

CURE YOUR COLD WITHOUT MEDICINE

Just Breathe "Catarrhózone." Its Balsamic Vapor Does the Rest

It's a tiny germ that sets up the irritation that makes colds so disagreeable. Colds die quickly if Catarrhózone is used, simply because the vapor of Catarrhózone instantly destroys the germ that keeps the cold alive.

Every breath you draw through the inhaler fills the whole breathing apparatus with pure piney essences that stop colds at their very beginning. You experience a pleasant sensation of relief at once. Soreness, congestion and irritation leave the nose and throat, the head is cleared, and every trace of cold or catarrh is cured. Catarrhózone is so sure, so pleasant, such a safe remedy for winter ills that you can't afford to do without it. Get the dollar outfit, it lasts two months and is guaranteed to cure; small size 50c.; trial size 25c., all dealers or The Catarrhózone Co., Kingston, Canada.

Approve Amendment.

Bismarck, N. D., Nov. 27.—The state senate late today passed the Federal Suffrage amendment by a vote of 43 to 3. The non-partisan league caucus bill declaring oil companies to be public utilities and under the control of the State Railroad Commission with power to fix prices of gasoline and oil, was introduced by Senator William J. Church and referred to committee.

STATEMENT BY GARFIELD ON 14 P. C. INCREASE

Public Ought Not to Pay Higher For Coal Than Now

COST OF LIVING BASIS

U. S. Fuel Administrator Urges Permanent Consultative Body With Purely Advisory Powers — Government Retains Control of Prices

Washington, Nov. 27.—In a statement last night to the operators' and miners' wage committee, fixing a wage advance of fourteen per cent for all mine workers, Dr. Garfield, fuel administrator, said: "On the 24th inst. I announced that the public must not be asked to pay more than it is now paying for coal, unless it is necessary to do so in order to provide reasonable wages to the mine workers and a reasonable profit to the operators. Careful investigation forces me to the conclusion that, in accordance with this and other principles set forth on the 24th inst., the public ought not to be required to pay any increase in coal prices at this time.

"The prices fixed by the government on coal were calculated to increase production for war purposes. Coal was basic and the increase in production was imperative. The operators are now in receipt of margins which were necessary to effect that increase of production, but which are larger than are required under present conditions. It was estimated that the production needed for 1918 was 500,000,000 tons. The estimate for 1919 is 500,000,000 tons.

"Applying the principles set forth in paragraph two of the statement of Nov. 24, when the average increases in wages since 1918 for the various classes of miners are deducted from the increase in the cost of living since that time, we arrive at the amount of additional increase in wages justifiable at the present time.

"I have taken the figures of the bureau of labor statistics for both cost of living and for the weighted average of wage increases. According to these figures the cost of living has risen 79.86 per cent since 1913 and the amount necessary to bring the average wages of mine workers up to the point at the present time is 11 per cent.

"Re adjustments heretofore made since 1918 were such as to give certain classes of mine workers an average increase in excess of the increase in the cost of living, and certain others an average increase below the increase in the cost of living. This form of adjustment was made in order to establish on a certain relative basis in the mining industry.

"I do not think this condition, however, ought to result in giving the miner, as a whole, and in consequence imposing on the public, a total average increase in excess of the total average increase in the cost of living, because if this course be adopted, the result will be that the total increase in the burden placed upon the mining industry will be far in excess of the increase in the cost of living. If this principle were applied in industries generally, it is obvious that the resulting cost would be passed along to the general public and the increased wages would increase in a rapid spiral taking as a minimum the percentage of increase in the cost of living. In the long run this would add many new and serious burdens to the cost of living of the entire public and would fall more injuriously upon the working classes than upon any others.

"It seems to me that the reasonable way to deal with this situation is to give to the industry as a whole an average increase commensurate with the increase in the cost of living and then let that amount of increase be apportioned in accordance with the wage bases that are acceptable to the employers and the employees.

Maintain Price Control.

