

HAD A DREADFUL COUGH FOR OVER SIX MONTHS

Thought it Would Turn Into Consumption

Miss Jane Donnette, Pointe a la Pique, Que., writes: "Just a few lines of praise I must write on account of your famous remedy, Dr. Wood's Norway Pine Syrup. I had been suffering from a dreadful cough, for over six months, and tried everything but in vain. I thought it was going to turn into consumption. A friend happened to come to my house, and was so frightened when he saw me he nearly dropped. He asked me what I was taking, so I showed him some medicine I had, but he said for me to try Dr. Wood's Norway Pine Syrup. I bought a bottle and before it was finished I was well, and did not cough a bit. I will recommend your medicine to every suffering friend, for I know it will do good to them just the same as it did me." See that you get "Dr. Wood's" when you ask for it. Do not accept any imitation. Price, 25 and 50 cents. Manufactured only by The T. Millburn Co., Limited, Toronto, Ont.

GOV. WILSON'S MESSAGE TO THE ELECTORS

Continued from page one. of those who use credit produce the crops, manufacture the goods, and quicken the commerce of the nation, rather than in the interest of the banker and the promoter and the captain of finance, who set off by themselves in the management of such things, too easily lose sight even of their own intimate and inseparable relation to the general needs and interests of the rank and file. Foresters must be renewed, and mines and water courses must be husbanded and preserved, as if we were trustees for all generations, not merely for our own, for the sake of communities and nations and not merely for the immediate time keep them free and unhampered, its eye always on the common use and purpose, its thought constantly of what will happen to the average man and of what will be prepared for the next generation. "We must consider our foreign po-

key upon the same high principle. We have become a powerful member of the great family of nations. The nations look to us for standards and policies worthy of America. We must shape our course of action by the maxima of justice and liberality and good will, think of the progress of mankind rather than of the progress of this or that investment, of the protection of American honor and the advancement of American interests rather than always of the interests of the government. We must devote the power of the government to the service of the race and think at every turn of men and women and children, of the moral life and physical force and spiritual betterment of those, all of those for whom we profess to have set government up.

Only Way. "None of these high things can be done, because none of them can be conceived, from the point of view of those who at present exercise power over us at Washington. No established policy of the Republican party can be used for such ends. The black magic of campaign funds cannot work these miracles. The government at Washington has not in half a generation conducted from the point of view or for the counsel of the nation as a whole, but by the advice and with the consent of those who have extorted special favors from it, a very small number of persons with their own objects constantly in view, it may be unconscious of their selfishness, certainly unconscious of the interests of the vast majorities whom they ignored. The great task that waits to be done can be done only by a free government with its eye upon the whole people and such a government we have not had since the Dingley and Aldrich tariffs began to be built up. The Democrats of the present have to multiply under the very prohibitions of the law. The Republican party is irrefragably opposed to the direction in which the country has already perceived this. Everywhere there has been a steady gathering revolt by the best elements of the party. The Democratic governments are now under Democratic control. In the legislative branch the Republicans by a majority of 200. Seventy-three of the 120 chief cities of the country have Democratic mayors. There are now 227 Democrats in the national house of representatives. The third parties will be a very small volume. Only the presidency and the senate lift their heads a little above it, those citadels of power which the constitution makes it hardest for the people's majorities to capture and occupy. Until these are taken, the great task of putting the government at the service of the people.

Move Forward. "Shall we not move forward to the final conquest? An organized, united, and enthusiastic force stands ready, the only united and militant force to which the people can turn with any prospect that they will be served, promptly, effectively and upon a clear principle of action—the great Democratic party, now at last solid and of clear purpose. To it all who are full of hope and of the vigor that makes tomorrow are flocking—the young men of the nation, the noble and devoted women who wish to see better days for their children, and for all who are oppressed, the men who never grow old but always press forward to the conquest of the future. Education—Mrs. G. A. Kuhring, vice-president, convener. Immigration—Mrs. J. H. Frink, convener. Lady LaTour—President Mrs. E. A. Smith, convener. The and in haste, but the men, not like children. It is a great day and a propitious one. The responsibility is ours and we shall assume it knowing what it means. The declaration of the 6th of November will usher in, if we be true, a new day of confidence, freedom and prosperity. It will be no niggardly triumph of a party or a faction, but the triumph of a people. The Democratic party will be, not the selfish victor but the trusted instrument, and the years that follow will test every principle of the great republic. God grant we shall be worthy to prevail." CHURCH WIPED OUT

Exmouth St. Methodist Church Pays for New Organ at Yesterday's Services—One Member Gives \$800.

Yesterday will long be remembered by the members of Exmouth street Methodist church, for the session which a debt of \$1,500 was wiped out besides \$100 additional being raised. During the past summer the church has received a thorough renovating and a new organ has been installed at a total cost of \$1,500. At the time that debt was incurred a gentleman who, during his youth, had been a member of the church, stated that he would donate \$800 toward the expense of the new organ. The congregation raised the remainder. The congregation at once took up the offer which was received last evening after the collections were made and counted it was found that amount needed and an additional \$100 had been raised. Needless to say the pastor, Rev. W. W. Brewer, and his congregation are delighted with the success of their efforts. The sermon yesterday morning was preached by Rev. Neil McLaughlin, of Fredericton, who is the president of the Methodist conference. Rev. Mr. McLaughlin took for his subject "The Superiority of the Spirit toward the World." He delivered an eloquent and powerful address, which was greatly enjoyed by the large congregation present. The program is as follows: Tuesday, November 5th. 10 a. m.—Celebration of the Holy Communion in Trinity Church, after which the Synod will meet for business in the school room.
