THIRTY St. Thomas people have been summoned for not registering their partnerships. The penalty is a fine of \$100, half of which goes to the informant.

Don't take 'em off yet. Apart from any change in the weather that may happen along this morning, summer will not come in its official capacity until June 22, at 9:23 a. m.

THE man who bought or built his house five years ago is in luck. At the same prices and wages are rising the man who buys or builds to-day may be able to congratulate himself five years hence.

A LIVE snake, 7 inches long and fully two inches in diameter, was extracted from a Port Huron woman's stomach a few days ago. The woman had been doctoring for years and her case was a mystery to the physicians. She feels better now.

FORTY-NINE freight trains, by actual count, passed through the G. T. R. yards one Sunday recently. It is said that 37 freighters, on an average pass through here every day. When the passenger service is taken into consideration the number in each are considerably larger.

CHEER up, it might be worse! In the year 1816 there wasn't any summer season or summer weather in this latitude. Monday's snow storm was very likely winter's last kick. It was a strenuous one, wasn't it? The snow provided a blanket covering the tender grain just up, against the frost of that night.

THE kindly old lady from the country had purchased a pair of gloves in a department store. "Cash!" shouted the saleslady. "My land," exclaimed the old lady fumbling in her valise, "I'll give it to you just as soon as I find my pocket-book."

"THOUSANDS of city people are now counting the hours when they can leave for some lake or river for an outing, where they can fight mosquitoes and bugs for a few days, and perhaps get drowned. It is a great thing, but many of our ancestors lived and died not knowing what a vacation or an outing meant."

THE Congregational Union will meet this week at Hamilton. On June 5, for the fifty-fourth time, the Congregationalists of Ontario and Quebec—now the Union of Canada—will convene to discuss denominational interests. It is the seventh time that Hamilton has entertained, and the brethren will note the great improvements and marked progress since last they gathered, on June 5, 1895, in the Ambitious City.

AN old trapper and hunter from north of Peterboro county, who has successfully predicted the weather of former years, said that according to the action and appearance of several animals, he could tell that the weather will remain exactly as it has been during the past month until the first of July, when it will become very warm, and will continue so until far into the fall, allowing the farmers plenty of time for a good crop.

ANYONE who does not want to receive a publication will have no trouble in discontinuing it, if you notify the publisher that you don't want the paper any longer—provided you owe nothing. Don't continue taking the paper until you are pressed for payment and then "swell up" and say you "never subscribed for it." No publisher wants to force anyone to take his paper if he does not want it: at the same time he expects those who take his paper to pay for it just the same as they pay any other debt.

THE Leamington Post had the following item last week: "It is said that when a woman tries to throw a stone at any object, every man within sight dodges. She cannot even hit the broad side of a barn, but when she attempts to shoot a dog with a revolver, she ought at least know some thing about firearms. On Monday evening a woman living in the east ward attempted to shoot a dog, but the bullet took effect on another woman, striking her in the fleshy part of the leg below the knee. Neighbors say it was very exciting for a few minutes. The wounded party is doing well."

IF there is one thing above an other a young man should be ashamed of doing, is loafing without aim, purpose or profit, on the streets of this town, day after day all week. If you have nothing to do, stay at home—a part of the time at any rate. No young man with any self respect will content himself with aspirins to no higher reputation than that of a chronic loafer and store box magnate. Nothing will so blunt the higher faculties of the mind as inactivity; and no inactivity is so baneful and malevolent in its efforts as that of voluntary idleness and loafing.

ONE of the evils to which the public of this community is addicted is that of going late to public meetings. Persons go late to gatherings repeatedly when they cannot help knowing that in doing so they annoy and disturb scores of others. Friday night a large number of persons came into the Opera House after the performance there had started and the whole of the first act was marred by a continual disturbance. It is a regrettable fact that performances cannot be started in this town at the hour announced without being sure to be disturbed by the arrival of late comers. Better go to public gatherings on time after this and allow yourself and others to get full value for their admission fee.—Journal.

Loses Her Feet.

Mrs. Margaret Kelley, a marine cook, lost both her feet through amputation at Port Huron yesterday. Miss Kelley was the wife of the Lilly Smith, a small craft, which was wrecked in Georgian Bay last Friday. When the boat struck a rock a tank of boiling water was thrown over the woman. With scalded feet and legs she lay for several hours in the small boat in which the crew made their escape. She was brought here and the operation of removing her feet performed.

Ways to Hurt Your Town.

Fight on the streets.
Oppose improvements.
Mistrust public men.
Run the town down to strangers.
Go to some other town to trade.
Refuse to advertise in your paper.
Do not invest a cent; lay out your money somewhere else.
Be particular to discredit the motives of public spirited men.

Lengthen your face when a stranger speaks of locating in your town.
If a man wants to buy your property ask him two prices for it.
If he wants other property interfere and discourage him.

Refuse to see the merit in any scheme that does not exactly benefit you.
Run down your newspaper.
Run down your officers.
Run down everything and everybody but Number One.

Englishman Was Working for a Farmer at \$1 a Week.

A case came under the notice of the Sarnia local police which seems to show a disposition to take advantage of the newly-arrived Englishmen. A letter was received from England asking the Sarnia police to look up a certain laborer who was neglecting to send money home to his wife and child. An inquiry revealed the fact that the man was working for a farmer at the shameful wages of one dollar a week and he was apparently not aware that his services were worth more money. A job was immediately secured for him in town, and he is now sending home enough to keep his family in comfort.

Chinese Bill of Fare.

