Married

SMITH - WATTERWORTH. — At Windsor, on Saturday, October 8, 1921, by the Rev. Anson E. Moorehouse, Charles O. Smith of Glencoe and Mrs. Mary E. Watterworth of Windsor.

Card of Thanks

Mr. John Gould and family wish to express their thanks to neighbors and friends for the kindness and sympathy extended to them during their recent bereavement.

TOWN AND VICINITY

Snow and sleet yesterday—the first of the season.

The school fairs rivalled the "big" fairs in popular interest this year.

Glencoe High School field exercises will be held on the fair grounds on Wednesday, Oct. 19th.

Lawrence Squire has sold his 100-acre farm in Ekfrid to his brother, Morley Squire, for \$9,000.

James Corbett has returned from the hospital in London where he has been undergoing treatment for some time, and we are glad to learn is improving in health.

Rev. W. R. Mackintosh of Napier conducted the services in Glencoe Presbyterian church on Sunday and preached in the morning. In the evening Rev. Mr. Bompas, missionary on furlough from China, addressed the congregation on the work of his field, and afterwards in the lecture room gave lantern views of China, showing many phases of the famine.

At the Young People's Guild on Monday evening a very instructive and inspiring address was given by Mr. Harris, Director of Religious Education, of London. The following musical numbers were rendered: Piano duet by Mrs. H. J. Jamieson and Miss Louisa Luckham; vocal duets by Misses Elizabeth and Mayne Grant, and Lewis Suttler and Mac McAlpine.

Theodore Gray, formerly organist of the Glencoe Presbyterian church, was formally welcomed on Thursday night at a musical rally held in the Robinson Memorial church at London, where he has been appointed organist. Following the rally and musical practice and entertainment, a social evening was held and addresses of welcome were read, to which Mr. Gray responded fittingly.

The Glencoe Presbyterian choir have been rehearsing for some weeks under the direction of Theodore R. Gray for his farewell choir concert to be held on Friday evening, Oct. 21st, in the Presbyterian church. The choir will be assisted by Miss E. King, Miss Ruth Owen, Mrs. G. McCall, Mrs. H. G. Galtbraith, soloists, Theodore R. Gray, solo organist, and a tenor solo from London.

The Methodist League meeting on Monday, Oct. 10th, was decidedly good. It was missionary night and the topic of missions was ably taken by Miss Ella Simson. Miss Pearl George rendered a piano solo in her clever, inimitable way. Next Monday night is to be a literary evening, under the leadership of Mrs. Harold Bechill. The roll call is to be answered by a quotation from some poet. There is talk of a candy lunch. Who knows but it may develop into a reality?

The officers of the Glencoe Rink Company are in receipt of a cheque for \$500 from Mrs. F. J. Carman for a block of shares in this new enterprise. With \$200 previously subscribed by Mr. Carman, this makes \$700 of shares now held by Mr. and Mrs. Carman in the rink. Mr. and Mrs. Carman have always given evidence of their interest in the welfare of Glencoe, and this latest expression of their goodwill is greatly appreciated. Commenced his duties after Mr. and Mrs. Carman had disposed of their old interests here, the contribution is all the more commendable.

There is great activity at the railway yards these days, in shipping apples and sugar beets. The apple buyers have scoured the country pretty thoroughly and have succeeded in buying up nearly all the available fruit fit for shipment. In most cases the buyers purchase the orchards and do their own picking and packing, the owners of the orchards being the fruit to the railway station. Owing to the high price of barrels the apples are being shipped for the most part in bushel sacks. Among the large growers who have sold their orchards are James Lethbridge and Walter Squire, the latter receiving \$2,100 for his orchard of seven acres.

SPECIAL NOTICES

Owing to other business, the prizes awarded at Glencoe Fair will not be paid until Wednesday, Oct. 19th, when the secretary will be at the McKellar House for that purpose.

Found—on or about July 16th, a grey fur stole, on 2nd concession, opposite lot 17, Ekfrid. Owner may have same by proving property and paying for advertisement.—Douglass Sinclair.

