The secretary at War in his report has recom-mended the dismemberment of Eastern Virginia, and the parcelling out of its territory among the States of Western Virginia, Maryland and Dela-waro. He says :--

States of Westarn Virginia, Maryland and Dela-waro. He says :-The geographical position of the micropolia ed-be defended by thousands of our troops, induces me to suggest for consideration the popyrity and expediency of a reconstruction of the boundaries of the States of Delaware, Maryland and Virginia, Wisdom and true statesmanship would dictate that the seat of the national government, for all time to come, should be placed beyond reasonable danger of seizure by enemies within, as well as from exp-ting by the sole, and the state that the seat of the national government, for all time to come, should be placed beyond reasonable danger of seizure by enemies within, as well as from exp-ting by the sole of the sole of the sole of the purposes, by Michigan and Ohio, and by Missouri and Lows, their boundaries could be so changed as to ender the capital more remote than at present rarryed themselves in rebellion against the federal authority. To this end, the limits of Virginia might be so altered as to make her boundaries counties of the Blue Ridge on the east and Termsylvania on the north, leaving those on the south and west as at present. By this arrangement to vice the boundaries to that portion of Virginia witch these between the balae Ridge and Chesapeake Bay could the transferred to the jufadiction of Virginia. All blue Ridge and Chesapeake Bay could the the balae Ridge to diversite of the day boundaries, which, for all he fatantic, now jointly held by Maryland day diversite, our construction of the inge accession of hereits, or make the protection of the gen-natule between the waters of the Chesapeake and he fatantic, now jointly held by Maryland day diright, could be incorporated in the fister of Delaware. A reference to the map will show that these are great natural boundaries, which, for all here to come, would serve to mark the limits of these States. To make the protection of the capi-al complete, in consideration of the large accession of the rithory which Maryland would recive under he arrangeme

Acadia College,

The friends of education in the Lower Provin ces will all be deeply gratified to learn of the continued success of Acadia College. For that Institution we can safely claim a support beyond

the bounds of any one denomination. The extent of its course, the liberality of its system, and the number and character of its Professore, entitle it to a yet greater increase of students. The choice of Dr. Pryor for the Alumni Pro-

fessorship will not fail to increase the reputation of the College. The important chair of meta-physics and Belles Letters will be filled by one who is every way competent to discharge the ties of that office, and the well known character and ability of that gentleman will be a guarantee of greater efficiency. The prospects of the Institution are very en-

Acadia College has not yet received from this province that share of support which its people are both able and willing to bestow. This does, not arise perhaps from any lack of genero i'v. or intelligence, but from the fact that its claims have not yet been fully and earlesily placed We should like to see a strong before them. and united effort made in its favor ; agents be sent around to all the churches, and

Provincial Education.

This subject is one which must ere long force itself upon the attention of our legislature. It seems to us that the education now furnished, if it does not cost more than it is worth, costs far more than would suffice to provide a better article. We want a system which will do justic to all, and bring education within the reach of The following article from the Albion Indicates the evil of the present system, and points out the course which must be pursued.

"The question of Education in the Province of New Brunswick is one which must be thoroughly discussed. At present the schools are in a very unsatisfactory state. Practically poorer districts are deprived of means of education, and denominational grants are not meted out with any fairtess. The quality of the instruction in many of the seminaries is not satisfactory ; and there are matters connected with the training-school which would need reform. We believe that the whole s subject of Education requires revision.
