

SKIVER'S Your Horror-Scope

APRIL 15, 1994

HAPPY BIRTHDAY! IN THE NEXT YEAR OF YOUR LIFE: Defer to those in positions of power and your political worries will become a thing of the past. "Trust the expertise of your government leaders," this is the first commandment. Your personal life will be filled with conflict if and only if you continue to tread the path you have this past year. Live a little, try new things, but never, never trust yourself.

ARIES (March 21-April 19): This will probably be a bad week. If you were thinking of doing any investing, it's probably not a good idea. Efforts you make to find a job will be futile and attempts to improve your education are probably senseless. Romance is not in the near future.

TAURUS (April 20-May 20): Pick a day this week (any day will do) and be assured that family conflict will occur. You should be suspicious when your partner stays late at work. S/he is having an affair. After all, it is the way of the world, so don't sweat it. Find someone else who is wallowing in the same pit of despair and join forces.

GERMINI (May 21-June 20): You are about to be approached for a raise, but the boss will change her mind and actually fire you. A conference away from your family and home-base is imminent. This will be an excellent opportunity to do all those things your mother told you not to. Get smashed and be as immoral as possible.

CANCER (June 21-July

22): Be a shit-disturber! Someone will try to take credit for the efforts that you have put forth. Be as malicious as possible and go about paying them back in the same deceitful, intemperate way they "one-upped" you. After all, it's "survival of the fittest." May the most inhumane win!

LEO (July 23-Aug. 22): This week someone very close to you will commit suicide and blame you. You will have a nervous breakdown. Your shrink will assure you that the friend's suicide was indeed your fault and you must accept this revelation. Your usual ability to talk other people into doing what you want will not work and you will be confined to one of our country's mental institutions never to be heard from again.

VAGRANT (Aug. 23-Sept. 22): The person you've loved since high school will marry someone else. You will be diagnosed with a terminal disease and your dog, Buffy, will be killed by a stray-bullet when a drive-by shooting occurs, wiping out your entire neighborhood.

LIBRA (Sept. 23-Oct 22): Authority figures will stand in the way of you getting what you want. Buy a gun! Brute force will work in this situation. **BE STRONG AND COURAGEOUS!**

Today's Children are spoiled rotten. Their parents won't give them enough work to do around the house and so they will laze around watching T.V., playing Virtual Reality Nintendo, and talking on cellular phones. All this will be fodder for their careers, however. In adulthood, they will be scientists, obsessed with trying to maintain their standard of living with the simultaneous consumption of the environment.

SCORPIO (Oct. 23-Nov. 21): You are in the spotlight, but not for long! Your fears will become reality when your best friend steals your collection of rare Marvel Comics and uses them for his paper mache sculptures!

SAGITTARIUS (Nov. 22-Dec. 21): The Dept. of Social Assistance will cut off your welfare checks! You will be forced to go back to your job at McDonalds and your girlfriend will surprise you with the news that she is three months pregnant.

CAPRICORN (Dec. 22-Jan. 19): The good cheer you experienced over the weekend will turn sour for the rest of the week. Your favorite soap-opera character will be killed off and your grandmother will have a sex-change.

AQUARIUS (Jan. 20-Feb. 18): An old friend from college will come back into your life. You will think that this has occurred because s/he actually wants to renew acquaintance. The fact is: this person will take you to small claims court to collect the money you borrowed for beer over a four-year period. If you think you're going to win the case, think again! During one of your weaker moments you promised to make good and your friend has proof in writing.

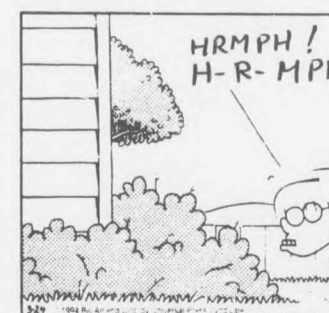

PISCES (Feb. 19-March 20): A reunion with old friends will take a turn for the worse when your children discover that they were all the result of artificial insemination. If that isn't bad enough, a friend of your husband will turn out to be one of the customers from your lucrative business in prostitution.

East Elaine tried to disrupt North Jerry's auction at the gig last night with a deep, husky phone voice and a three-piece suit.

A Pushy Gig

She pushed the contenders of the feat to a slam they could not have guessed was true. It was really Elaine that made that recording, and she told George!

East Elaine therefore won the first heart with West George. South Kramer threw his Clorets away, his hair in an array, and led the dummy's King of Hearts.

When North Jerry played the gig low, he thought the woman's voice was an Ace of Hearts from the pack. When West George and South Kramer exposed the deck to North, he became googly-eyed like the rest at East Elaine. "Wow!"

DAILY CRYPTOBOATS - Here's how to work it:

THIS IS ONLY AN EXAMPLE DUMMY

One boat stands for an anchor. An anchor for a letter. A duck for the letter after or before the letter of the boat's buoy's letter. The launch... forget it, if you can't figure it out, you'll just have to ask someone else!
