### The Price of Milk.

The following article, which is taken from the Wyoming Enterprise, applies with equal force to other places, and will be read with interest by a large number who have come to the conclusion that the boosting of prices has been carried too far:

Our milkman has raised the price of milk from 5c to 6c per quart. We protest against this action not because we are unwilling to pay the just and honest price of a commodity, but because of the injustice of the raise in the price. At any time milk is a dear commodity at 5c per quart. It pays the farmer better to sell milk at 5c per quart than it would pay him to sell the butter made from the same quantity of milk at 40 cents a pound. A cow that will produce one pound of butter per day is considered a paying animal. To do this she will produce four gallons of milk or sixteen quarts. Sixteen quarts of milk at 5c per quart is worth 80c. Allowing the milk man one half for the loss of buttermilk and for the wear and tear of rigs in delivery, (which is allowing him a large dividend for those things) our contention is still correct that he is better paid at 5c per quart for milk than other farmers are at the highest prices ever paid in Ontario for butter. A close estimate of the question would probably show that the milkman gets for his milk the equivalent of 50c per pound for butter.

It is true that in the cities the price of milk has gone up, but it must be remembered that there the milk has to be brought in by express from ten to fifty miles and after that it is put through the sterilizing process which involves an annual outlay of tens of thousands of dollars. The cases are not at all parallel. Six cents a quart for milk in Wyoming is an extortionate price, and is only the result of having no competition. If a few of the farmers in the surrounding country who have cows for the winter will put their milk into one can and bring it into the village they will have no difficulty in getting patronage and pledges for a year, and at 5c per quart they will make as good as forty to fifty cents per pound for milk. Here is a proposition for farmers worth their careful consideration, as we know of other villages not any larger than Wyoming where two milkmen have made a good thing out of the business and both sold at 5c per quart and even gave twenty one quarts for a dollar when paid in advance.

A Citizen of Wyoming.

### Deafness Cannot Be Cured

by local applications, as they cannot reach the diseased portions of the ear. There is only one way to cure deafness and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of deafness caused by catarrh that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

F. J. CHENEY & CO., Toledo, O.  
Sold by druggists, 75c.

Take Hall's Family Pills for constipation.

### Cheap Turkey for Christmas.

Everybody who cares to can enjoy turkey for Christmas dinner. In the first place the farmers do not want to keep anything this winter that will eat feed, and in the second place, there is a surplus of the big fowl in the country. As a consequence turkeys are much lower now than they were last year at this time. Saturday the market was flooded with turkeys of all kinds and sizes, and the farmers were very anxious to dispose of them. Of course, they may become a trifle scarcer along about the holiday time, but this is doubtful.

Last year there were many people who could afford this luscious dish, but this time it will be different. Saturday the price of a fine turkey was from 12 to 13 cents a pound. Last year at this time they were selling at an advance of two cents a pound over that price, which is about the same as beef.

Everything in the poultry line is cheaper this year, but eggs continue brisk at good prices.

The continued fine weather has much to do with the surplus of turkeys, for as long as the weather is good the farmers will not bother to pull roots, but will continue to bring in their produce.

The poorer classes are not bothering much as to the reason. The result is what they are looking at and they are thankful that prices are down.

### CRESOLENE ANTISEPTIC TABLETS

A simple and effective remedy for  
**SORE THROATS AND COUGHS**

They combine the germicidal value of Cresolene with the soothing properties of slippery elm and licorice. Your druggist or from us, 10c in stamps. LAKESIDE, MINN. CO., Limited, Agents, Montreal, 40c

### BY-LAW NO. 13, 1907, OF TOWNSHIP OF WARWICK.

A By-law to provide for drainage work in the Township of Warwick, in the County of Lambton, and for borrowing on the credit of the municipality the sum of \$252.30 for completing the same. Provisionally adopted the 11th day of Nov. 1907.

Whereas Thomas Brush, a party to be benefited by the drainage work has petitioned the Council of the said Township of Warwick to have the Six Side Road Drain extended to a proper outlet.

