course of action in the Behring Sea, Canadian interests, namely, the prohibition of transportation in bond. The World is so frequently a day in advance of its esteemed contemporaries in publication of important news that the fact requires little comment. That the World's exclusive information was correct, however, is shown by this Washington dispatch to the New York Herald:

"The Administration, I understand, is considering a plan whereby Canadian railways will be restricted in the privileges they now enjoy in selling their freight rates. The plan is not yet definitely determined, and it would be impossible to state whether it would be limited to the railways of the United States, or whether it would be extended to the Canadian railways. It is, however, a plan which would be of great importance to the Canadian railways, and it is one which the Administration is considering with great interest. It is, however, a plan which would be of great importance to the Canadian railways, and it is one which the Administration is considering with great interest."

THE RURAL POPULATION.
Canadian free traders are assured of several things, among them these:
1. The agricultural population of Ontario is diminishing.
2. The falling off is due to the high tariff.
3. If we could get commercial union with the United States the rural population would increase.
4. The fact that the census of the United States is higher than ours has nothing to do with the case, and those who say it is are nothing but blabberers.
The fact, however, is that the rural population of Ontario is declining. Excluding towns and villages the population of Erie county was in 1880 53,304. This year it is 52,085. These are the census returns. The rural population of Niagara county was 32,092 in 1880 and it falls to 30,931 in 1890.
It will be the privilege of our commercial union friends to explain how it is that the market of 60,000,000 does not cause the population of these counties to increase. It is highly probable, however, that they will not do so.

A SPENDING WILD WHEAT CROP.
The Best Ontario Has Had for Many Years.
The fall wheat crop which has just been garnered is far ahead of former years. According to the London Standard, the average bushels per acre are being threshed in Western Ontario. The increase is attributed to the soil and the selection of the varieties of seed most adapted to it. The variety known as "Harrow" is the most popular. It is a variety which has done best this season.

York's Crops Are Good.
Breastings Jackson of Newark says the crop of wheat in York county is the best he has ever seen. There is a trace of rust at a few points, but all along the harvest is a success. The prospect is bright.

Wentworth Is All Right.
Mr. F. J. Collins of Dundas was in the city yesterday. He says that nearly everything in Wentworth will be in this week. The crops are great with the exception of the hay. It is an immense crop and well harvested. The apple crop is a little better than last year.

Through Wagon Vestibule Buffet Sleeping Car Toronto to New York via Union Station.
The West Shore sleeping car, daily except Sunday, arriving in Toronto at 10.10 a.m. and leaving for New York at 10.30 a.m. The car is a vestibule car, and is a very comfortable and convenient mode of travel. It is a very comfortable and convenient mode of travel.

LOOK TO YOUR HAIRNESS.
The lesson of the tragedy near Burlington whereby Miss Macleod lost her life is to have round, strong hair and to look after it. Anyone who puts a spirit horse or team into harness that is weak in a single point is negligent and endangers life. To have the neck give way and then the reins to break, as in this case, was evidence of neglect in some quarter. Buy only good, strong hair and look after it daily. It is the right thing.

The Knights of Labor in Montreal are vigorously protesting against the proposed change in the factory law asked for by the Montreal Cotton Company, whereby they would be empowered to employ children under 12 years of age. The limit is low enough in all conscience, and the proposition is a barbarous one and subversive of the children's moral and physical welfare. The K. of L. have humbly and justly on their side in protesting against such a dangerous retrogradation.

Senator Frye said in the United States Senate that the rule of this body need amendment to curtail debate. Mr. Frye is neither sane nor reason in reading long speeches and extracts to empty seats and vacant benches. The Tariff Bill and Federal Elections Bill must be passed this session, and to accomplish this long-winded orators will have to be cut short. Something in this direction is just as necessary in Canadian Legislatures.

The complaint made by the Pennsylvania Lumber Company, that the G. T. R. were unable to supply them with sufficient cars to meet their requirements, has developed the fact that 10 to 15 per cent more freight is being carried over the railways in the northern districts as against last year's record. Yet pessimists are dolefully asserting a decline in Canadian trade.

Seven years was a long term for Judge Muir to give the man Mullins who stabbed Mr. Jarline. As well make his wife a widow at once—Hawthorne Times.

But Mullins attempted to make Mrs. Jarline a widow. And if the Times' argument is not worthless in what case of brutal criminality would it not apply?

LONG SHOTS WIN AT BRIGHTON

Welcome to Hospitality Graves.
WINDSOR, July 30.—At a meeting of the Windsor Lacrosse Club to-night the secretary was instructed to correspond with 13 leading lacrosse clubs in Eastern Ontario and Montreal with a view to arranging games for the proposed eastern tour of the "Windsor" team. The plan is to visit the various clubs and to play matches with them. The tour is expected to be a very successful one.

The Lacrosse Club's Handicap.
At Rondeau to-morrow evening the Toronto Lacrosse Club's handicap will be contested, starting at 7 1/2 o'clock. There will be a large attendance, and it is expected to be a very exciting race. The handicap is a very important one, and it is one which the public is interested in.

Wide-awake Down Town Pool Sellers.
22 Corrigon, proprietor of the West Side Racing Park, Chicago, has been making war on the down town pool rooms under the State law which forbids the selling of pool balls. He has been successful in his efforts, and he has been able to close down several of the pool rooms. He is a very determined man, and he is one which the public is interested in.

The Young Irishman's Bull.
The Orange True Blue Band and the Independent Band have been making a nuisance of themselves in the East End lately. The police have been called out to keep them from making a nuisance of themselves. The police have been successful in their efforts, and they have been able to close down several of the bands. The police are a very determined force, and they are one which the public is interested in.

An epidemic of cholera morbus has occurred at the State Camp, Pottsville, N. Y., which demands the services of army physicians to check. The disease was caused by too much leisure and eating green fruit, etc. The following is what one man said who drank who complained of not feeling well. Four green apples, a plate of ice cream, two glasses of ice cream soda, two glasses of beer.
