Haydn's Dictionary of Dates, Brought Down to 1889,

and are pleased to be enabled to offer this splendid book of universal reference, it being perfectly new, in cloth, for \$2.75. Published in England at 18s., and retails in Canada at \$6.80. A few copies, well bound in half calf, \$3.75. Published in England at 24s. ~~15s~~ The number being limited, and many copies already sold, we hope our own customers will take advantage of this opportunity and order immediately.

The "TIMES" declared :—"What the London Directory is to the Merchant, this Dictionary of Dates will be found to be to those who are searching after information, whether classical, political, domestic or general." This could be said upwards of thirty years ago, and the work has increased in bulk and improved in matter with every subsequent edition until it has a world wide-reputation.