"Control of prices by the government will be maintained for the present. The present negotiation stands by itself, but it is far from disposing of the fundamental controversy between operators

Used After the Bath

Dr. Chase's Ointment

Keeps Baby's Skin Soft and Smooth

Baby's skin troubles are generally caused by chafing and skin irritations resulting from friction of the clothing.

Baby's skin is tender, and if neglected these irritations of the skin develop into eczema. Everybody knows the suffering caused by eczema and the tendency of eczema to become chronic and spread over the body.

While Dr. Chase's Ointment cures eczema, it is always better to prevent such ailments, and this is why mothers use the ointment after baby's bath so as to prevent irritations and more serious skin troubles.

Powders clog the pores of the skin and are on that account a cause of skin irritation. Dr. Chase's Ointment, on the other hand, cleanses the pores and keeps the skin in healthful condition.

Regular size, 60 cents a box; family size, about five times as much, \$2.00. All dealers, or Edmansson, Bates & Co., Ltd., Toronto.

"SWAT THE COLD" A HEALTH SLOGAN

Health Authorities Are Back of Campaign which Covers Entire Continent.

The familiar "Swat the Fly" slogan is now being revised by health authorities and the public is being advised to "Swat the Cold" in winter as heartily as they "swatted" the fly in summer.

Behind the movement is the desire to check the possible spread of flu by the prompt treatment of every case of cold. The symptoms of the flu in its early stages are the same as those of a bad cold and last year the flu reached an advanced stage in many cases before the patient realized that the trouble was more serious than a cold.

"If every person would get busy as soon as a cold develops and use home remedies to break it up, we wouldn't hear so much about the flu," says an Eastern official. "It would do wonders and that quick."

Colds in the head or the flu in its early stages are promptly and effectively treated at home by the use of Grip Fix. This is not a patent medicine but a combination of drugs such as would be used by any physician. It comes in capsule form and relieves a cold in the night and acts promptly in case of Grippe.

At this time of the year every home should have a box of Grip Fix. It is on sale at all drug stores, where it sells for 35 cents per box. (Adv.)

DON'T NEGLECT A RHEUMATIC PAIN

Buy and keep handy a bottle of pain-relieving Sloan's Liniment

YOU need it when the unexpected rheumatic twinge starts—the pains and aches following exposure—sciatica, lumbago, sore muscles, stiff joints, neuralgia. Forget all about buying another bottle and keeping it handy, didn't you? Get it today—play safe—you may need it tonight!

This famous counter-irritant penetrates without rubbing and scatters the congestion. The pain or ache is soon relieved, leaving no plaster or poultice muddiness, no stained skin. Thousands of regular users keep it handy for emergency—they don't suffer needlessly. Three sizes at all druggists—35c., 70c., \$1.40.

Made in Canada.

Sickness prevention

Remove all tires from the rims and completely exhaust air from the inner tubes and rub them down well with soapstone, sprinkle with French chalk, fold them up perfectly flat, care being taken not to crease them, and place in inner-tube bags. The tires should be laid down flat. Store both tires and tubes in a dark place.

Clean and shellack all rims.

Drain off water from the radiator and cylinder block. Flush out the radiator with hose. To insure that all water has been emptied from cylinder block and water pipes, start up motor and run slowly for a few minutes. This will convert any water into steam which might have collected in the water jackets. Replace and plug removed to drain off the water and close drain cocks.

Empty gas tank and drain carburetor. Disconnect electrical cables at battery and remove the battery. Smear ends of cable with vaseline. Fill with distilled water and store in a dry place where there is no danger of freezing. (Battery should be recharged every two months in order to best preserve it.)

Release clutch by propping open with strip of wood between clutch pedal and floor board.

Wipe all machined parts of motor and transmission, clutch and steering gear with oil-soaked rag. Cover motor com-

URGE RESTRICTIONS ON GAS CONSUMPTION

Moncton Case Before Utilities Commission Yesterday—Continued Today

The matter of the application of the residents of Moncton for restrictions on the consumption of natural gas took up the entire session of the public utilities commission yesterday afternoon in the local government rooms. No decision was arrived at and the session adjourned until this morning. There was a large delegation before the board from Moncton. These included representatives of the city council, the domestic consumers, manufacturers, churches and schools. A delegation also came from Hillsboro. The matter of the natural gas supply was discussed at length and some evidence taken. Further hearing will be continued this morning.

