

*Repetition Unnecessary.*

Kingston "Whig," Aug. 3, 1916: According to A. C. Clark, a manufacturer of lumber and wholesale dealer in it, the Ontario Government is largely to blame for the holocaust which has recently swept over Northern Ontario. Mr. Clark said that educative campaigns should be conducted among the settlers in these regions. The government is busy in carrying relief to the settlers. The point is that it must get busy in another way and by its vigilance guard against a repetition of the disaster.

*Detect the Fire Early.*

Cobourg "World," Aug. 4, 1916: It is evident that some system will have to be established whereby to detect and to fight forest fires before they assume dangerous proportions. The resources of civilization must be put under levy to protect the settlements.

**YALE UNIVERSITY FOREST SCHOOL**

NEW HAVEN, CONNECTICUT, U.S.A.

**Y**ALE University Forest School is a graduate department of Yale University. It is the oldest existing forest school in the United States and exceeds any other in the number of its alumni. A general two-year course leading to the degree of Master of Forestry is offered to graduates of universities, colleges and scientific institutions of high standing, and, under exceptional conditions, to men who have had three years of collegiate training including certain prescribed subjects. Men who are not candidates for the degree may enter the school as special students, for work in any of the subjects offered in the regular course, by submitting evidence that will warrant their taking the work to their own advantage and that of the School. Those who have completed a general course in forestry are admitted for research and advanced work in Dendrology, Silviculture, Forest Management, Forest Technology and Lumbering. The regular two-year course begins the first week in July at the School camp, Milford, Pennsylvania.

*Opinion in Dundas.*

Dundas "Star," Aug. 3: No man cares to take up land and make improvements while constantly under the risk of having everything swept away without a moment's notice.

There will always be forest fires so long as the work of prevention is left in incompetent hands.

**TREES, SHRUBS AND SEEDS**

Hardy Northern Trees and Shrubs at Forest Prices. Native and Foreign Tree Seeds
