

WAR SHARES 'LIFTED' TO HIGHER PRICES

Many New Records Established by Speculators on N.Y. Stock Market.

ADVANCES VIOLENT

Corner or Open Buying for Control Suggested by Activity.

NEW YORK, Sept. 27.—On a scale of activity unequalled since the inception of the movement, war shares were today lifted to higher prices, establishing new records. The demand for these stocks appeared to be largely of speculative origin, but it is believed that there was considerable buying from more substantial interests in the belief that several important industrial conditions are in process of consummation.

High Record for Day. The most notable high records of the day were made by Baldwin Locomotive, which showed an increase of 1 1/2% at 14 1/2; General Motors, 1 1/2% at 14 1/2; Republic Iron & Steel, 5% at 52 1/2; Republic Steel, 1 1/2% at 34 1/2; American Can, 4% at 65 1/2; Texas Company, 3% at 17 1/2; and Bethlehem Steel, 1% at 34 1/2.

NO RESPONSE MADE TO WALL ST. BUOYANCY

Toronto Stock Market Remains Inactive and Price Changes Are Small.

Continued inactivity on Wall street is without influence on the Canadian markets. The only shares which have made recent gains are those of the Baldwin Locomotive Co., P. R., and the three shares advanced yesterday to 183. Domestic steel stocks were quiet, but in the case of Steel Corporation and Nova Scotia Steel & Trifle Iron, Steel of Canada feels the effect of distribution and makes slow advance. The whole Toronto market was again an unlistened section was decidedly lacking in life.

MARKET FAILS DULL

Most Consistent Strength Shown by Power Group Shares at Montreal.

MONTREAL, Sept. 27.—After an early show of activity and strength the local stock market turned dull and irregular. The market was characterized by a disappointing response to the big forward movement in Wall street. This was particularly noticeable in the case of the Baldwin Locomotive Works and the Remington Arms Company.

REASON FOR CHANGE

H. B. Willis in his weekly circular says: While concerted efforts have been made to depress the price of silver during the past few months, at the same time a quiet absorption of this metal by certain of the large silver interests of the United States, an advance of over two cents per ounce has recently taken place in the market.

MOVEMENTS SMALL

Mining Stocks Advance Slowly, But Steady Progress is Made Against the Bears.

ALTHOUGH there were no important upward movements on the Standard Mining Exchange yesterday the market was strong through both sessions. Numerous unfilled orders were still in the hands of brokers. The strength of the market for silver bullion is keeping attention riveted on the cobalt stocks, and Nipissing made a further rise to 7.60 yesterday.

REASON FOR CHANGE

Over 15 months ago I advised the sale of the silver securities and since then have had but little to say in their favor until this time, and with the recent advance in the market, I will soon cast off its demoralization and again become eagerly sought after.

Wheat Bulls Stubborn

Wet weather and a forecast of more delayed receipts to make the wheat bulls stubborn. A fair export demand was evident at the seaboard.
