

*Proceedings on Adjournment Motion*

like to say that the matter has not been drawn to the attention of the federal government or the officials of the Food and Drug Directorate of the Department of National Health and Welfare. Therefore this government has not offered to assist the province of Newfoundland in its investigation, and has not been asked to do so by the province.

However, may I say at this time that the machinery to set up the House of Commons special committee on food and drug prices is now under way and we expect that meetings will be held very shortly.

Motion agreed to and the house adjourned at 10.25 p.m.
