## PROGRESS OF THE CITY INVOLVED

### Must Control Musquash Current—Momentous and Far-reaching Issue.

A business man of standing in the city has sent the following communication to the Times-Star:—

"The question at issue, which has been so courageously and persistently advocated by the Times and Telegraph, and which apparently is overlooked by the rank and file of our citizens, is 'The control of the electric current generated at Musquash.' This is the main point at issue and of the most vital importance. It is the plain duty of our present commissioners to sign a contract with the New Brunswick Electric Power Commission at once, without further delay or quibble. Our commissioners seem actuated by a do-nothing policy, and seemingly relegate the important responsibilities given them by the taxpayers over to the mayor. Whether they are actuated by a sense of their own unimportance, fear of others in authority

or expediency, a discerning public which just now has a watchful eye on city hall will no doubt judge. "The main object of the enemies to the city getting control of Musquash power is to cloud the issue. The more dust that can be thrown in the people's eyes, the more public attention is attracted to side issues which have no bearing on the real issue, the happier they are, and the greater need of vigilance on the part of the taxpayers. The tactics of the opponent in this matter are worthy of a better cause. The blandishments of the enemy of our race to old Mother Eve seem crude in comparison to the insidious manner in which these oily gentlemen are endeavoring to hoodwink the unsuspecting taxpayer of our fair city. They leave no stone unturned, no sinister device untried, no method too despicable, to accomplish their infamous desire. "The action of our present mayor admits of no excuse. He has not guarded the trust reposed in him before his election, and a public which may be fooled

Put one on-- the pain is gone!

some of the time cannot be fooled all the time, but will consign him and all others who would surrender a valuable weapon, with which the city may fight its battle with an unscrupulous corporation, to the limbo of forgetfulness."

### PROHIBITION NAVY FORMS BLOCKADE

#### Activities of Rum-Runners Halted on Detroit River.

Detroit, Aug. 25.—Ecorse is blockaded by the "prohibition navy" and rum-smuggling between the Canadian shore and down-river villages has ceased, according to Royal E. Decker, assistant prohibition director for Michigan. Two federal speed boats with armed crews and one state launch have patrolled the river front at Ecorse without respite since midnight Thursday, and since that time no beer or whiskey has been landed in the down-river suburbs, Decker said.

Confirmation of the prohibition director's assertion came from men familiar with Detroit's liquor supply. They said that the hot-wave thirsts had exhausted the supply of Canadian beer in Detroit, and no new importations had been received during the last forty-eight hours. Many places where beer has been sold recently were closed today. Two launches which attempted to run the blockade were captured Friday night.

### GIRL BEATS OUT FLAMING CLOTHES

#### Saves Life of Young Electrician and Then Applies First Aid.

New York, Aug. 25.—In beating out the flames which made a human torch of Irving Jaffe, and in applying prompt first aid remedies, Edith Wilson made a heroine of herself and saved her fellow worker's life. Miss Wilson is twenty years old. Jaffe is twenty-one.

Miss Wilson, who is a bookkeeper, was at work in the front part of the ground floor of the building. Jaffe, an electrician, was busy in a rear compartment. Just before noon Miss Wilson was startled by a cry from the electrician, who staggered through the door a moment later a mass of flames. Miss Wilson snatched up two towels and a coat lying on a chair near her desk, and, first using the towels, quickly beat out the flames and then threw the coat around the electrician, who fainted from pain. The bookkeeper then ran into a grocery store next door, jumped on a counter, seized a can of olive oil, picked up an opener as she ran out, and by the time she got back to the side of the injured electrician had opened the can.

After she had applied olive oil to the blistered face, neck and chest of the young electrician, she found Policeman Murphy of the Oak street station, who called an ambulance from St. Vincent's Hospital. Dr. Hearn told Miss Wilson that if she had not worked with speed in extinguishing the flames before they reached Jaffe's lungs and if she had not used great judgment as well as speed in giving first aid, the electrician would have been beyond medical aid when the ambulance arrived. Jaffe explained that the torch he was using exploded.

Sir George and Lady Foster are in Roumania, where they are being honored by the Queen of Roumania. Queen Marie was an English princess.

### QUITE ORIGINAL BUT "ALL WRONG"

Tries Passive Resistance to Get Five Cent Street Car Fare.

Chicago, Aug. 25.—Michael Turokovich was told in plain words by a judge that his method of campaigning for a five-cent street car fare, while quite original, was "all wrong."

Turokovich dragged a bed across the car tracks and retired to peaceful slumber last night.

A sign said he'd move when the nickel fare was granted.
