cago to-day:

Wheat—The continued dry weather in spring wheat territory with constantly deteriorating condition reported there, and also in the winter wheat section, caus general buying in wheat this morphing, and great enlargement in the speculative trade. Receipts in the Northwest were comparatively very light. Cables from both Liverpool and Paris were not strong, as was expected in view of our strength yesterday. On the advance of 2c per bushel there were quiet heavy realizing sales, causing some sethack in price, and leaving the market in a healthy position. Without improvement very soon in crop conditions, values are likely to be advanced sharply.

Corn—In corn there has been a light business, being neglected for wheat. The range was narrow, %c. Liverpool cables were ¼c lower to unchanged. Country offerings were rather liberal. Elevator people sold quite freely around the opening local shorts bought, advange in lake frelights to 2c checked demand. Clearances fair; on whole the market has ruled dull and uninteresting. Receipts slightly over estimate. 321 cars, against 295 estimated; 425 estimated for to-morrow.

cars, against 295 estimated; 425 estimated for to-morrow.
Oats have ruled quiet, like corn, neglected for wheat. Elevator people sold moderately: supposed to be against country nurchases. Trade light. Demand good, 80,000 reported. Clearances 95,000 bushels. Receipts 122 cars, against 154 estimated; 240 cars estimated for to-morrow.
Provisions opened steady at about yesterday's closing prices, and afterwards ruled strong active and higher, with advance in wheat. Commission houses were best buyers. Local operators and packers bought ribs and pork. Selling was scattered. Market closed strong at about highest prices of the day. Estimated hogs to-morrow, 25,000.

The stock market to-day was like those seen in the dog days, the volume of business was so light. Sugar and some of the Authracite shares were the only issues in which fluctuations of note occurred, if we except New York Air Brake stock, in which there is no general interest. The general tone of the market was heavy, tho there was no evidence of determined selling to depress prices in any quarter. The Northwest dividend had a steadying effect on the Grangers.
