

Kyanize Your Home

KY-AN-IZE

For Every Room in the House

HOUSECLEANING is over and you're ready to Kyanize. You'll marvel at the difference in the scratched and spotted floors, the stairs, the furniture and other woodwork that shows the burden of last year's wear.

Make a comparison when you have finished one room with Kyanize Finishes and Kyanize White Enamel, and you'll find the difference will spur you on to complete the good work throughout the entire household.

Read what has happened to each room as described below.

1—Rain-blackened posts and porch rails restored to new whiteness—a lasting whiteness—by Kyanize White Enamel. Dull, dead varnished floors and steps, front door, vestibule and porch furniture just like new with Kyanize Waterproof Spar Finish.

1a—Now, Kyanize White Enamel for the upstairs porch whitework, and Kyanize Waterproof Spar Finish for the varnished work and table and chairs.

2—Demonstrating the beauty of Kyanize Colored Finishes in Reception Hall and Living-Room. Changed from light oak to handsome mahogany and beautiful sanitary white. The furniture made like new with Kyanize Mahogany and the floors restored with Kyanize Light Oak Finish.

3—A Dining-Room in which you'll be glad to eat. From battered walnut to the much desired Colonial without even the fuss of removing the old finish. Kyanize White Enamel on the wainscoting and wood trim. Kyanize Mahogany Finish on the old oak or walnut furniture and it's like new once more; and, last, Kyanize Finish (Natural) and your floor is a compliment to its surroundings.

4—Now for a bright and better Kitchen. Kyanize on the linoleum. Kyanize White Enamel on the sink, wainscoting and even on the walls, tinted as your taste demands, and you've completed a job to be kept clean with warm water and a damp cloth.

5—The Master's Own, finished in White Enamel with a mahogany set. The floor shows the effect of Light Oak Kyanize and the woodwork Kyanize High Gloss Enamel. Furniture changed to a beautiful mahogany with Kyanize Mahogany Finish no matter what its color was before.

6—Kyanize White Enamel on the Guest-Room makes the guest want to stay longer. Use it in Egg-Shell Finish on the furniture and a light pink or the color you like best on the walls.

7—A White Bathroom is imperative. Kyanize White Enamel will transform the most used room in the house. Porcelain-like, splash-proof and sanitary, and of course Kyanize Finish to withstand the overflowing tub or wash-bowl without injury.

8—And now the Billiard-Room or perhaps another Bedroom. Kyanize Finish in any of its nine popular colors, natural or clear, will please your tastes for both walls and furniture.

For the weather-exposed spots, like window-sills, front doors, etc., you will want rain, sun, heat, cold and water proof Kyanize Spar Finish.

This is the sign of the Kyanize dealer. If there is no dealer in your locality, send us your Dealer's name and 10c for postage. We will send you a 1/4 pint trial can of Kyanize (clear or any color) and a handy brush to apply it. Don't fail to mention the color you want. White Enamel if desired.
