

WHY HAVE A DEAD PIANO?

FOR the home where there is no one who plays the piano, the Bell Player Piano, "THE AUTONOLA," is the instrument that is needed.

With this ideal piano anyone without having musical knowledge can play artistically and well. The instrument can also be played by hand in the regular way.

We invite you to come and examine this wonderful instrument for yourself. We will take your present piano in part payment and allow considerable time for the payment of the balance.

RHEUMATISM FLIES IN ONE TO THREE DAYS

WHAT A "HEAVEN BEGUN BELOW" IT WOULD BE TO MANY A WEARY SUFFERER FROM RHEUMATISM, NEURALGIA AND ALL THE KINDRED AFFLICTIONS, IF FAITH WOULD TAKE HOLD OF AND USE SO RADICAL A CURE AS THE GREAT

South American Rheumatic Cure

Why, its very nature makes it the most natural and easy cure that human intuition and diligence have discovered. Its wonderful power is in its simplicity; its effectiveness is in its going right to the seat of the trouble, dispelling the causes that "bode evil," give pain, stiffen joints, distort limbs, twist muscles, and when it reaches vital spots, oftentimes cause death. South American Rheumatic Cure is as harmless as milk. One of its marvels is the rapidity with which it effects a cure and the testimony of the thousands who have "thrown away their crutches" and climbed from the valley of suffering to the mountain top of health would fill a book.

Don't be incredulous. Encouragement comes with the first dose no matter of how long standing.

ALL DRUGGISTS AND MEDICINE DEALERS HAVE IT.

SOUTH AMERICAN NERVEINE for all stomach and nerve troubles.

SOUTH AMERICAN KIDNEY CURE is a wonder worker. South American Kidney Cure gives relief in six hours in all kidney troubles.

COBALT STOCKS STEADY SOME ISSUES HIGHER

Buyers Holding Off on Account of Gradual Decline—General Mining Notes.

As indicated by the close on Thursday night, the selling wave in Cobalt stocks had about exhausted itself. The market on nearly all issues was firmer yesterday morning, but the general decline had the effect of holding off buyers, and the market was less active than for several days. The only news from the centre of the mining district was that development work was being rushed on silver properties as fast as the Cobalt labor market would permit. The market was under the impress of the rumors of a local bank trouble, almost all day, but, despite this, prices throughout maintained steadiness, and in the case of Silver Queen and McKinley advances were made.

The prospectus of the Watts Mines, Limited, has been issued. The features outlined by the promoters are that there are already exposed on the property seven veins, six of which are producers of native silver, and the seventh a cobalt vein, carrying large values of silver. The width of the veins varies from three to eight inches. At vein No. 1 a shaft 65 feet deep has been sunk and on the others test pits, varying from six to twenty feet, have been made. One car of ore has been shipped from the property. There is now stacked ready for shipment five hundred bags of ore, and the company hopes to be able to ship one car each month that will net \$20,000. Hand labor, which has hitherto done all the development work, is to be largely superseded with machinery, and a steam plant, air compressor and winch will be included in this equipment. One hundred thousand shares of the stock of the company are now being offered at 50c per share.

Why the Low Price for Goldfields. Canadian Mining and Smelting is selling around 13c and Gold Fields stocks at 1-2. The Gold Fields Syndicate owns 4270 shares of Canadian Mining and Smelting, among its other assets. The capital stock of the Canadian Gold Fields Syndicate is \$600,000, while the market value of Smelter stock owned by the company is \$1,000,000. The other assets of the Gold Fields Co. are placed at \$454,552. Gold Fields stock, on the basis of Smelter holdings alone, if the latter is worth its selling price, should have a market quotation of 10-12c. Query: Why the low price of Gold Fields?

Transfer Will Be Made by Trust Co. The necessity for more modern methods in the transfer of mining scrip has been prominently recognized by the Foster-Cobalt Company. Brokers who have bought stock of several companies since the big big investment appeared have been unable to deliver the scrip to clients for several days after the transaction. This has caused much annoyance and prevented the freedom in the mining market that should be. The Foster Company has adopted the system of many other prominent joint stock companies, and placed its transfer books with the National Trust Company, which will perform the stock transfer work after this week.

White Bear Looks Promising. The report of the superintendent of White Bear mine, Rossland, B. C., is to the effect that development work is likely to proceed for some time yet. During the month a great deal of work has been done on the thousand-foot level, and a fair quantity of ore has been brought up, of a splendid quality. Considerable ore has also been shipped, which assayed about ten dollars a ton net, while the concentrates realized \$24 a ton. The new vein of ore struck recently is in the direction of Le Rol No. 2, and the owners of White Bear are firmly of the belief that it may not be very long before a richer vein is struck, that may equal the Le Rol. As is well known, the mine immediately adjoins Le Rol.

Silver Leaf Makes Change. It is reported that the transfer office of the Silver Leaf Mining Company, which is now located in New York City, is to be removed to Toronto, and the Trusts and Guarantee Company of Toronto will be registered as the company in place of the Trust Company of America of New York City, as in the past. There is also a rumor afloat that a syndicate composed of Canadians are negotiating for the purchase of the controlling interest of the mine.

Specimens From the Mine. Mr. Clair Hodgson, who has spent the summer on the Silver Leaf property, returned from Cobalt yesterday, bringing with him some very fine specimens of ore which he took out of a 50-foot level of that property. Mr. Hodgson speaks very highly of the Silver Leaf, and predicts that, in the near future, the property will be recognized as one of the leading mines in the Kerr and Groulx Lake districts.

Good! Port Hope Pale Ale

More people would drink the ale they need to build them up if they knew of ale as good and as honest as this Port Hope Pale Ale, brewed in the old-time way, made of pure things, kept pure and thoroughly ripened.

Drink a bottle of Port Hope Pale Ale with your dinner—don't drink the ale too much—and you'll get a new zest for your food—and new power to digest it.

Port Hope Pale Ale is just as good as good ale can be—made of Canada malt, Kent hops and Highland Spring water, makes blood, builds the body.

Drink it regularly and keep well. Try it in pints or quarts—ask your dealer for it.

The Port Hope Brewing and Malting Co., Ltd.
44 Port Hope, Canada.

An Old Cobalt Mine Under New Management.

The Watts Mines, which was recently purchased by a Toronto and New York syndicate, is one of the oldest properties in the camp. Extracts from the report of the expert who reported on the property show the advisability of owning stock in this property. Vein No. 5 is of great value. This vein is stripped for a distance of over 100 feet, and shows a width of three to four feet of native silver. Taking the run of the vein it will easily produce ore running over 1000 ounces per ton.

Vein No. 1 is proven to a depth of 60 feet with values running over 750 ounces per ton. This vein is actually proven to a depth of 100 feet by the work on the adjoining claim (Silver Cliff), their working being within a few feet of the Watts line.

Vein No. 3 is a high-grade ore-producer, which shows values running over 2000 ounces per ton. This vein is from 6 to 8 inches wide.

There are four other veins on the property which have only been exposed to a depth of 6 to 15 feet, and give promise of being large producers.

The new management will at once install a complete plant to take out ore economically, and on a large scale. The company's experts estimate that a production of \$50,000 per month will easily be attained. This will easily place the company on a most excellent dividend basis.
