at Fredericton, for Holifax. The Head Goar
of this fine Regiment arrived in the steamer;
Branswick on Monday Inst. and protected the
lowing day for Haifax, vis Windson; in the stea
Nova Scotia. On Translay another detach
arrived from Frederiction, and proceeded yestemorning in the same steamer for their destinati

CONCERT — On Thursday evening last a Con
of Vocal and Instrumental Music was given by
Sacred Music Society of this city, in the Mecha
Hail. His Excellency, Lady Colebrooke and fa
honoured the Concert with their attendance, a
number of admirable pieces were performed
style that called forth the admiration and apply
of the andience. Mesers, Hathoway, Foster,
Miss Reed performed Solos, which received
marked approbation of all present, and appears
be, highly appreciated by his Excellency and L.
Mr. Reed's performance gave great satisfact
and indeed was highly creditable to the syoung I
heredi. We congratulate the Society on t
having obtained so great an acquisition to their
mer strength, as she promises fair with a lutte o
practice to become a maximum star in the ga
of our Provincial Vocalists.

A Good Old Custon Revised.—To the pa

A Good Old Custon Revived.—To the part who stand at the head of our Hymeneal List in impression, we beg to tender our thruks for a of Gloves, pertiamed by the breath of the Lady, bound by the "happy man" with white "I Ribbon." This is indeed, a much more class way of complimenting the Printer, than by senhim a piece of greasy cake, and will enable m be "hand in glove" with a good old custom, tender our warmest wish for their lasting happing

The Histrionic Society, in order to contribeir portion to the numerous accusements of week, performed last evening at the theatre, andience on the occasion, was numerous and performance very creditable.

Young Saunders, who recently obtained so is an amount of money from the New York Baby forging Austen, Wilmerding & Co.'s check appears missed his passage in the Great West and was arrested in Boston, on brard a ye bound for New Jrleans.

WESTPORT:

WESTPORT:

The Frame of a new Church was red at this place on Wednesday last, corner stone having been first laid. Charles Jones, Esquire, of Halifax, theing for many years an inhabitant of island, has taken a lively interest in sucred work. The religious services whereformed upon the spot, in the prese of a large assembly, by the Minister Dighy and Weymouth; the prayers the Rev. Mr. Snyder, and the sermon the Rev. William Bullock, upon the we "It is good for us to be here." Previto closing the Mason's work, a square was embedded in the stone contain a suitable inscription, several coins of was embedded in the stone contain a suitable inscription, several coins of present reign, recent numbers of ".' Church," and of periodicals published the Diocese, Times, Chronicle, and Crier. The building is to be called "Church," and will contain 300 people It is a subject of congratulation that a being many years deprived, the member of the Church (who with all things aga them have continued faithful) will be their peculiar place of worship, and trust the time is not far distant when it fidelity will be rewarded by a regular nistration of the Word of God and Sacraments: the Church will then it craments : the Church will then b blessing to the people, and the build with its tower and spire will add gre-to the beauty of this fine and promise settlement, which already contains al

Asiner, John M Garrigle, of st. John, inn-ke Lisha Broad, Wickham, Queen's county, fat (From the Alton Telegraph of 19th August Care of Excessor of a Werk, without Pat the Messeric Stare,—This operation was formed by Doctor Berjamin P. Edwards, at hidenee in this city on Tuesday morning last, i presence of a number of speciators. The pis a young lady about 18 years of age, the day of the pattern of the pattern of the pattern of the pit was one inch and seven-eights in length binch and five-eight in width; the upper part being just opposite and near the opening of the Leomanneed forming when she was two year and has been gradually increasing. Several maince, she applied to Dr. Edwards for advice gard to having it taken out. He then inform that if he could succeed in placing her in a meric state he could remove the wen without. A few subsequent experiments convince Doctor that Miss-Eyros was ansceptible of the meric influence to a degree sufficient to warrar to attempt its removal in this state, of which she accordingly informed. Circumstances, how prevented her at that time, from submitting to operation, and for some months past she has reading at Springfield. Her great desire to the wen removed, and from the fact that it we coming painful, induced her to return for the pose of having it taken out. The patient had considerably agitated during the morning, was seated in a room in which there were a her of gentlemore, most of whom were straigher, and Dr. Edwards placed her under the main straight of the morning that the was in a profound sleep, an ir was made one inch and three eights in length to meaning that the was in a profound sleep, an ir was made one inch and three eights in length to meaning the free mining that the was in a profound sleep, an ir was made one inch and three eights in length to meaning the free mining that the was in a profound sleep, an ir was made one inch and three eights in length to meaning the free mining that the was in a profound sleep, an ir was made one inch and three eights in le
