Enterprise, Kas., Jan. 23.—Mrs. Carrie Nation began her crusade here today, demolishing a saloon and delivering a street tecture. She arrived on an early morning train. Early in the morning a temperance meeting was held, attended by many women. Mrs. Nation then, armed with a hatchet, started for the business part of the town, accompanied by several other leaders in the W. C. T. U. They went to Schilling's place, where Mrs. Nation smashed the glass out of the big mirror, chopped gashes in the bar and broke all the glasses and bottles on the she'ves. Then she went to the refrigerator and took out cases of beer which she dropped on the fioor, breaking each bottle. This she kept up until Marshal W. R. B. Ruins Made to Order.

There is hardly anything in the way of altering the face of the earth that the land-scape gardener cannot carry out successfully, and any one who cares for a section of the Alps in his back garden has only to order it. The much admired ruins at Virginia Water, which many people think are genuine, were all carefully placed in position by a firm of landscape gardeners, and there is in Shropshire a model of the world renowned Falls of Geisbach, water and all, which owes its presence to the same art, and a great many Monotonians have had in Shropshire a model of the world renowned Falls of Geisbach, water and all, which owes its presence to the same art, while in Hertfordshire is a Norman castle at touch of the disease during the winter. In a most orthodox state of ruin, but built the malady has been more prevalent than by a Sussex firm. Cliffs can be and have been made, and a lake with a few islands have occurred from the disease, yet there have been made, and a lake with a few islands have occurred from the disease, yet there have been more prevalent ways.

CATARRHAL DEAFNESS.

There never will be a treatment for Deaf There never will be a treatment for Deaf-nes that will cure all cases. Such a thing is ridiculous and impressible. There never will be a treatment that will cure every case of any disease. The treatment that cures the majority of cases of any diseased condi-tion is a great boon and a godsend to men. Nearly every case of deafness results from catarrh. Many, many are the patients af-flicted with deafness that I have cured after they had tried ear specialists in vain, simply by curing the catarrh.

Very many who have been deaf for years can be entirely cured, and still many others who are rendered by their deafness totally unfit to transact business, or have intercourse with their friends, can receive enough benefit to make them useful citizens, and a comfort and a blessing to their homes, and the community at large.

Therefore, TAKE NO RISK! Do not let a trouble of the ear of any kind run on from week to week, month to month, or perhaps, year to wear, until the parts are so completely destroyed that there is little hope of regaining this valuable and important sense. Do not listen to the advice of those who
