

## STEAM HEAT WITHOUT FURNACE

is the result of one of the most wonderful inventions of the century in the gas world. We have these Steam Radiators installed in so many places in Victoria to-day, and they are giving such excellent satisfaction, that we have had great trouble in being able to supply the demand, and still a year ago they were, so to speak, unknown here altogether.

The letter below speaks for itself, and we are only sorry that space prevents us from reproducing more evidence than this.

Victoria, B. C., February 3rd, 1910.

Messrs. Victoria Gas Co., City.

Gentlemen:—

I am pleased to say that the Clow Gas Steam Radiators I had installed in the new Lee Building are giving entire satisfaction.

Yours truly,

(Sgd.) THOMAS A. BRYDON.

Messrs. Victoria Gas Co., City.

Gentlemen:—

The Clow Gas Steam Radiator in my office in the Lee Building is giving every satisfaction and heats our office perfectly.

Yours truly,

(Sgd.) F. C. SWANNELL, B.C.L.S.

These Radiators, partly heating our own offices, can be seen at our salesrooms, **COR. FORT AND LANGLEY STS., VICTORIA, B. C. PHONE 123.**

Prices range from \$20 and upwards according to size.
