HOW LARGE PROFITS ARE MADE.

The Plan Presented by the Commercial Co-Operative and Investment Co.

The possibilities of making large returns out of small regular savings is being demonstrated daily. Opportunities are now offered to those who wish to increase their incomes by small steady savings that a few years ago did not exist. The Commercial Co-Operative and Investment Co. affords such an opportunity. This company's plan is, in brief, as follows: Certificates are issued in three classes. In the first class the payment of $1 a week for 40 weeks entitles the holder to $67.50 in cash or $75 in merchandise; in the second class the payment of $1 a week for 20 weeks entitles the holder to $31.50 in cash or $35 in merchandise, and in the third class the payment of 50 cents a week for 25 weeks entitles the holder to $18 in cash or $20 in merchandise.

The reader's first question will probably be, "How can they pay such large interest in so short a time?" That it can be done and is done is beyond doubt. Similar companies are in operation in the leading American cities, and for a long time past have been meeting all obligations. The feature which commends itself to all is that by which the certificate holder who pays out his certificate to the end gets a share in all those which lapse—and a large proportion always do lapse. This feature explains, to a great extent, the large returns which the company is enabled to pay. It explains, too, why insurance companies can carry $1000 of insurance for $12 and then erect palatial buildings. The lapses are the chief source of profit. The Commercial Co-Operative Investment Company do not erect large buildings, but divide a large proportion of the profits among their certificate holders.

All persons desirous of obtaining fuller information in regard to the methods of the company may get full particulars by calling at the head office, corner of Church and Adelaide-streets, or by writing for circulars. 6s

WIPED OUT OF EXISTENCE.

A Round of Fatalities Which Left Nothing of a Family Numbering Eight.

CHADRON, Neb., Nov. 27.—The death of Charles Barnett, a farmer, aged 40 years, living about four miles south of here, is the end of a chapter of fatalities which is out of the usual run. Ten weeks ago the Barnett family numbered eight people. They were Charles and his wife and five children and Miss Martha Barnett, his sister.

One after the other these have all died and to-day not a soul remains of the family. The youngest, a child, was the first to be taken. Diphtheria of a maliguant form attacked the babe and it died within two days, followed by the next child with the same disease one day later. The other children were attacked, but all recovered with the exception of the oldest, who was slow in convalescing. He took cold just when it was thought that he was getting well and died.

The next day one of the remaining children fell from the loft of the barn, and when found its neck was broken. On returning from the funeral of this child the team ran away and threw Mrs. Barnett and her sister-in-law from the wagon, killing the latter instantly and inflicting such injuries on the former that she died three days later.

Two weeks ago the remaining child was trying to light a fire in the cook stove when her clothing caught fire, and before assistance could be rendered she was so badly burned that she died from the injuries received.

A week ago Barnett was working in his stable when he received a kick from one of his horses, from the effects of which he died the next day, this death completing the round of fatalities and wiping a family out of existence, for they had no relatives that are known. The farm will revert to the State unless it can be shown that there were other members of the family.

IS IT GENUINE LEPROSY?

John Powers, a Laborer, Afflicted With a Malignant Type of It.

CLARE, Mich., Nov. 27.—John Powers, a laboring man of Sheridan township, is afflicted with a maligant type of genuine leprosy.

Powers is a most disgusting object to behold. His flesh seems to have been already invested with the putrescence of the grave, and is dropping off in great masses. A foul odor emanates from the decayed tissues so powerful that it is said to be impossible to enter the room where the unfortunate man lies without experiencing a feeling of nausea.

THEY WANT $12,000 MORE

To Expend in Search For a Conduit Route From Lake Simcoe.

The Gravitation Committee held another campaign meeting at City Hall yesterday afternoon. Any amount of talk was indulged in. Speculative calculations were the order of the day. The merits and demerits of the scheme were discussed at some length. Ultimately it was decided to send on to council the recommendation of the chairman, Ald. Hewitt, in his report that $12,000 be granted for additional surveys, for the sinking of shafts and pre-eminently for the purpose of excursions during the coming summer to some of the fashionable resorts on the shores of Lake Simcoe.

Y.W.C. Guild.

Miss Jessie Alexander, B.E., and Mrs Caldwell will give one of their popular recitals for the benefit of the Young Women's Christian Guild, in Association Hall, on the eve of Thursday, Dec. 3, at 8 o'clock. These favorite artists always draw crowded houses and it is hoped that all the friends of this good cause will endeavor to be present.

A Voice From Scotland.

DEAR SIRS,—I can highly recommend Hagyard's Pectoral Balsam. It cured my daughter of a cough she had been troubled with since childhood. She is now 12 years old. Mrs M Fairchild, Scotland, Ont.

"Happy Thought" Ranges

The kitchen range is the most important article of furniture in the house; its selection should be made with care—this for one reason. **On its good, bad or indifferent construction and working depends the loss or saving of many tons of fuel.** It is because it is known beyond all reasonable doubt that the "HAPPY THOUGHT" is the Easiest Worked and Most Economical range that much of its wonderful success is due.

There are many other reasons. If you are interested in knowing them wire us for a copy of our Pocket Stove Catalogue.
