Buffalo, July 2.-Scarcely able to breathe, nourished only by liquid food, and suffering terribly from a fever, a man suffering from a precariously condition at the General Hospital as the result of a peculiar accident.

Medical aid was immediately summoned, and it was thought at first that the teeth could be taken from the throat. On closer examination it was found, however, that one corner of the plate was so firmly imbedded in the throat that any attempt to bring it out through the mouth would cause laceration of vital organs.

WORKINGMAN WHO PROSPERED

Charles H. Lawrence, Who Owns Considerable Property There, Visiting in Toronto—Strongly Favors the Eastern End of the Island.

A good example of how a young man in a strange country can get along in a very few years by appreciating opportunities is Charles H. Lawrence, an interesting visitor to the city at present.

Mr. Lawrence is a Scandinavian of ability and foresight. When he crossed the Atlantic to come to the Western States, not so very long ago, he was poor and handicapped by lack of knowledge of the English language.

When the Yanko-spunko war was over Mr. Lawrence's ideas turned toward Cuba. He first visited that island and his savings was to purchase some land from a company formed to handle Cuban real estate.

It was a swindle, but it turned out all right," said Mr. Lawrence in a casual way. "I was not at all interested in the country, but I was looking for a place to live, and I found it."

Mr. Lawrence was asked by the reporter if he knew much about the island. He said he had been there for some time and had seen a great deal of the island.

Mr. Lawrence says that the island of Cuba is prospering every day since the war. He says that the island is now a large proportion of them being Americans and Canadians, who show decided preference for the island.

FAVORABLE TO CONFERENCE MOROCCAN CRISIS IS ENDED

France Has Replied to Germany and Only Details Are Now to Be Arranged.

Paris, July 1.—Prince von Radolin, the German ambassador, called at the foreign office tonight by appointment, and during a two-hour talk with Premier Rouvier received from the latter the French response to Germany's latest note concerning Morocco.

The general tenor of the response is favorable to the principle of a conference. Diplomatic circles, therefore, regard the controversy as practically closed, as little now remains to be done except to adjust details. This, however, may take some time, as each side is tenaciously contesting every step.

The German Note. London, July 1.—(N. Y. Sun Cable.)—The German note in regard to Morocco, also friendly in form, is not so conciliatory as the French report has led people to believe.
