

The Weekly Monitor.

WEDNESDAY, MARCH 29th, 1882.

The Mutual Benefit Life Insurance Company. Mr. E. J. H. Moore appears this week in a lengthy article in answer to our leader of the 15th inst., which was written with a view to warn our readers generally against a company that according to the authorities mentioned is altogether unreliable. We do not propose this week at all events, to enter into any detailed arguments to defend those statements, as in fact we do not consider it necessary, but one or two points we will make that perhaps Mr. Moore will not find it very easy to answer.

First.—Have the M. B. L., a legal right to transact business in this Dominion? If so, how much money have they deposited with the government, to secure members in the event of the Company failing? If they have no money there as we believe they have not, how are members to obtain legal redress in the event of the above contingency?

Second.—Who is the best authority as to the assets of the Company, the Connecticut Insurance Commissioners or Mr. E. J. H. Moore.

Third.—Where is this "Security Deposit" if the Company has no legal right to transact business?

Fourth.—Why is it that co-operative societies are continually failing?

Fifth.—Is the Monetary Times the leading financial paper of this Dominion? A "pampered advocate" of "Old Line" insurance companies? We hardly think Mr. Moore will make the same blind assertion in regard to this paper as he does against the "Weekly Underwriter." Here is what the Times says in an article on co-operative insurance in general:

"The plain matter of fact is that nothing of a reliable and enduring character in life insurance can be had on any plan at the age of 40, for anything less than from \$20 to \$30 per \$1000. Those who are guilty of making people believe that \$1000 can be had continuously from their associations "3 per annum, payable in monthly instalments," are pursuing a course very likely to end within very short space of time, so soon as their victims get their eyes open to the enormity of the swindle. At \$6 per year, every man of 1000 members would have to live an average of 107 years, after joining, to provide the \$1000, and if half of them should die in half that time, the other half would have to live and contribute 167 years longer to provide \$1000 at the death of each."

Probably Mr. Moore's ignorance in regard to newspaper management, will excuse what would otherwise be a deliberate insult to us where he judges the article to be written by an insurance shark. A person of ordinary discernment will see the article in question advocated no special insurance company, but simply advised persons contemplating insurance to patronize fixed institutions, and not those that were receiving the condemnation of the press.

Now, to conclude, we have done our duty and warned the people. If they choose to take their chances of co-operative societies proving permanent institutions, that is their affair, not ours.

Moncton, N. B., is excited over a stabbing affair, which implicates two young men of respectable position. Their names are Sydney A. Halls and Stanley Moore. The stabbing was done by the latter upon the former, and was the outcome of a quarrel between the two, caused by, so Halls alleges, Moore making some insulting remark in regard to Halls' sister. Halls struck Moore in the mouth with the back of his hand; upon which Moore drew a common office knife and stabbed Halls in the throat and hand, making a slight wound in the throat, but cutting the hand painfully and leaving the knife blade in the wound. Moore was arrested, and a partial examination was held; but the prisoner being released on bail with two sureties in \$100 each, "skipped," leaving his bondsmen in no difficulty, however, as the mortal wound has been discovered. Halls and Moore were both employed in the Treasurer's office on the I. C. Railway.

An item in one of our exchanges says under date of March 19th, that carpenters in Winnipeg and Brandon were going to strike for \$7 a day on the 1st of April. We believe this to be false, for we saw a letter from a house-jointer who recently went from this County to Winnipeg, and he states the rate of wages per diem, for carpenters, to be \$2.75, and that he was going to work on those terms. To jump from \$2.75 to \$7 looks somewhat unreasonable.

Last week's despatches contain the announcement of the death of the talented poet, William Wadsworth Longfellow. Although his bodily presence will never more be seen, his fame will live in his written words which will go down through the centuries to attest his wonderful genius, and cause his memory to be reverently cherished.

Stock is being subscribed for the establishment of steel works in New Glasgow. The capital stock is to be \$150,000—three-fourths paid up. The citizens of New Glasgow and vicinity have taken nearly one hundred thousand dollars worth of stock. The remainder is expected to be taken up about the Province.

