Knott; plumbing

and heating, Bennett & Wright Co.; plastering, C. B. Simpson.

#### MARKET CONDITIONS.

There continues to be a steady demand for builders' supplies, with a general tendency towards higher prices. In lead pipe there has been an advance of 2½ per cent, the price now being 7 cents for ordinary and 7½ cents for composition waste. On Thursday of last week the price of steel bars was advanced in Pittsburg from \$2.50 per 100 lbs. to \$2.75. This means an increase of \$5 per ton, but even at this figure it is almost impossible to obtain steel bars for delivery before the first of next year. It is said that the capacity of the steel mills and blast furnaces is sold out entirely for the remainder of the year. At Montreal bar iron has advanced 10 cents per 100 lbs., and galvanized iron is held 5 to 10 cents higher than it was ten days ago.

The movement of paints, oils and glass is exceptionally brisk. The high ocean freight rate on heavy goods makes it difficult to get supplies of whitening, and some buyers are stocking in anticipation of an advance.

The cement situation has not changed. Importers and dealers generally meet with some difficulty in filling orders, and the prospects are that a very light stock will be carried over this winter.

## ARTIFICIAL STONE PAVEMENTS

### SIDEWALKS A SPECIALTY

CORPORATIONS Will do well to consider our work and prices before letting contracts  
The Silica Barytic Stone Company  
of Ontario, Limited.
