

Persons who may not wish to pursue either course regularly, will be allowed to enter any of the Classes, in order, for which they are qualified; but where there is no inclination or desire on the part of the parents and guardians of the youthful students, dictating a modified course, they will be examined, and have their places assigned in the Department which they may be prepared to join, and they will be required to pursue the regular course, as above given, while they may continue in the Institution.

Parents are particularly requested to send every article of clothing marked with the name of the pupil in full.

If parents wish to aid us in our efforts to promote the health of their sons and daughters, they will do well to heed our *earnest request* that no eatables, except perhaps fresh fruit, be sent to those under our care. Our table is abundantly supplied with every needful variety of wholesome food. A large part of the little sicknesses among students is directly traceable to the "boxes from home." We suggest also that spending money, beyond actual needs, is injurious in its influence on students, and should not be furnished.
