WANT ST. JOHN RIVER DREDGED

Fredericton Sending a Delegation to Ottawa to Urge Work

YEAR'S FIRE RECORD

Losses at Capital Heaviest for Long Time—Kingschar Farmer Out \$750 By Debit of Reciprocity—Stanley Postmaster is Dismissed

(Special Times) Fredericton, N. B., Jan. 3.—The city council appointed a delegation to proceed to Ottawa and urge upon the federal government the necessity of dredging the St. John river.

The annual report of Chief Engineer Rutter, submitted to the city council last evening showed fire losses last year to have been the heaviest for many years. The total was \$26,322, which is largely accounted for by the fire which damaged Christ Church Cathedral and the New Brunswick fundry. The average loss for the last twenty-eight years has been \$7,000.

Councillor Talbot C. Brown, of Kingsclear, has raised \$750 barrels of potatoes from fifteen acres of land. He obtained a special price for the potatoes, but estimated that he is out of pocket just \$750 on account of the deficit of reciprocity.

At a meeting of the Curling Club last evening J. H. Hawthorn and S. Dow Simons were elected skipper for rinks which are to play the Scotch curlers in St. John.

Harry Malone, postmaster at Stanley, has been dismissed and the job given to James Frigate. The dismissal of the incumbent is attributed to the fact that at a recent meeting of Conservatives called to consider his case, nineteen out of forty-two voted against reappointing him.

At a meeting of the Fredericton hospital trustees yesterday Judge Barry was elected president and A. A. Sterling vice-president. A meeting will be held soon to consider a treaty on the board named by the royal A. H. Fitzandoh to St. John.

CIVIL WAR THE BREAK

Situation in China is Reported to Be

PREMIER MONARCHY

Yuan Has Refused to Carry on the War Today's Despatches From Peking—Meanwhile General Situation is Chaotic

(Canadian Press) Peking, Jan. 3.—China's destiny must be worked out in blood after all. The hopes for a national convention which would settle the future form of government for the country, have vanished and civil war is impending. The situation is indeed desperate, and no ray of hope is apparent at the moment to lighten the dark clouds.

This unhappy outcome of the four weeks of negotiations between the government and the republicans is immediately due to Premier Yuan Shi Kai's determination to support the monarchical principle and there is no reason for suggesting that he decided in favor of other causes than those mentioned.

On visiting the palace yesterday, the premier made the demand for the imperial army to the effect that the slow pace of the government and the republicans should give up some of their vast hoards of gold to enable the government to carry on the war, as they "generally were opposed to a republic."

He received a contribution to the war fund and reported of 10,000,000 taels (about \$1,000,000), and Prince Ching, the premier's brother-in-law, reported that he had received 5,000,000 taels. The total amount of gold is estimated to be between 30,000,000 and 40,000,000 taels.

An important deal in East St. John real estate is reported to have taken place last week by which a syndicate headed by Thomas Bell of this city has secured possession of six acres of land on the farm at Crouseville. The price is reported to be between \$30,000 and \$40,000.

The property faces on the Major Road adjoining, and to the north of, the Boy Industrial Home property, and almost directly opposite the Municipal Hotel. It is right in the area which will be affected by the harbor improvements which are to take place at Courtenay Bay and on this account is regarded as valuable. Addition to this is the fact that the property is situated on the line of the Northern Railway, the real purchaser of this property is looking forward to establishing their own at this port.

Government Prosecutor Says Labor Leaders Did Not Aid in Clearing Up Dynamite Conspiracy

NO HELP GIVEN

(Canadian Press) Indianapolis, Ind., Jan. 3.—"No union leaders, not even Samuel Gompers, head of the American Federation of Labor, have lifted a hand to help us in clearing up the big dynamite conspiracy, either before or after the McNamara confession at Los Angeles," said Oscar Lawler, special government prosecutor for the district of Southern California today. He and John D. Fredericks, prosecuting attorney of Los Angeles, conferred with Charles W. Miller, United States attorney, before the federal grand jury of this district resumed its inquiry into the alleged conspiracy.

Lawler asserted that though union labor leaders were quick to denounce the McNamara confession, and that every effort has been made to prosecute all guilty persons to the full extent of the law, no one has volunteered to get from the McNamara the results of the alleged conspiracy in which they figured.

"Some of the coast labor leaders even interfered with the progress of our investigation at Los Angeles," said Mr. Lawler later.

He was shown the statement of Clancy in San Francisco that Lawler tried to interview him. Lawler's only comment was that the remark sounded like a man who was being "squeezed very hard."

On visiting the palace yesterday, the premier made the demand for the imperial army to the effect that the slow pace of the government and the republicans should give up some of their vast hoards of gold to enable the government to carry on the war, as they "generally were opposed to a republic."

British Shipping Men Refuse to Believe That Washington Has Such Intention—Post Declares Discrimination is Against Hay—Paucetote Pact

VIOLATION OF TREATY

(Canadian Press) London, Jan. 3.—The Morning Post has started a strong agitation against the proposed proposal of the United States government to grant preference to American shipping in the Panama canal. It devotes three columns and a long editorial this morning to that subject. It declares that such discrimination would be a violation of the Hay-Pauncetote treaty and says: "By no sophistry can the American government pretend that it is not bound by the terms of the treaty. An evasion of the obligation into which it entered would prove to the world that its pledges are meaningless."

The Post gives interviews with various shipping authorities in different parts of the world, most of whom refuse to believe that the Washington government has such an intention.

Sir Walter Runciman, senior partner of Walter Runciman & Co., of Newcastle-on-Tyne, and London, thought that if the report were true, the British government had been caught napping, but he doubted if such discrimination, even if adopted, would have the expected result of encouraging traffic in a manner to make the canal pay.

J. H. Turner, senior general for British Columbia, agreed that it would be a violation of the treaty and would seriously injure British Columbia. It would also injure the canal itself for many years, until the United States had built up a merchant fleet.

Attempts to End Life by Cutting Throat with Scissors

ATTEMPTS TO END LIFE BY CUTTING THROAT WITH SCISSORS

Smiths Falls, Ont., Jan. 3.—A young man named Hugh Mason, created a disturbance on the C. P. R. express from Montreal last night, and was arrested on the arrival of the train here. He was placed in a cell and twenty minutes later, when a policeman returned to speak to him, Mason was found lying in a pool of blood. Examination revealed the fact that he had made a determined effort to commit suicide with a pair of scissors.

The young man was almost completely severed. He was taken to St. Francis hospital and after a few hours' treatment he was apparently out of danger. He is twenty-eight years of age, and is of respectable appearance.

The Post gives interviews with various shipping authorities in different parts of the world, most of whom refuse to believe that the Washington government has such an intention.