In Lawrence, Mass., owing to the lock-out and strike, 160,000 spindles, 4500 looms and other machinery have been stopped, and 5300 employees are out of work. Of these about 2000 are strikers, the remainder being locked out owing to the stoppage in other departments, and slow markets.

A theatre in St. Petersburg was totally consumed by fire recently. Eight hundred persons were in the building, when the fire broke out, but through the energy of the police commissioners who told the people to "clear one stall at a time," no lives were lost.

Sir John A. Macdonald has been offered, and has accepted a nomination for Lennox.

Revised meetings are taking place in Granville.

The express train on Wednesday last was crowded with passengers, evidently bound for the States.

Norman H. Phinney, of Lawrence town, is gazetted a Justice of the Peace.

According to the Journal more apples are offered for the Copia next trip than she can carry.

J. F. Ellis & Sons, Boston, telegraph their agent H. H. Bath, to pay twelve cents only for Eggs this week—market still declining.

BAPTIST.—At Middleton the Rev. Mr. Robbins, Baptist, administered the ordinance to seven candidates on Sabbath last.

NETAUX.—The tea-meeting and fancy sale held at Netaux on the 23rd inst., resulted very satisfactorily. Something over forty dollars were realized.

"Go West, young man," but before you go, go to J. W. Beckwith's and buy a trunk and hand-kerchief that will carry your belongings safe to your destination.

PHINNEY COVE.—In Mr. John Crimmon's family, who were reported sick with diphtheria, one case proved fatal; the rest of the family are recovering.

Mr. John Allen's family have taken the disease and are very ill.

Mr. Frank Vidito, son of A. Vidito, Esq., has been out trout fishing, and thinks he is entitled to the belt for this season at least. He brought in three that weighed together 5 1/2 lbs. They were taken from the Nine Mile Lake.

At a public meeting held at Annapolis Court House, on the 20th inst., it was resolved to take steps to secure from the Imperial Government the Old Garrison Grounds at that town, and a committee was appointed to carry out the object of the meeting.

We have received a monument of enterprise and skill in the shape of "Hubbard's Newspaper and Bank Directory of the World," which we intend to notice at considerable length in a future issue. The work is stupendous and deserves the very fullest and ablest recognition of the press.

Good reports are coming from the apples. Those stored in Messrs. Runciman, Randolph & Co.'s large cellar, are said to be turning out in superior condition, particularly the Nonpareils. Big prices are looked for. Should the Copia's cargo average \$4 per barrel case, it will bring \$32,000 into this and Kings County.

SPORTING NEWS.—Mr. Robt. Bustin of St. John, has purchased a fine mare, from A. B. Woodbury, of Wilmet, and "Alec" the Aylesford horse, which belonged to Mr. George Walker. Mr. Bustin took both of his purchases to St. John, on Saturday last.

During Saturday morning "Bridgetown Charlie" and "Alec" had a brush on the ice of the river, with no result worth mentioning, however.

We received a call on Monday from Mr. F. H. Mitchell, who has lately returned from a visit to England. He says that vegetation is unusually forward in the old country, and that his left leg, on his return on the 8th inst., and at that time violets, snowdrops, crocuses and wallflowers were in full bloom in the open air. In the south of England peas are in blossom. During his stay in London on several days, the thermometer ranged as high as seventy degrees at noon. The average temperature now is about fifty-five degrees. This is quite a contrast to our weather during this month.

He reports the market excellent for round ribs.

OBITUARY.—In our last issue we noticed the illness of Eugene P. Troop, Esq., of Granville. Although he was then very ill, hopes were entertained of his ultimate recovery; but we regret to say that they proved fallacious. On Friday the disease rapidly grew worse, and by eight o'clock on the following morning he was speechless and remained so until his death at about half past one o'clock on Sunday. Mr. Troop was an honest, upright man and took great interest in agricultural progress, and in religious movements. He was in the prime of his health and vigor, and being so suddenly stricken down, his death was a shock to the community in which he lived, where he will be much missed. He leaves a wife and several children to mourn their loss.