THE HORRORS OF INDIGESTION

Relieved by "Fruit-a-lives" the Fruit Medicine

Indigestion, Weak Digestion or partial digestion of food, is one of the most serious of present-day complaints—because it is responsible for many serious troubles.

Those who suffer with Indigestion, almost invariably are troubled with Rheumatism, Palpitation of the Heart, Sleeplessness and excessive Nervousness. "Fruit-a-lives" will always relieve Indigestion because these tablets strengthen the stomach muscles, increase the flow of the digestive juices and correct constipation, which usually accompanies Indigestion.

50c a box, 6 for \$2.50, trial size 25c. At dealers or sent, postpaid by Fruit-a-lives Limited, Ottawa.

Found—a purse containing small amount of money, which appears to have been dropped into a grain sack at Glencoe or Melbourne fair.—Transcript office.

Bargains in socks at Lamont's special sale. All wool English socks, reg. \$1, for 65c pair; heavy all wool farmers' socks, 50c pair; 4 pairs gold medium-weight socks for \$1.

For sale—Art Garland No. 45 base-burner coal stove, also one Royal Oak heater, burns wood or coal. These stoves are good as new. No further use for them as have a furnace.—C. E. Davidson, Jeweler.

On Monday evening, the thirty-first of October, at eight o'clock sharp, the ghosts, witches and creaks are holding high carnival in the basement of the Methodist church for all who wish to have shivers up and down their spinal column. If you want to have a spooky evening come along and bring some cash.

Come to the town hall Friday evening, Oct. 14th, to see the best play of the season, "The Minister of Hushabye," presented by the Thameville dramatic club, under the auspices of the Ross Mission Band. Special attractions between the acts, including vocal solos and a male quartette. Admission 50 cents. Plan at Johnston's drug store.

G. H. S. FIELD DAY

Hurrah for the G. H. S. field day! Come to the field day to be held on fair grounds, Glencoe, Wednesday, Oct. 19, if you want to see good, clean, "peppy" sport. Come one, come all, and revive that never-to-be-forgotten school day spirit. "Ah," someone sighs. "Those were the happy days." When the pupils approach you to buy a tag, do so, and do it gladly. Don't be interested in something in a shop window you have seen hundreds of times before. Buy a tag for the G. H. S., a boost, and leave the rest to them. The G. H. S. is a school with a yell. It can make more noise any time, any place, any where.

PRIZE LIST, GLENCOE FAIR

(Continued from last week)

Lincoln Sheep
In this class Angus McLean was awarded 3 firsts, 1 second and 1 third; D. A. Campbell, 3 firsts, 3 seconds and 2 thirds; Bryden Glasgow, 1 second and 2 thirds.

Royal Purple special for best pair Brown Leghorns—F. & J. Diamond.

People who have been helped by Tanlac are always anxious, and willing to tell others about it.—P. E. Lumley.

The women's rest room inaugurated by the Women's Institute at Ridgetown and supported by town and country alike would seem to be an indispensable asset to the town as it is being largely patronized. Arrangements are being made to heat the room for the winter months.

Sweet and palatable. Mother Graves' Worm Exterminator is acceptable to children, and it does its work surely and promptly.

And there are still quite a lot of people who attend concerts and other public functions who seem to regard the National Anthem as a fire alarm.

The only pleasant thing about the noise of a motorcycle is the rapidity with which it gets somewhere else.

The man who yesterday preferred a savings bankbook to a silk shirt is not knocking at the door of the soup kitchen today.

We don't like to fly in the face of tradition, but it is a fact that there are mothers-in-law who are sweet and motherly fountain pens that work, and collar buttons that never roll under anything.

Handy Household Hints
How to make delicious ox tail soup—Buy two or three medium-sized oxen and remove their tails.
To make sponge cake—Soak one large-sized sponge in water for three hours, mix with flour, then bake.

