

PAY \$20,000,000 OF LOAN IN CASH

Ottawa's Decision on Amount Due Next Month

OFFICIAL ANNOUNCEMENT

Other \$70,000,000 To Be Subject to New Financing

BY C. L. BISHOP.

Free Press Special Correspondent.

OTTAWA, Aug. 14.—When a Dominion loan of \$90,000,000 comes due next month \$20,000,000 of it will be paid off in cash, so it is officially announced at the finance department.

The maturing obligation consists of treasury bills held by the Canadian banks. The financial market is being soured out. New York is keen after the new loans, but Canadian houses are equally so. A decision will not be reached until next month.

The loan that is to come due bears interest at 4 per cent. plus one-quarter per cent. commission. In the refinancing it is expected to do as good or better.

In December \$42,000,000 comes due from the first victory loan. Ultimate plans for meeting it are also involved in the present negotiations.

RETURN OF WAR SEIZURES SOUGHT

Germans Cite Dawes Plan as Surety for Canada

NEEDY CASES ARE SPECIFIED

Canadian Custodians So Far Realize \$18,000,000

OTTAWA, Aug. 13.—Formal request for the return of German property sequestered in Canada during and subsequent to the Great War has been made to the Canadian Government by Germany, through the German consul-general at Montreal. It was learned here to-day. The question is under consideration, but it is very unlikely that any decision will be made by the Government for several months at least.

The suggestion has been made, it is understood, on behalf of Germany that in view of the status of the operations of the Dawes reparations plan and the benefits to be received through such annuities by Canada, action towards the release of sequestered German property in this country might be made. A number of specific requests have also been made, in the interests of Germans in necessitous circumstances, for the release of certain individual sequestered properties; but the policy generally of the Canadian custodian of alien enemies' properties, Hon. A. B. Copp, and Reparations Commissioner James Friel, K. C., is to refuse such requests.

A. J. COOK LOOMS LARGE IN BRITISH LABOR CIRCLES. LONDON, Aug. 13.—A. J. Cook, the radical leader of the miners' federation, is beginning to be recognized as a great power in the world of industry not only on account of the victory won in the recent coal crisis, but from the statements of David Lloyd George and The Daily Mail, that he is the man who can make labor unity possible to-day. Cook is insisting that the miners should be consulted about the terms of reference and the personnel of the royal commission that is to be appointed to investigate the situation, and he threatens to withdraw and have nothing to do with the commission unless his demands are satisfied.

SAYS ELECTION CALL INDICATED

Country Disposed To Force Change, Declares Meighen.

GIVES SPEECH AT KENORA

Charges Government With Inefficiency and Extravagance.

KENORNT, Ont., Aug. 13.—(Canadian Press Dispatch).—Right Hon. Arthur Meighen, Conservative leader, on his way to Ottawa after a lengthy stay in the mid-West, was the central figure at a Conservative rally here to-night and delivered an address censuring the Government for what he termed its "careless and extravagant way of handling the country's public domain, particularly the timber reserves."

The Conservative leader will continue east to-morrow, delivering his next address at London, Ont., on August 19. He will speak twice during the following two days, at picnics in Central Ontario and will then conclude his speaking tour as arranged to date.

When Mr. Meighen arrived here to-day he found that Conservative organizers had introduced a new slogan, "Vote For Meighen and He Will Bring Your Brothers and Sisters Home From Across the Line."

TREND OF EVENTS. In opening his address Mr. Meighen made what was considered a reference to the recent provincial elections in the East. "The trend of events," he said, "is forecast by recent political decisions, indicate conclusively that the country is anxious for a Dominion election and disposed to force a change at Ottawa."

He said that the inefficiency of the King Government was well illustrated by the careless and extravagant way in which they handled the country's public domain, notably the timber resources. These national assets were being squandered to afford employment south of the line to foreigners.

But it is utter refusal of the Government of the day to make any reasonable effort to get our farmers' exportable products overseas on an economic basis that illustrates the utter incapacity reigning at Ottawa," he declared. "I am confident that a prosperous rural community can build up when grain and cattle of the West can be shipped overseas on a reasonable basis. That means for live stock, a chilled meat trade, and the Government must give it sympathetic encouragement as it must, the grain the farmers are exporting."

The west of England had 20 more inches of rain last year than the east porton.

ARMED BANDITS IN SERIES OF HOLD-UPS

State Patrolmen and Police on Trail of Young Desperados.

WORCESTER, Mass., August 13.—Three armed bandits, who threatened to shoot their victims at the slightest hostile move, descended upon Worcester early to-day and in two hours left a trail of hold-ups and threats of violence that brought every available state patrolman and Worcester policeman into a man hunt, in which orders were to shoot without hesitation. At least 11 persons are known to have been held up and robbed by the desperados, described by all the victims as "young men in their teens." The trio secured about \$200. Their trail led from Grafton to Worcester and then to Lake Quinsigamond.

BELIEVE CAR WHICH STRUCK MAN STOLEN

BLENHEIM, Aug. 13.—Apparently the men who drove a car through Blenheim on Tuesday and knocked down and injured William Burchiel, a traveler, of Glouce, have made a clean get-away. On the evening following the accident the local police received word from the Windsor police to be on the lookout for a car that was stolen and the number given was the same as was detected by eyewitnesses of the accident here as that on the car which knocked Mr. Burchiel down and then sped away, leaving him on the pavement.

From this it would appear that the men driving the car did not own it and cannot be traced. Mr. Burchiel is still confined to bed at the home of his cousin, William Burchiel, a seed dealer here. Though he has been severely injured he is expected to make a good recovery, however.

FREE FROM FOREST FIRES

WALLACE, Idaho, Aug. 13.—After three days of tranquility, the forest fire in the Salsess district, near the Idaho-Montana border, broke control lines and to-day was sweeping through heavily timbered areas. The fire was burning on a five-mile front and the towns of East and Salsess, Mont., were again in danger. The two settlements are in the direct path of the flames and women and children are fleeing.