A man named John W. Bennett was arrested recently in Fredericton for bigamy and has been sentenced to three years in the penitentiary. Bennett is stated to be a son of Sergt. Bennett of the 63rd Rifles, Halifax, and went to St. John in the early part of 1880, and obtained employment in Messrs. C. Burnham & Co.'s factory. He is described as a happy-go-lucky sort of a fellow, and his credit got bad at his lodging house. Afterwards he moved to Carleton, and then married his first wife, a Miss Jones. On the occasion of his wedding, he took too much fire-water and became ill. He was moved to Carleton, and then married his second wife, a Miss Meade. After the lapse of some time, during which the first wife went to ruin, the authorities arrested the bigamist with the result above mentioned.

FEES OF DOCTORS.—The fee of doctors is an item that very many persons are interested in just at present. We believe the schedule for visits is \$2.00, which would tax a man confined to his bed for a year, and in need of a daily visit, over \$1,000 a year for medical attendance alone! And one single bottle of Hop Bitters taken in time would save the \$1,000 and all the year's sickness.—Ed.

Mr. Nash, editor and proprietor of the "Lawrence Express," has sold the plant, goodwill, etc., of the paper to the "Lawrence Progress Publishing Company," by whom it is now printed.

Mrs. Dehann, of North Sydney, presented the partner of her joys and sorrows with triplets on the 21st inst. One of them has since died; the others, with the mother, are doing well.

The District Exhibition.

From the Journal.] A meeting of the delegates from the Agricultural Societies of Annapolis County, in the matter of the forthcoming exhibition, was held in the Court House in Annapolis on the 20th inst. Col. Starratt was appointed chairman, and J. Hoyt, secretary.

The chairman explained various matters in connection with the District Exhibition to be held this autumn, after which a discussion took place in regard to the prize list to be submitted to the Central Board of Agriculture. The chairman explained that the government grant would be \$444, and a prize list of at least double the amount would be required to recover the grant. The great difficulty appeared to be the manner in which the necessary amount could be raised.

Mr. J. B. Mills stated that he would be one of ten or fifteen to guarantee a good prize list. Mr. J. W. Owen also stated that he would be one of ten or fifteen to do the same. Mr. T. S. Whitman proposed to form a syndicate, as it were, and divide the profit or loss pro rata. Mr. Vidito thought that if the Annapolis Agricultural Society took hold of the matter the other societies would give substantial assistance. Mr. Delaney Harris suggested that twelve or fifteen hundred dollars be the amount of a prize list, and that the different societies give their government grant in its support thereof.

After considerable discussion Mr. Owen suggested the meeting adjourn until the next meeting of the Agricultural Society would give. Mr. J. W. Harris thought that the Clements Society would like to take up with Mr. T. S. Whitman's suggestion. It was also suggested that the Annapolis Agricultural Society ought to have named an amount of prize list at the time of the resolution for holding the exhibition at that place. After further remarks from several of the delegates, Hon. Mr. Whitman moved an adjournment till 7.30 p. m., which was passed.

At 7.30 p. m., Col. Starratt resumed the chair. The Hon. Mr. Whitman said that he was not prepared to guarantee a very large amount from the Annapolis Agricultural Society for the purpose of a prize list without consulting its members, and that the Act did not require that society to do so and he thought that some person in the town might be able to do something in the matter. Mr. Mills thought Annapolis had not had a fair chance, as it had not been canvassed. Mr. Owen suggested the meeting adjourn for a week to enable the Annapolis Agricultural Society to have a meeting, and also for the other societies to see what amount each would contribute to be repaid. Mr. Vidito thought the exhibition could be made to pay its way, and that the contributions from the different societies would not leave the Annapolis Agricultural Society in debt. Mr. Shearer thought that had the matter been thoroughly agitated a considerable amount could have been raised. The chairman said that the provincial grant would not have been paid unless the exhibition was held.

Hon. Mr. Whitman remarked that the people of Annapolis town should contribute largely to the prize list, as they would be very much benefited by the exhibition. Mr. Bennett thought the Annapolis Society would have the work to do and reap the least benefit. Mr. Chitche said that what money would respond favorably. Mr. Shannon agreed, and volunteered to solicit subscriptions. Mr. T. S. Whitman said that the public was the man to raise the money, and that it would be improper to adjourn the meeting without coming to a definite understanding in the matter. An adjournment to him meant no exhibition.