The Moncton city council was represented by Mayor Price; J. S. Magee, city clerk; A. A. Allen, city solicitor; Robert Simpson, Moncton, Tramways, E. H. Cummings; J. E. Smitte, representing the Success Business College and Fred Robinson, representing the churches of Moncton. The Hillsboro delegation was represented by W. H. Duffey, for the churches, and A. B. Lauder, for the schools, and Mr. Thompson, of the Hillsboro Manufacturing Company.

A telegraph reported speaking to a member of the board after the meeting learned that the temporary order placed by the commission a few months ago which restricted the use of the gas by manufacturers, expires on Saturday, November 29. With the expiration of the expiration of the temporary order the commission will have to take some action.

It is understood the discussion yesterday in regard to the supply leaves a difficult matter in the hands of the commissioners. The domestic consumer feels that he should not suffer, the manufacturer argues the same way, while the churches and schools are of a similar opinion regarding their interests.

PROFESSIONAL COURT MARTIAL WAS APPROVED

London, Nov. 26.—(By Canadian Associated Press Cable)—The committee under the chairmanship of Mr. Justice Darling, inquiring into the procedure of government courts-martial, finds briefly that what is chiefly needed is not so much an alteration of the law as a more effective instruction of tribunals. The difficulty was overcome during the war by the employment of expert court-martial officers. The committee urges that this system be made permanent and do not find much ground for the complaint that prisoners are kept an unreasonable time in custody.

THE BROTHERHOOD CHIEFS

Cleveland, Nov. 27.—No action looking toward a railroad strike by the four railroad brotherhoods was taken yesterday by the 500 general chairmen meeting here to act on Director-General of Railroads Hines' offer of time and one-half for slow freight service and no vote was taken on the proposition, although a motion to vote on it was adopted. The conference adjourned until today. Discussion of the proposition and the request of the firemen and trainmen for a general wage increase occupied the afternoon session yesterday.

Here's a Cheery Chap.

St. Peter Herald.—The man who has enemies amounts to something. He is a live man. He is a fighter. People don't kick a corpse. A live man can swim against the current; a corpse floats down without hindrance. God bless our enemies! We love them. They are making life worth while.

Mrs. Dora McCants of Shasta, Calif., 72 years old, is the mother of 27 children, including twins born September 23 of this year.

Old Age Deferred

Business men who must speed up the works and make business boom during these days—after the war—must recognize the necessity of keeping fit. When mind is befogged, when you have dull headaches or feel foggy, when not "up to snuff," keep the bowels free with a mild laxative. In the morning take a tepid sponge bath (cold water may be used if it does not chill), follow with a brisk rub down; a sufficient "setting up" exercise in good air until you are in a warm glow. Have you tried it lately?

Don't let the poisons accumulate in the intestines either, but take a dose of castor oil the first thing in the morning, or a pleasant laxative occasionally, such as one made up of May-apple, aloin and jalap, rolled into a tiny sugar-coated pill, and sold in every drug store as Dr. Pierce's Pleasant Pellets. Then a cup of hot water before breakfast, and you'll feel better than a king! If you continue in life thus, you can pass a Life Insurance examination at sixty.

If you wish to prevent old age coming on too soon, or if you want to increase your chances for a long life, you should drink plenty of soft (rain) or distilled water daily between meals. Then procure at the drug store Dr. Pierce's Anurie (anti-uric-acid). This "Anurie" drives the uric acid out and relieves backache and rheumatism, as well as kidney trouble. Anurie dissolves uric acid as hot tea dissolves sugar.

NUXATED IRON

If you are not strong or well, you owe it to yourself to make the following test: see how long you can walk or how far you can walk without becoming tired. Next take two five grain tablets of NUXATED IRON three times per day for two weeks. Then test your strength again. You will see how much you have gained. Many people have made this test and have been astonished at their increased strength, vim and energy. Nuxated iron is guaranteed to give satisfaction or money refunded. Ask for good druggists.
