CHOLERA IN MONTREAL.

ITS RAVAGES IN THE PAST-TERRIBLE EFFECTS IN 1832.

The cholera plague has now reached Lyons 1 char g Piles Sympic mes and ture and by latest advices we learn that there are 116 cases in the Toulon hospital, and we The symptoms are moisture, like perspiration, intense itching, increased by scratching, very distressing, particularly at night, seems as if pin-worms were crawling in and about the rectum; the private parts are sometimes affected. If allowed to continue very serious results and the city of Montreal? The Post a few days ago pointed out that in the region of the St. Lawrence Main street and St. Mary's Ward that instead of water closets connecting with drains they were mere cesspools and apt to breed pestilence. It is very evident that this dread disease is on the march, and our quarantine authorities cannot exercise too much vigilance. It was introluced four times into Canada, four times through the shipping in the port. For instance, on the 8th of June, 1832, a vessel named 'Carricks" from Dublin arrived at Grosse Isle, with 133 passenger on board, 59 having died during the passage. On the following day the pestilence appeared in Quebec, and on the 10th it broke out with great violence in Montreal. On the 20th June of 165 cases reported during the preceding 24 hours 88 deaths had occurred, and of 137 cases during the following 24 hours there were 77 deaths. The whole number of deaths amounted to 1,885 and the whole number of cases reported to 4,420, showing that 3 out of 7 of the cases proved fatal. The population of the city at that period was not over 25,000 souls, so that nearly every fifth person was stricken down. In 1834 Montreal was again visited with this terrible scourge, and during its continu-ance 913 persons perished.

During the summer of 1849 cholera made its appearance and a large number died, 180 interments being made in the month of July. As in 1848 the disease was introduced into the country on board vessels conveying emigrants from Britain. During that summer 32,628 emigrants arrived at the port of Mont-

In 1854 many of the citizens were called to mourn the loss of loved ones who were cut down by this fearful disease, which broke out June 24th and raged for about two months. The total number of deaths was 1.186. The following table compiled from the weekly returns made in the different years shows the percentage result. It will thus be seen that the first visitation was by far the most fatal

TRUTH " AND THE MIND READER. LONDON, July 1. -- Truth's savage emisade against frying Bishop, the American thought-reader, has resulted in a likel sait which that young gentleman has brought against Mr. Labourchere, and which threatens to become quite as achebrated a case as, the indicators. The principal charge on which Mr. Bishop bases his case is that Froth powerful that he was a common swindle, and had robbed the Victoria Hospital of \$300, the proceeds of one of the entertainments which was estensibly given for the benefit of that institution. Mr. Charles Bussel, Queen counsel, member of parliament for Dundalk, has received a Trief from Mr. History's soliciors, and nearly all the leading counsel of London have been engaged on our side or the other.