And whereas thereupon the said Council has procured an examination (under Section 76 of the Municipal Drainage Act), to be made by C. A. Jones, being a person competent for such purpose, of the said area proposed to be drained and the means suggested for the drainage thereof and of other lands and roads liable to assessment under the Municipal Drainage Act, and has also procured plans, specifications and estimates of the drainage work to be made by the said C. A. Jones, and an assessment to be made by him of the lands and roads to be benefited by such drainage work, and of other lands and roads liable for contribution thereto, stating as nearly as he can the proportion of benefit, outlet liability, and injuring liability which in his opinion will be derived or incurred in consequence of such drainage work by every road and lot or portion of lot, the said assessment so made being the assessment hereinafter by this by-law enacted to be assessed and levied upon the roads and lots or parts of lots hereinafter in that behalf specially set forth and described, and the report of the said C. A. Jones in respect thereof to be the said drainage work being as follows:

Petition, Sept. 24th, 1907.  
To the Municipal Council, Township of Warwick.  
GENTLEMEN—In accordance with instructions received from your Honorable Body I have made a survey for the extension of the 67 sidewalk drain, con. 1, S.E.R. of your Township, to a more efficient outlet.

The present termination of work on this drain is on the 67 sidewalk, con. 1, S.E.R., about 24 rods east of the 67 sidewalk and a now proposed to extend it across lot 7, crossing the Blind Line, between cons. 1 and 2, 16 rods west of the line between lots 7 and 8, then continuing easterly along the southern side of said Blind Line 33 rods, then southeasterly about 2 1/2 rods where it empties into a drain of considerable size on lot 8, con. 2, S.E.R., all as shown more particularly by red line on the accompanying plan of the locality.

I am starting the upper end of the proposed work at the 67 sidewalk of Sept. 1904, as the lower portion of the previous work has filled up on lots 7 and 8, then continuing easterly along the 67 sidewalk, con. 1, S.E.R., about 24 rods east of the 67 sidewalk, then crossing the Blind Line, between cons. 1 and 2, 16 rods west of the line between lots 7 and 8, then continuing easterly along the southern side of said Blind Line 33 rods, then southeasterly about 2 1/2 rods where it empties into a drain of considerable size on lot 8, con. 2, S.E.R., all as shown more particularly by red line on the accompanying plan of the locality.

The average depth across lot 7 will be about 2 ft. and along the Blind Line about 2 ft. 8 in.

I have prepared a plan and profile of the work, specification, estimate of cost and schedule of assessment, all of which I herewith submit.

**ESTIMATE OF COST.**

Excavating at 6c to 8c, 80 rods at 90c per rod, \$72 00

Total amount lands and roads					\$252 30			

4th. For paying the sum of \$9.80 the amount assessed against the said roads of the Municipality and for covering interest thereon for 2 years at the rate of 4 per centum per annum, a special rate on the dollar, sufficient to produce the required yearly amount therefor shall over and above all other rates be levied and collected, (in the same manner and at the same time as other taxes are levied and collected) upon and from the whole rateable property in the said Township of Warwick, in each year for two years, after the final passing of this by-law, during which the said debentures have to run.

5th. This by-law shall be published once in every week for four consecutive weeks in the GRIFFIN-ADVOCATE newspaper, published in the Village of Watford, and shall come into force upon and after the final passing thereof and may be cited as the Six Side Road Drain Outlet By-law.

Reeve Clerk

### Sixty-Nine Years Young.

A wonderful veteran is Edward Payton Weston, who has just finished his walk from Portland, Me., to Chicago. At 69 years of age he has broken the world's pedestrian record, which he established 40 years ago. His promenade of 1,230 miles began on Oct. 29, and has been accomplished in 26 regular days, for he never walks on Sunday. Weston is a rebuke to a spindle-shanked generation of city dwellers, addicted to the street car habit. They might inquire with profit why this man is capable of greater feats of endurance at 69 than at 29. Six of his rules for physical fitness are: Eat prunes every day; take a cold-water sponge every morning; take a salt water bath once a week; walk to and from work; don't smoke cigarettes; don't keep late hours. His prescription as to prunes will give some comfort to those who live in boarding-houses. All his rules are simple, and may be easily carried out. Walking in the fresh air is the best form of exercise, but there is too much truth in Emerson's saying, "The modern man has built himself a carriage, but has lost the use of his legs." Weston, 69 years young puts to shame a multitude of men one-third his age, and carries hope to others who may be depressed by the chloroform theory. The care of the body is a sacred duty, for it is the instrument by which the soul must do its work.—Advertiser.

### Ontario's Fruit Was Badly Packed.

London, Nov. 23.—British Columbia captured the gold medal at the Royal Horticultural Society's Show, which opened to-day. Nova Scotia got a silver gilt knight and the Ontario Government a silver knight. The officials in the agent-general's office for Nova Scotia were very much disappointed at failing to get the gold medal.

The Ontario exhibit arrived only to-day, in very bad condition. The fruit was badly packed and much bruised, and in the opinion of many, Ontario should not have exhibited fruit in such condition.
