## TORONTO MAN OBTAINS **BIG RUSSIAN CONTRACT**

Montreal, June 25 .- A. Sloan, of Tor-Ottawa, June 25.—That Canada need not look to the United States for its future supply of coal and that the present shortage serves as a good lesson for the Dominion to develop its own resources was the gist of an interview given by H. A. Harrington, fuel controller for the province of Ontario, last night. nto, with offices in the Drummond Building here, along with F. W. Boyer, also in the same building, have completed an order for several million dollars' worth of Canadian machinery and food stuffs with C. A. K. Martens, Russian Soviet trade commissioner in the United States, according to information received this morning from a reliable source.

A New York despatch says that Sir Donald Mann is said to be the leading figure in the background in connection with the transaction.

#### RUSSIA'S NEW BID FOR **EUROPEAN RECOGNITION**

Mr. Harrington was very reticent when questioned as to the probabilities of the United States supplying Canada's need during the coming winter. He stated the strong probabilities were that the United States would need all of her own output, especially the anthracite coal. There was all kinds of coal in the Dominion, but the people of the Dominion were not digging" for it. Rather they were depending on the people to the south. They had to learn to be independent and "dig" for themselves. London, June 25.—Leonid Krassin, the Bolshevik minis er of trade and commerce, says The Evening Standard today, told a trade delegation that visited him this afternoon that if the Bussian Soviet government was recognized. Kitchener, Ont., June 25.—(Special).
