try and Europe are contributors. Every number has
16 imperial pages, embellished with fine Engrav-
ings of Machinery, New Inventions, Tools for the
workshop, Farm and Household Engineering
Works, Dwelling Houses, Public Buildings.
A Journal of so much intrinsic value, at the

with long words or dry details.

To Inventors and Mechanicians
this Journal is of special value, as it contains a
weekly report of all Patents issued at Washing-
ton, with copious notices of our leading American

Scientific American are the most Extensive Patent

ties for getting a new idea, the knowledge of the
progress of invention and discovery throughout the
world; and with a view to mark the quarter
of a century, during which this Journal has held
the first place in scientific and Mechanical Lite-
rature, the Publishers will issue on January first
the large and splendid Steel Engraving by John
Bartlett of Philadelphia, entitled:—
"Man of Progress—American Inventors,"
the plate costing nearly \$1,000 to engrave, and
contains nineteen likenesses of illustrious Ameri-
can Inventors. It is a superb work of art.
