

WAR NEWS.

Baltimore, Sept. 18.
There is much alarm at Marlborough and Winchester about Gen. Banks crossing the Potomac with 21,000 men. The rebels had sent to Johnston for assistance.
Reliable accounts from Winchester state that the Railroad between Strasburg and that place is not being built, as reported, and that the rails taken up are to be used for laying a line from Richmond to Manassas. It has hitherto required three days for the transportation of troops between these places.

Washington, Sept. 19.
The Herald's correspondence says that General McClellan and several of his staff, this afternoon, went to examine our earthworks garrisoned by a portion of General Franklin's command. While reviewing the enemy's position, General McClellan discovered some of the enemy's army approaching about two miles distant. He immediately ordered several rifled cannon to be put in position, and sent his compliments to the Confederates in the shape of a 20-pounder shell that burst in their very midst, producing the wildest consternation.

The whole force was seen to scatter and fly. There is no doubt that a large number were killed. The enemy did not return the fire. Gen. McClellan after disposing of this advancing force of Confederates, directed his attention to a new battery recently thrown up by the enemy a short distance south of Munson's Hill, which was the scene of the late works, causing some of the hands to knock off. They were evidently surprised by this sudden opening of our batteries upon them as they suddenly disappeared and did not return the fire.

A deserter from the Confederate camp at Munson's Hill, came into our lines to-day and was immediately conveyed to General McClellan's headquarters. He states that General Beauregard and Johnston were both at Munson's Hill yesterday and made a thorough reconnaissance of our position.

He says there are only about 1,000 soldiers at Munson's Hill, and that the main body of the troops are at Fairfax and Centerville. He says that Jeff. Davis was at these two points on Tuesday last, and reviewed the troops in person. He says he saw Jeff. Davis at Munson's Hill yesterday, examining our works with a glass.

He does not think from all he has seen and could learn, as a private, that there are over 100,000 men at all these points; 15,000 were reported to have been sent from Manassas a few days ago, to north-western Virginia. When asked if he thought the Confederates were going to make an attack on our lines, he replied that they were daily expecting an attack from our force. He says distinctly that he never heard the intention expressed by the Confederates of making an attack on our intrenchments.

WEEKLY COMMERCIAL REPORT.
The trade of this week has been active at advance rates for breadstuffs and wheat; owing to the news of a similar advance in the English market.

We are doing business at present in a very bare market, which must be supplied soon. The fall stock is now near by all here and will be reaching London in a few days at low rates. Exchange on London is advancing. There is very little sound Canadian flour in the English markets; putting all these circumstances together, we think it not unreasonable to hope for a steady market at prices ranging very close to those obtained in England.

Flour.—No. 1, is most in demand. Sales are made to-day at \$4.35 and for a choice brand \$4.40 to \$4.45. Holders are refusing to sell at less. No. 2, is also in demand at \$4.30 to \$4.35. Fancy very little offering or selling, quotation \$5.10, extra \$5.60 to \$6.00. Stocks of all kinds are very light. We have to mention that a great deal of flour coming in just now is rejected, being found musty and otherwise unsound.

Wheat.—The transactions at present are principally for future delivery—there is but little arriving at present. U. C. Spring is sold at 98c. to \$1.05 to arrive; good samples ex. car, bring 96c. to 98c.

Pears.—Are wanted, clean samples bring 70c. per 60 lb.

Oatmeal.—Of an inferior quality; choice brings \$3.75.

Pork.—Is dull, and selling principally in retail lots. Mess \$16.50. Prime Mess \$14.00. Prime \$12.00 to \$13.00.

Butter.—Continues in a good demand for a good article in shipping packages, (Kefer) and in small tins, at 12c. to 13c.; inferior 8c. to 11c.

Askes.—The demand for Pearls is steady here. Our English letters speak of Pearls as declining, partly under the impression that there are a good many being made; and that orders can be filled later on, at less money. Our speculators seem to think differently. Our stock of pots are at \$5.75 to \$5.80. Pearls \$6.50.

N.B.—Many manufacturers of Potash, are in the habit of covering them over with dry ashes or lime if they have not got a barrel ready—this is injurious; it spoils the color on the outside, thus giving good clear pots a bad appearance. Have your well seasoned barrels of oak or white ash ready, then as soon as the ashes are cool, put them in and cover the barrel up tight, and you may rely on getting every advantage that the inspection can give.

W. & T. LEEMING,
COMMISSION MERCHANTS,
28 St. Nicholas Street,
Montreal, September 19th, 1861.

On Friday night, some men employed on the steamer *Lander*, now undergoing repairs in Goderich harbour, heard a heavy splash in the water, and immediately afterwards perceived a man floating in the river. They threw him a rope and called to him to catch hold of it, but received no reply, nor did the man make any exertions to save himself. They then got into a boat and pulled for him, but he sank before they reached him. The body was not recovered until an hour afterwards, when it was found to be that of a young man named John McKenzie, who for a few days previously had been in the employ of Mr. D. McNamee, merchant, of Goderich. On account of circumstances which transpired at the inquest, the jury rendered a verdict "that the deceased came to his death by drowning while labouring under a temporary fit of insanity."

The Pile (Scotland Herald).—In a paragraph dated from Newburgh, says that the salmon season in the Tay, just closed, has been the worst remembered in that quarter. Not a single station has paid its expenses—the loss to the Newburgh fishers is estimated at something over £1000.

A petition, largely signed by the inhabitants of Newfoundland, is about to be presented to Her Majesty the Queen, praying for the removal of Sir Alexander Bannerman, as Governor of the Island.

A desperate character, named Martin King, recently out of the Provincial Penitentiary, has been arrested in Montreal on the charge of severely assaulting and beating an artilleryman.

A herring, measuring 18 inches by 10 in circumference, was caught the other day in the trout net at Laxey, Isle of Man. It weighed two pounds.

UNPLEASANT VISITOR OF THE STEAMERS OF CHESAPEAKE.—On Sunday week, a young lady was gathering flowers in a garden, at Bradford, when her attention was attracted by a bee, and she went to catch it. She was, however, severely stung, and had to take to her bed. It was expected that she would quite recover in a few days.

The body of a man was found beside the Great Western Railway track, near the Stamford Junction, on Tuesday morning last. It is supposed he had been walking on the track the previous evening, and had failed to get out of the way of a passing train. A bottle partly filled with whiskey was found in his pocket, and probably threw a little light on the cause of the catastrophe.

The celebrated composer Meyerbeer has consented to write a grand march for the opening of the exhibition next year.

MARRIED.
In Saint James' Church, Carlton Place, by the Rev. Mr. Baker, City, Thursday, the 12th inst., Mr. James Price to Miss Sarah Martin, daughter of Mr. Abel Martin, all of Ramsey.

DIED.
At the residence of Hon. James Shaw, Smith's Falls, on Tuesday the 17th Sept., Frederick Matheson, infant son of Henry D. and Mary M. Shaw. Aged 11 months and 14 days.

At Port Hope, on Friday the 13th September, Lillie Margaret Lathrop, daughter of F. L. Lathrop, Esq., of Brockville, and wife of G. A. Knox Esq., aged 21 years. The deceased was universally beloved, and her death is mourned by a large circle of friends and acquaintances. They do not mourn, however, as those who have no hope; the deceased young as she was, having departed with a sure hope of being with her Lord forever.

In Lyn, Sept. 7th, Olive Haynes, daughter of H. E. and Sarah A. Macdonald, aged 16 years, and 11 months.

At his residence, Elizabethtown, August 29 1861, Mr. David Manhart, in the 81st year of his age.
