Varnish,

Hinges,

Brushes,

Locks,

White Lead,

Coal Grates.

Dry Colors.

**MILL-SAWS, CORDAGE, COIL-CHAIN.**

**LOCATED IN TORONTO AND HAMILTON.**

THE design of this Institution is to educate young men for business, and prepare them for the practical duties of accountants, by giving them a thorough and practical knowledge of business life and business habits. THE BRITISH AMERICAN COMMERCIAL COLLEGE is the only Institution in British America where the Great System of Actual Business is thoroughly and systematically carried out. By this system the Student becomes an Actual Merchant, Recording in the Day-Book, Cash-Book, and Bill-Book, the day's transactions, Journalising and Posting the same, thus obtaining a clearer and more perfect knowledge of the science of Book-keeping, than mere theory can give. A Young Man graduating at this Commercial College, is examined and his Diploma signed, by a Board of Examiners, composed of Practical Business Men, a sufficient guarantee of efficiency and employment.