"A good many Americans are often puzzled over a bill of fare printed in French, but for genuine mystery the bill of the average Race-street Chinese restaurant has Monsieur le Chef beaten forty ways," declared one who has tried both, says The Philadelphia Record. If you have a spare dollar in your jeans you can dine on 'chow gai ding,' which in United States means fried chicken, ham, waternuts and bamboo shoots. For 75 cents you may order 'hor gai pen,' a concoction of chicken and pineapple. Twenty-five cents will pay for 'choong taw chee yok,' i. e., young pork and onions. Flush persons sometimes try 'goi ap pa,' which is steamed white flavored with the juice of orange peels. This costs \$2.50. Another expensive dish is 'him vuen chee,' a mixture of ham, chicken, mushrooms and shark's fins, for which \$3 is charged. The ordinary patron of the Chinese restaurant, however, confines himself to chop suey or yakamain which costs him 25 and 15 cents. No one knows just what chop suey may be, but yakamain is nothing but noodles and chicken flavored with licorice."

Wallaceburg Man Injured.

Wallaceburg, May 28.—While S. L. Mann, liveryman, of this place, was leading a bull about his farm on the outskirts of this town, the ring attached to its nose became unloosened, and without warning the bull attacked its owner and would have killed him had it not been for the timely assistance rendered by John Hall, who lives just over the creek. Hall was also thrown some distance by the animal attacking him in a similar way that Mr. Mann had been.

The owner's dog saved Mr. Hall's life by grabbing the animal's hind leg and drawing its attention to the dog. Mr. Mann is severely injured, but the attending physician, Dr. Hird, stated that Mr. Mann will recover from the shock, but will be laid up for some time. Mr. Hall escaped without any serious injury and gave the dog credit for saving both their lives. Immediate steps will be taken to have the animal destroyed, thus preventing any further accidents.

Recipe for Good Manners.

Of Unselfishness, three drams.
Of the Tincture of Good Cheer, one ounce.
Of the Essence of Heart's Ease, three drams.
Of the extract of the Rose of Sharon, four ounces.
Of the Oil of Charity, three drams and no scruples.
Of the Infusion of Common Sense and Tact, one ounce.
Of the Spirit of Love, two ounces.
The mixture, recommends Sofia A. Oliver, in the Gentlewoman, to be taken whenever there is the slightest symptoms of selfishness, exclusiveness, meanness, or I-am-better-than-youness.

Immigrants Should Leave Cities.

Dunnville Gazette:—So many of the newly-arrived immigrants have made Toronto their objective point that hundreds of them are walking the streets in search of suitable employment, and unable to find it. They will not go on the farms, where there is a real need for them, and not one in fifty is competent to fill situations that are vacant, but where some special training or skill is required. Thus we have the curious spectacle of large numbers of idle men clamoring for work at the same time that employers are short of hands, and neither in a position to supply the needs of the other. The trouble with too many of the immigrants is that they are the square pegs which do not fit readily into round holes.

Branson, the Petrolia ticket agent, reports booking this week Mrs. Edwin Fletcher, Miss Edith Fletcher, Mr. and Mrs. Edie, and Mr. and Mrs. Bain, they leave New York on the 31st on the large steamer "Celtic" on the White Star Line to London. After visiting several large cities etc., they return via Liverpool and take the steamer "Canada" for Montreal via the St. Lawrence.

The New York and Western Consolidated Oil Company have had their agent, Mr. A. Samson, busy in the neighborhood of Glenora for the past week or two leasing land for oil speculation. It is the intention of the company to commence drilling at once, providing they can lease sufficient land to suit their requirements. Mr. Samson has secured quite a large territory already, and yesterday spoke very hopeful of the outlook.

A CAREFULLY PREPARED PILL.—Much time and attention were expended in the experimenting with the ingredients that enter into the composition of Parmelee's Vegetable Pills before they were brought to the state in which they were first offered to the public. Whatever other pills may be, Parmelee's Vegetable Pills are the result of much expert study, and all persons suffering from dyspepsia or disordered liver and kidneys may confidently accept them as being what they are represented to be.

O. B. Trask, of the Gattis House, Bedford, was summoned to appear before the Township, magistrate, on Friday on a charge of selling liquor to Wm. Willis, who was on the prohibited list. Trask failed to put in an appearance, but the case was proceeded with, and the defendant was fined \$50, which if Trask fails to pay, will be collected from his bondsmen. Inspector McCallum had also laid a charge against Willis for frequenting and loitering around the hotel, but withdrew the charge.

Quite a number of wholesale dealers were in Glenora last week to attend the sale advertised by the Merchants Bank of the stock seized by the bank of the Glenora Woollens Company. Before the hour appointed, however, a liquidator had been appointed for the concern and in consequence the sale could not take place. Mr. Langley, of Toronto, was appointed liquidator on application of the creditors, other than the bank and with the consent of the Woollens Company. Mr. Langley is now in possession and will proceed at once to adjust the affairs of the company. It looks as if the bank will have to take its chances with the rest of the creditors for a settlement of its claim.

Small Blaze in Adelaide.

Dr. Eckel, the young physician, who just recently located at Adelaide village suffered a small loss by fire on Wednesday of last week.

The blaze caught in a partition of his residence on Front St., and was fast eating into the roof.

Headed by Jas. Payne, captain of the Strathroy Fire Company, who happened to be near the scene, 15 pail splashes were busily at work a few minutes after the fire was discovered.

The bucket brigade completed their labors in 20 minutes and returned to the village hotel where roll was called.

The damage which might have been much more serious, amounted to about \$300.
