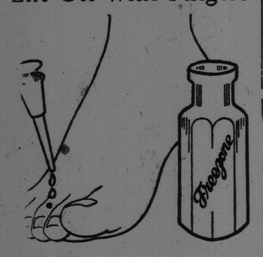
CORNS

Lift Off with Fingers



Doesn't hurt a bit! Drop a little "Freezone" on an aching corn, instantly that corn stops hurting, then shortly you lift it right off with fingers. Truly! Your druggist sells a tiny bottle of "Freezone" for a few cents, sufficient to remove every hard corn, soft corn, or corn between the toes, and the calluses, without soreness or irritation.

WOODSTOCK MOVES TO HAVE COMMUNITY HALL

(Woodstock Press)

During the last few years the High School Class, in its newspaper, has advocated the erection of a suitable building for recreation purposes. The local newspapers referred to the matter on previous occasions. The Boy Scouts have backed up the efforts of the High School. Both organizations have now secured the assistance of the Board of Trade.

Outside the public buildings, it is true that Woodstock is well supplied with large and handsome structures. The Exhibition buildings and plant are worth $100,000; the Fisher Memorial School is valued at $90,000; the Broadway School, $65,000; the Fisher Public Library, $50,000; the Fisher Hospital, $50,000; the Town Hall $7,000.

Now, there is but one thing lacking and that is a community hall. It is said that there are but three ties by which states are held together: community of race, community of religion and community of interest. What is a community? It is composed of the people who reside in one locality and are subject to the same laws and have the same interests.

It goes without saying that we need a community hall in Woodstock. The winter evenings are long and the means of enjoyment are limited. There are four private club rooms where about 100 of the older men pass their spare time, and there is no place but home for the remainder, outside of the usual amusement houses, while the literary inclined are frequent visitors to the Public Library.

The writer was a few months ago shown through the Young Men's Catholic Institute in St. John. The grounds and building cost about $200,000 and was opened to the young men about a year ago. It has as an instructor one of the best athletes in Canada. Here the young men and young women can find departments devoted to every branch of athletics, as well as an assembly hall that will seat 2000, bath rooms and a swimming pool. The gymnasium is largely patronized, while bowling, boxing, pool, billiards, basketball, etc., have their admirers.

John L. Peck, M. L. A. of Albert county, is having erected and will present a two-story concrete building to the village for community purposes—lecture room, banquet hall, kitchen, rest room for visitors, etc.

As we have said, our boys have nowhere to go. The worst that can befall a boy is to have the liberty to stay out late at night on the streets, because it is mostly during the night that all the mischief is planned and executed. These night boys are the boys who fill our prisons and bring sorrow upon their relations and friends. The boys who go to school or who work in shops and factories all day are entitled to some recreation and amusement.

A community hall has already received the hearty endorsement of the Board of Trade and other public bodies. No man, sound in mind and unselfish in motives, will refuse to devote his untiring efforts and give his most generous support to a project of such public interest as a community hall which commends itself to all having an interest in the growing generation of our town.

LUNGMOTOR BRINGS LIFE TO A NEW-BORN INFANT

Kitchener, Feb. 26—Another young life was saved here by the civic lungmotor. Twins were born to Mr. and Mrs. A. Turskot, 188 King street east, a boy and a girl. The former was lifeless, and the attending physician, Dr. J. E. Hett, used artificial respiration for half an hour without success. He finally called Fire Chief Guerin to bring the civic lungmotor, and after twelve minutes 'application the first spark of life manifested itself. Additional application for five minutes more brought the young child to life, and this morning he was doing as well as his young sister. No fewer than six lives have been saved by the use of the lungmotor during the past twelve months. Dr. Hett, who advocates nationalization of the medical profession, declares every municipality should own a lungmotor.

TO IMPROVE THE LOT OF SETTLERS IN ALBERTA

Edmonton, Feb. 24—The provincial government will probably undertake a survey into the character of the land in southern Alberta, and a re-classification of farm lands with a view, possibly, to removing settlers from districts unsuitable for operation. This action was intimated by the government in reply to a delegation from the United Farmers that recently held a conference with the executive council.

HERE'S A NEW TERROR FOR THE STREET CARS.

London, Feb. 24—A new terror is added to the subways. It is the "automatic stentophone,' 'which was installed recently at the foot of the Oxford Circus stair-case.

It shouts: "Keep moving, please,' (pause). "Let others pass on the left" (pause). "If you must stand, stand on the right" (pause). "Now then, keep moving on the left. Some are in a hurry; don't impede them," and so on.

BOMBARDS FROM AIR SEVEN MILES AWAY

Paris, Feb. 24—A French inventor, Lou Demblanc, has applied for a patent on an invention that will enable aircraft to bombard points from a distance instead of merely dropping explosives from above as heretofore.

By this new device, which is to be attached to an aerial projectile, it is possible from an altitude as great as 6,000 yards, to reach accurately targets seven or eight miles away, thus destroying vital points without subjecting aircraft to concentrated enemy fire.

FISH SPAWN ON INCREASE

Vancouver, B. C. Feb. 24—As a result of large scale hatchery operations reports from the Fraser river and other streams indicate that there are more fish on the spawning beds than for many years. In fact, the problem of feeding the vast number of fish is requiring deep consideration by the department of fisheries.

There are at present 85,000,000 fry in the hatcheries. It is estimated that it requires about 450 pounds of canned salmon or other foods to feed a million fry a day after they are 12 to 15 months old. The salmon fry in British Columbia are developing into epicures, thus complicating the situation. Their fastidious appetites call for a canned fish and liver diet spiced with caviar. The latter class of food is obtained by taking unfertile fish eggs and drying them.

EXTENSION OF RAILWAY

Victoria, B. C., Feb. 24—To carry the Pacific Great Eastern railway from Prince George northerly and nearly to the inter-provincial boundary between British Columbia and Alberta will cost about $18,000,000, according to an estimate made by C. Williams, surveyor, employed by the government to determine feasible routes.

His report, which has been tabled in the legislature, outlines two routes: one from Prince George to Swan Lake via Pine Pass, a distance of 316 miles, the other from Vanderhoof to Hudson's Hope, 296 miles; from Hudson's Hope to Pine River, 48 miles, and from Pine River to Swan Lake, 82 miles, or 426 miles in all.

How You Can Make Hairs Quickly Disappear

(Helps to Beauty.)

Even a stubborn growth of hair will quickly vanish from the face, neck or arms after a single treatment with delatone. To remove hair from arms, neck or face make a stiff paste with a little powdered delatone and water, apply to hairy surface and after about two minutes rub off, wash the skin and it will be left free from hair or blemish. To avoid disappointment, be quite certain you get real delatone and mix fresh.
