Collegiate Field Day Prelims. Are Staged at Park

Enthusiasm High This Year Among Collegians and Crack Performances in Events Looked For.

This morning the preliminaries of the annual Collegiate sports will be run off at Tecumseh Park. Never in the history of the institution has the interest in sports been at a higher pitch than at present, and some very creditable performances may be looked for from the entrants in the various track events. This year a new method has been followed in planning the events, and the school is now divided into eight series, running through the high, middle and lower schools, and this plan has produced the proper competitive spirit and has already shown results in the unusually large number of entries in all events that are being staged this year.

The parade this year prior to the start of the games in the afternoon was a novel feature, and the first of the series, running through the high, middle and lower schools, and this plan has produced the proper competitive spirit and has already shown results in the unusually large number of entries in all events that are being staged this year.

LATEST TYPE OF TOURIST CARS

One of the Features in Canadian National Railways' Daily Service Toronto-Winnipeg-Vancouver.

The Canadian National daily transcontinental train, Toronto-Winnipeg-Vancouver, made its initial trip from Toronto, with one of the very latest type of steel tourist cars as part of its equipment, the first of an order of twenty such cars in whose construction every point has been considered for the safety and comfort of passengers. This modern type of tourist car, with anti-scope device is of similar design to the standard sleeping coach, the exception being they are upholstered in leather instead of plush.

Electrically lighted throughout, all berths, upper and lower, are provided with berth lamps. A new feature for this class of car is that lamps have been installed under the seats in the aisles of the car, so that when the ceiling lamps are turned out for the night light may be provided under berth curtains.

A safety feature introduced is a device for holding down the upper berth seats in the dark, should the upper berth closing when in use. Separate berth curtains are provided so that passengers in the upper berths will not disturb passengers in the lower.

The kitchen has the latest steel range, facilities for washing dishes, and lockers enable passengers to store their food. Lavatories have received special attention, the latest type of toilet and shower, and the older type. An electric thermostatic heating control can be so adjusted as to regulate the temperature of the car, thus preventing overheating. Thus with the introduction of the daily service of the Canadian National lines between Toronto-Winnipeg-Vancouver, is the added convenience of the latest type of tourist cars for second-class passengers who can enjoy a transcontinental trip in every comfort at minimum expense.

BREAK IN RANKS OF S. OXFORD TORIES RAPIDLY WIDENING

Prohibition and Farmers' Votes Expected to Swamp Conservative.

TILLSONBURG, Oct. 9.—The break and disintegration in the South Oxford Conservative ranks is rapidly widening, and Mr. Sinclair's closest workers are making a heart-breaking effort to stem the apparent disaster.

In accepting the nomination last Monday, he told those present that he personally, he was against accepting the nomination, and stated that he would follow the lead of the majority of one. It is claimed that he promised him a 500 majority in Ingersoll, but a promise of materialization are two different projects. Mr. Sinclair wanted one condition to be thoroughly understood, and that was that he should use his own discretion in all matters, especially in the matter of resigning his nomination.

Well-known Conservatives state that the farmers' movement, and the prohibition workers will swamp Mr. Sinclair on October 20. Five years ago Mr. Sinclair was elected on the Conservative platform backed by liquor interests, it is alleged, when Mr. Rowell was fathering the abolitionist train. J. H. Mayberry, his Liberal opponent, was elected on the temperance platform, but demanding a recount. Mr. Sinclair was declared elected by a majority of one. Although five years have passed, and with double the prohibition vote, the temperance people have not forgotten, but only waited for Mr. Sinclair to come before them in another election, and meet his Waterloo.

Strange things may happen ere nomination day in the ranks of the South Oxford Conservatives. The fact that while Mr. Sinclair is talking on public platforms many of his most ardent supporters are out diligently working night and day against the prohibition issue is regarded as peculiar.