A fine footbath is an excellent device for removing egg stains from the whiskers.

There are many quaint old customs kept up and phrases in use which body stops to enquire the meaning of. One of these is still in use in the Houses of Parliament in London, England. When the House of Commons adjourns a gentleman goes through the lobby shouting: "Who goes home?" All the members know by this that the business for the day is over.

This phrase, which has but little meaning now, is a relic of the old days when traveling was a dangerous thing. Those days, we hear a lot of "who goes home?" but they seem to have returned to some degree to the war.

In the eighteenth century the streets and roads of London were very unsafe after dark. Footpaths and highways were infested every night. Once King George III had his watch, purse and shoe buckles stolen by a highwayman while walking in the Kensington Gardens, and on another occasion a Prince of Wales and his brother were robbed near Bradbury Square.

So serious was the state of affairs that the members of Parliament returning from Westminster to London dared not venture alone, and so parties were made up. This originated the cry, "Who goes home?" which meant that some members were ready to start and wanted to know who was going their way.

Making Mice Work
Some remarkable discoveries about mice were made by Mr. David Hutton, of Dunfermline, Scotland, who died some time ago. He proved that an ordinary mouse averages a run of ten and a half miles a day; he had one mouse which ran the remarkable distance of eighteen miles in that time. A halfpennyworth of oatmeal was sufficient for its food for thirty-five days, during which time it ran 362 miles.

For more than a year he kept two mice constantly engaged in the making of sewing thread. The thread-mill was so constructed that the mouse was able to twist, twine, and reel from 100 to 200 threads per day.

On the halfpennyworth of oatmeal, which lasted for five weeks, one of these mice made 3,350 threads, each 25 inches long. As a penny was paid to women for every hank made in the ordinary way, the mouse at that rate earned ninepence every six shillings.

Mr. Hutton intended to apply for the loan of Dunfermline Cathedral, which was empty, where he planned to set up 10,000 mouse mills. Unfortunately, this extraordinary project was never carried out, owing to the inventor's sudden death.

Thermostatic Metal.
A new metal that bends when it is heated has just been announced as a British invention. It is called thermostatic metal. It is prepared by permanently uniting throughout their length, strips of the two metals having widely different co-efficients of expansion with heat so that under a change of temperature the combined strip bends one way or the other. The reaction is stated to be always the same, in a strip of given length and thickness, for a given temperature change and thus to provide a reliable basis for temperature indication, control or compensation in even thermostats, electric heaters, ice machines and scientific instruments of high precision.

Children Cry for Fletcher's

CASTORIA

Fletcher's Castoria is strictly a remedy for Infants and Children. Foods are specially prepared for babies. A baby's medicine is even more essential for Baby. Remedies primarily prepared for grown-ups are not interchangeable. It was the need of a remedy for the common ailments of Infants and Children that brought Castoria before the public after years of research, and no claim has been made for it that its use for over 30 years has not proven.

What is CASTORIA?

Castoria is a harmless substitute for Castor Oil, Paregoric, Drops and Soothing Syrups. It is pleasant. It contains neither Opium, Morphine nor other narcotic substance. Its age is its guarantee. For more than thirty years it has been in constant use for the relief of Constipation, Flatulency, Wind Colic and Diarrhoea; allaying Feverishness arising therefrom, and by regulating the Stomach and Bowels, aids the assimilation of Food; giving healthy and natural sleep. The Children's Comfort—The Mother's Friend.

GENUINE CASTORIA ALWAYS

Old straw hats, covered with flowered chints, make novel geranium pots.

RECIPE FOR HOME-BREW

Chase a bull frog three miles and gather up the hops. To the hops add the following: Ten gallons of bed-bug poison, one quart axle-grease, one bar homemade soap. Boil mixture for thirty-six hours, then strain through an I. W. W. sock to keep it from working, and add one grass-hopper to each pint to give it the kick.—(Author still at large.)

Old straw hats, covered with flowered chints, make novel geranium pots.