The Hon. Mr. Whitman said that he would go so far as to pledge the Annapolis Agricultural Society for \$1,000 including the government grant, subject to the approval of the society, and Mr. Shannon said he would, together with the inhabitants of Annapolis, back him up.

It was moved by Mr. J. M. Harris, that the delegates of the different societies be a part of the General Committee of Management. Passed.

Moved, seconded and passed—that the presidents and secretaries of the Kings County Agricultural Societies be members ex-officio of the General Committee.

Moved, seconded and passed—that A. Shearer be Treasurer, and that Mr. Hoyt be Assistant Secretary.

The following are the names of members of the General Committee: A. Shearer, Treasurer; Hon. Geo. Whitman and Delaney Harris, Annapolis Agricultural Society; Alfred Vidito and David Bath, Bridgetown; W. M. Forsyth and B. R. Balmou, Paradise; B. H. Parker and J. M. Harris, Kings County; John Roush and John F. Reagh, Laurie; Clarence; F. M. Chipman, Middleton; J. A. Bancroft, Round Hill; E. G. Dodge, Spring; Leonard Elliot, Lawrence town; T. S. Whitman, Annapolis; W. B. Troop, Granville; J. M. Gilliat, Granville.

The following are the names of the Executive Committee to make up prize list: James Horsfall, Chairman; F. M. Chipman, Delaney Harris, Hon. G. Whitman, J. A. Bancroft, Alfred Vidito, E. G. Dodge, Leonard Elliot, W. M. Forsyth, T. S. Whitman, W. B. Troop, J. M. Gilliat.

It was moved, seconded and passed that five members form a quorum.

Moved by Mr. Owen and seconded by Mr. Shearer, that the exhibition be open to the public.

Moved by Mr. Owen, that all committee meetings be held at Annapolis, and that thanks are due to Mr. T. S. Whitman, who kindly offered a room in his building for the purpose of holding committee meetings. The meeting then closed.

Washington Letter.

SCANDALS—PETTY LARCENY BY ARMY OFFICERS.—CARDUING AT A FURNACE.—THE END OF OFFICIAL MOURNING.—CABINET CHANGES.

(From our Regular Correspondent.) WASHINGTON, D. C., March 21st, 1882.

A most disgraceful scandal has been brought to light by General Sturges, commandant of the Soldier's Home near this city. The home consists of a number of buildings, in a beautiful park, and it is designed for disabled and supernumerated soldiers of the regular army. It is paid for and maintained from a fund which has been deducted from the small pay of the soldiers. The scandal consists in the fact that some high army officers have been supplying their tables from the garden and dairy of the Soldier's Home, and that the culpable—if they had taken from the premises of a citizen farmer.

The publication of the so called "cooking scandal," growing out of the scandalous manner in which the congressional committee that accompanied the remains of Garfield to Cleveland, making a most important report than a funeral, has brought the matter before the committee who have been auditing the bills of the Garfield obsequies. The committee will present two reports. The majority report will recommend the payment of the entire amount, cooking, table, and other expenses, as cannot fail to elicit exciting and angry debate. The Senate committee that accompanied the funeral train are out of the scandal. Mr. Bright, their sergeant-at-arms, refused to yield to the suggestions of the late Senator, and with wives, brandies and cigars, and gave his charges the barest necessities in the way of refreshments. He refused to yield to the suggestions of the late Senator at the time, but they are exceedingly thankful of late that in their case conventional customs are not to be observed. It is well understood that Mr. Thompson, who superintended the arrangements for the funeral, acted upon explicit instructions from influential quarters. But Mr. Thompson himself is not distinguished for his honesty and integrity. It is difficult to induce him to supply the luxuries that now reel in the bills.

To-day the six months of official mourning for the late president expires, and certain formal observances that have been kept in army, navy and official circles, will be discontinued. The President will no longer wear mourning paper, and it is expected that with the conclusion of Lent there will be a short but brilliant season of gayety before congress adjourns.

