

# MONEY IN POTATOES

Every labor-saving machine that you use in growing your crop means so much more of that money for you. Remember that the machinery you buy is a permanent investment, and should be the kind that will last you for years to come.

## O.K. CANADIAN POTATO PLANTERS

### SEED POTATO CUTTERS

are the best that we know how to make—the kind that are built to give years of satisfactory service.

The *O.K. Canadian Seed Cutter* is designed to leave both your hands free, being operated by the foot. With it you can cut from 5 to 7 bushels an hour, as against 1½ bushels by hand.

The *O.K. Canadian Planter* is of the latest design. It is thrown out of operation by moving one lever, its cup-feed device handles the potatoes without damage, it is adjustable to any depth and to plant hills 12 to 18 inches apart. It has an attachment for distributing fertilizer which may be used or not, as desired, and it covers the seed thoroughly. It is strongly constructed of the best steel and malleable iron, and guaranteed in every respect.

Our booklet on potato growing will give you much valuable information. Write for it, FREE.
