2 2nd June, 1863.

REAPER AT WORK.

THE Subscribers beg leave to call the attention of the FARMERS to the Buckeye Mower and Reaper manufac-

Of the improvements deserving special mention, are;—The addition of a lever at the side of the Driver, by means of which the machine may be instantly thrown in or out of gear—without the stopping of the team—The use of CAST MALLEABLE FINGER-GUARDS, lined with a Steel plate, and which with the knives cutting against, secures a perfect shear-cut, and prevents any possibility of clogging, in any kind of grass.

As a REAPER, the important improvements that have been made may be seen from the above engraving. The Platform is of a circular form. The Raker is placed on the Machine, on a comfortable seat, his weight directly on the axle of the Machine, where it is most easily carried, and does away with all side-dreft; and, with a Rake of peculiar construction, he can by an easy and natural movement of the arms, leave the grain in a good condition for binding and entirely out of the way of the Machine on its succeeding swath.

By the use of an overbanging Reel, the outer Ree! support is dispensed with and the objection of dragging the cut grain obviated. To parties intending to purchase for the coming Harvest, we would advise before giving their orders, to examine our Machines, as we have no hesitation a stating that they are the BEST ever before offered to the Farmers of Central Canada.

We would also call attention to our DOUBLE GEARED HORSE POWER THRESHING MACHINES [sizes, 4 to 10 horse power] and from our long experience, our determination to make each article the best of its kind, in the regularly increasing popularity of our machines, wherever they are used, and in our unrestricted warranty, we trust the public will continue to find be strongest guarantee that can be given, that our Machines are UNEQUALLED IN THE QUALITY OF THEIR WORK DURABILITY, CONVENIENCE AND CHEAPNESS.

Smith's Falls, July 3rd, 1863.

FROST & WOOD. 43-tf

BUCKEYE MOWER WITH CUTTER BAR RAISED TO PASS AN OBSTRUCTION.

To the Farming Community and all whom it may Concern:--WE BEG to call attention to our BUCKEYE MOWER AND REAPER of for the coming Harvest. Its unpract success and rapid sale is a convincing proof of its sup riority over all others. We have added several valuable in provements since last Harvest, and ranges to purculasers the most perfect MOWER AND REAPER ever before offered for sale in Canada. Farmers wishing to procure Machines will ple of immediately. Circulars with full description and testimonials forwarded by Meil.

We also beg to call particular attention to our EIGHT HORSE POWER THRESHER AND SEPARA FOR that stands unrivalled for Threshing among grain at one operation.

Our DOUBLE PINON HORSE POWER is was SEPARATOR for the coming ceases will be superior is bility, effective operation, or style of faith.

Their superiority over other machines consists in the best of Fanning Mills, leaving the grain fit for mill of