There are rumors of Cabinet changes, and are apparently well founded reports. The resignation of William E. Chandler will be sent in this week as the successor of Secretary Hunt to the naval portfolio. Mr. Hunt has been quite ill for several days, and it is said that Chandler's name is only withheld on account of his illness. It is very doubtful if Mr. Chandler's resignation will be accepted by the Senate. The Democrats will vote against his resignation and probably a number of Republicans will vote with them.

Harper's Magazine for April is a strikingly beautiful and interesting number. It contains two full-page illustrations printed separately on heavy paper—one, which is placed in a frontispiece in the number, from a drawing by C. S. Reinhart, illustrating Mr. Lathrop's "Spanish Vistas," the other, a fine portrait of Mr. Gladstone.

The number opens with the first of a series of papers entitled "Spanish Vistas," by George P. Lathrop, with 16 beautiful illustrations by Reinhart.

Mr. H. W. Lucy's paper, "Mr. Gladstone at Hawarden," with an illustration of the portrait of Mr. Gladstone, is a familiar sketch of the English Premier and his surroundings, and will be read with eager interest on both sides of the Atlantic.

In "Silver San Juan," Ernest Ingersoll describes an interesting corner of Colorado, and one of the richest mineral fields in that State. The article is illustrated by twelve superb drawings by Thomas Moran.

"In Days Gone By," "Athena Parthenon," "What we owe to the Trees," "The History of Wood-Engraving," "A Ball Balance of Decoration," are the headings of a few of the remaining articles. Choice poetry, pleasing articles and short stories, able leading articles; and witty anecdotes as usual, are interspersed throughout its pages. Messrs. Buckley and Allen, booksellers, of Halifax, are the agents for this instructive magazine.

TELEGRAPH NOTES OF THE WEEK. Bridgeport, Conn., March 25.—Capt. Whitaker, in the schooner William Mayo, arrived here yesterday. Of Greenough, a short distance ahead of him, bound East, suddenly came and ran down head first, but could find no trace of those on board. The cause could not be ascertained.

Dorham, Mass., March 25.—John Sullivan, aged 39, a spinner in the woolen mills at Hyde Park, had a quarrel with his cat last night, which resulted in his cutting her throat with a razor, killing her almost instantly. He was arrested, and committed for trial next Saturday. Jealousy was supposed to be the motive for the crime.

Richmond, Va., March 25.—A most disastrous conflagration occurred here to-day, destroying many tobacco warehouses, tenement houses and other property. The total loss is estimated at between \$500,000 and \$600,000.

Winnipeg, Mar. 23.—Trains are blocked in every direction owing to recent snow storms. The worst was experienced on the Western division, upon which no regular trains will run for a week.

The Anti-Chinese bill passed the House of Representatives, Washington, 21st inst., by a vote of 187 to 65.

An Irishman called at a drug store in the middle of Johnson's Assoloye Lament for the Rheumatism; the druggist asked him in what part of the body it troubled him most. "In me soul said I have it in every hole and corner of me."

For loss of cold, burn oil, red water in sheep; thick wind, broken wind, and roaring, and for all obstructions of the kidneys in horses use Sherman's Compound Corns Powders. Don't buy a turgid pack of worthless powder.

The Chinese invented printing, the mariner's compass, gunpowder, &c., but the invention of Steel Pens was left to the nineteenth century. Eberbach's Falcon, No. 648, being a universal favorite.

TO LOAN. \$600. On Real Estate Security. GEORGE RUFFEE. Bridgetown, March 28th, 1882.

IMPORTANT TO ALL! THE AVERILL PAINT has been in use in the United States and France for over fourteen years, and is constantly growing in favor.

It has been thoroughly tested by chemists and applied on over 500,000 residences in the United States, and is pronounced by all who have used it to be the most BEAUTIFUL, DURABLE and ECONOMICAL paint for either wood, brick stone or plaster. It does not fade or chalk off, but retains its freshness and brilliancy for many years, and will last much longer than the best lead and oil made in the old way.

It is made ready for use in all shades, also inside and outside white. It can be applied by any one whether a practical painter or not. Sold by the gallon, in packages from one to fifty gallons.

Testimonials can be given from every party who has used it here. S. N. JACKSON, S. N. Jackson, Agent. N. B.—The subscriber keeps constantly on hand a general stock of GOODS, low for cash or prompt orders.—m2529
